## THE DALLES PUBLIC BUILDING.

Below is published the bill which Senator Mitchell has introduced for a public building at The Dalles. While the measure is not likely to become a law, its provisions are of interest. It is entitled:

A bill for the erection of a public building for a postoffice and United States land office at the city of The Dalles, Oregon.

Be it enacted by the senate and house of representatives of the United States of America in congress assembled,

That the secretary of the treasury, and he is hereby authorized and directed to acquire, by purchase, condemnation, or otherwise, a site, and cause to be erected thereon a suitable building, including fireproof vaults, heating and ventilating apparatus, elevators, and approaches, for the use and accommodation of the United States postoffice and other government offices in the city of The Dalles, and state of Oregon, the cost of said site and building, including said vaults, heating and ventilating apparatus, elevators, and approaches, complete, not to exceed the sum of \$100,000, which said sum of \$100,000 is hereby appropriated for said purpose out of any moneys in the United States treasury not otherwise appropriated.

Proposals for the sale of land suitable for said site shall be invited by public advertisement in one or more of the newspapers of said city, of largest circulation for at least twenty days prior to the date specified in said advertisement for the opening of said proposals.

Proposals made in response to said advertisement shall be addressed and mailed to the secretary of treasury, who shall then cause the said proposed sites, and such others as he may think proper to designate, to be examined in person by an agent of the treasury department, who shall make written report to said secretary or the results of said examination, and of his recommendation thereon, and the reasons therefor, which shall be accompanied by the original proposals and all maps, plats, and statements which shall have come into his possession relating to the said proposed sites.

If, upon consideration of said report and accompanying papers, the secretary of the treasury shall deem further investigation necessary, he may appoint a commission of not more than three persons, one of whom shall be an officer of the treasury department, which commission shall also examine the said proposed sites and such others as the secretary of the treasury may designate, and grant such hearings in relation thereto as they shall deem necessary; and said commission shall, within thirty days after such examination, make to the secretary of the treasury written report of their conclusion in the premises, accompanied by all statements, maps, plats, or documents taken by or submitted to them, in like manner as hereinbefore provided in regard to the proceedings of said agent of the treasury department; and the secretary of the treasury shall thereupon finally determine the location of the building to be erected.

The compensation of said commissioners shall be fixed by the secretary of the treasury, but the same shall not exceed \$6 per day and actual traveling expenses: *Provided, however,* That the member of said commission appointed from the treasury department shall be paid only his actual traveling expenses.

So much of the appropriation herein made as may be necessary to defray the expenses of advertising for proposals, actual traveling expenses of said agent, and the compensation and actual traveling expenses of said commissioners, and other expenses incident to the selection of the site, and for necessary survey thereof, shall be immediately available.

So much of said appropriation as may be necessary for the preparation of sketch plans, drawings, specifications, and detailed estimates for the building by the supervising architect of the treasury department shall be available immediately upon the approval by the secretary of treasury of such site.

No money appropriated by this act shall be available, except as hereinbefore provided, until a valid title to the site for said building shall be vested in the United States, nor until the state of Oregon shall have ceded to the United States exclusive jurisdiction over the same during the time the United States

shall be or remain the owner thereof, for all purposes except the administration of the criminal laws of said state and the service of civil process therein.

After the said site shall have been paid for and the sketch plans and detailed estimates for the building shall have been prepared by the supervising architect and approved by the secretary of the treasury, the secretary of the interior and the postmaster-general, the balance of said appropriation shall be available for the erection and completion of the building, including fireproof vaults, heating and ventilating apparatus, elevators, and approaches.

The building shall be unexposed to danger from fire by an open space of at least forty feet on each side, including streets and alleys.

The reported fact that the O. R. & N. is to have an independent existence and management, is good news. It would be better for the country if all railroads were owned by home capitalists who are more or less in sympathy with the conditions which govern the business affairs of the people. The O. R. & N. Co., with headquarters in Portland, will be a good piece of property, provided the policy of building up the country tributary to the road is fostered.

### OF NEIGHBORLY INTEREST.

Evening Telegram: For the past four or five years the organization known as the Oregon immigration board has been practically dead, largely on account of lacking funds to further its purpose. This failure to advertise the desirability of this state as a place of residence has been felt by the business community in the decrease of the number of immigrants. It is intended to organize county committees, who will take care of arriving immigrants, and also to publish a monthly pamphlet or magazine, with fresh matter, describing different sections of the state, in each issue. The railroads promise their full support, and with the aid of the business community, the Pacific Northwest immigration board seems an assured success.

Goldendale Sentinel: Mayor Brooks received a letter from Day Bros. last week stating they would be in Goldendale in the near future to further examine the proposed route of the railroad to Lyle, and if as favorably impressed with the situation as at present, they will sign a contract to build the road, providing our citizens grade twenty miles on this end of the line. A letter was also received from parties connected with the Vancouver road, stating they were coming to look over the route. Eastern parties are figuring on building a line from the mouth of Rock creek through the valley to the mouth of the Klickitat, to use the same as a local and portage road combined. The prospects are bright for rail communication with the river at no distant day.
