Nervous Prostration

Complete Recovery by the Use of

Ayer's Sarsaparilla

"Some years ago, as a result of too close attention to business, my health failed. I became weak, nervous, was unable to look after my interests, and manifested all the symptoms of a decline. I took three bottles of Ayer's Sarsaparilla, began to improve at once,

and gradually increased my weight from one hundred and twenty-five to two hundred pounds. Since then, I and my family have used this medicine when needed, and we are all in the best of health, a fact which we attribute to Ayer's Sarsaparilla. I believe my children would have been fatherless to-day had it not been for Ayer's Sarsaparilla, of which preparation I cannot say too much."-H. O. Hinson, Postmaster and Planter Kinard's S. C.

We are having plenty of snow, wind and rain; old Mother Earth is getting a good soaking; the wells are mostly all full of water, and the farmers are rejoicing over the future prospects of a bountiful harvest in 1896.

Geo. W. Jenkins, editor of the Santa Maria "Times," Cal., in speaking of the various ailments of children said: 'When my children have croup there is only one patent medicine I ever use, and tnat is Chamberlain's Cough Remedy. It possesses some medical properties that relieve the little sufferers immediately. It is, in my opinion, the best cough medicine in the market." If this remedy is freely given as soon as the croup cough appears it will prevent the attack. It is also an ideal remedy for whooping rough. There is no danger in giving it to children, as it contains nothing injurious. For sale by Blakeley & Houghton, Druggist.

Mr. Smith French brought to THE CHRONICLE office today a sample of the Kaffir corn, which is creating something of a stir in the agricultural world. This corn is said to be well suited for dry climates and to not only provide good feed for horses and cattle, but to be ground into flour, from which excellent bread can be made. Tomorrow THE CHRON-ICLE will publish an article upon the subject of the Kaffir corn. The subject is one of real interest to the farmers of Eastern Oregon. Mr. D. M. French, who leaves Wednesday to attend a meeting of the regents of the State Agricultural school, will ask that experiments be tried in growing Kaffir to see whether it will justify all that has been said about it.
