FIRST STEP TAKEN

In a Commercial War
Against England.

MINING MACHINERY IS SEIZED

HOW THE LAWS WERE VIOLATED

English Officers Leave Georgetown for
the Uruan Station—American Flag
Distasteful to British Guiana
Officials.

NEW YORK, Jan. 21.—A dispatch to
the Herald from Caracas, Venezuela,
says:

The cabinet is now discussing a case
which has attracted much attention
here. It involved the introduction of
manufactures from England into the
republic, and is the first step, perhaps, in
practical application of the suggestion
that commercial warfare be waged
against England and all European
countries.

George Turnbull, of Boston, who
claims part ownership of the great iron
mines in the Imataca mountains, not far
from the Orinoco, and within the territory
contested by England, started from
Great Britain with mining machinery
and material which were consigned to a
firm in Ciudad, Bolivar.

In the course of his voyage he stopped
at Barbadoes, where he disembarked
with his material. There he chartered a
vessel and had a manifest approved, his
destination being La Guayra. When
Mr. Turnbull arrived at La Guayra the
collector of customs said that all was
right and he dispatched deputy to see
that the English material was properly
re-embarked for the mines. Mr. Turn-
bull taking a tug from Bolivar. There,
when he offered to pay the duty on the
machinery he was told he had violated
the law in not going to the point originally
appearing in the manifest. He was
further informed that his act was re-
garded as an invasion of Venezuela's ter-
ritory, and that it was probable that his
machinery would be confiscated.

The mines near Imataca are in the
territory covered by the Manoa grant,
owned by an American syndicate and in-
cluding nearly 15,000,000 acres. The
grant was made by President Crespo for
the purpose of developing the country
now claimed by England.

The prize offered by the Pregonero in
its fight for a commercial boycott against
Europe has been awarded to one who
makes a proposal that a standing notice
shall appear in the press generally, telling
citizens of Venezuela who purchase
British products that they thereby in-
crease British power.

IN BRITISH GUIANA.

English Officials Leave Georgetown for
the Uruan Station.

NEW YORK, Jan. 21.—Advices to the
World from Georgetown, British Guiana,
under date of January 6, say:

Colonel McNails, chief of the constabulary corps in this colony, accompanied
by Lieutenant Godfrey Fawcett, an
East Indian sapper, visiting British
Guiana on department duty. Mr. Michael
McTurk, magistrate, and several
constables, proceeded from Georgetown
to the Uruan station on January 4, on
what is said to be a visit of inspection.

A large number of additional men of
the constabulary have been drafted.

A report has reached here of an episode
of interest in connection with the
visit of the acting governor to Bartica.
The streets of the town were gaily decorated
with bunting, foliage and flowers, for
several days preceding the arrival of
the official visitor. Conspicuous among
the decorations were many American
flags. A few hours before the governor
reached the city Michael McTurk and

Captain Baker, inspector of prisons, ar-
rived at Bartica. Some few minutes
later not a single American flag was
visible in the streets. The sudden dis-
appearance of the stars and stripes caused
comment and it was finally explained
that the American flags had been re-
moved out of deference to the request of
Magistrate McTurk.

Willing to go Half Way.

OTTAWA, Jan. 21.—Mr. McMillan on
Wednesday will move that whereas the
United States government offers to admit
free of duty plows, harrows and certain
other agricultural implements from any
country, which admits free of duty
articles imported from the United States
it will be greatly in the interest of both
the Canadian agriculturalist and Canadian
manufacturers that Canada should
accept that offer by admitting those
articles into Canada free of duty, and at
the same time so relieving the Canadian
manufacturers of the taxation on the raw
material as to enable them to take ad-
vantage of the markets of the United
States.

Held as Hostages.

LONDON, Jan. 21.—A dispatch from
Coomassie, says King Prempeh of
Ashantee, the queen mother, the two
envoys recently in England, and several
chiefs, have started under escort for
Cape Coast Castle, where they will be
prisoners pending the settlement of the
indemnity to be paid Great Britain by
Ashantee.

Japanese Acquitted.

YOKOHAMA, Jan. 21.—Viscount Muira,
formerly Japanese minister to Corea,
and others charged with complicity in
the Corea coup d'état, and murderer of
the queen, has been acquitted.

HOUSE COMMITTEES.

Free Homestead Bill Considered by
Committee on Public Lands.

WASHINGTON, Jan. 21.—The house
committee on public lands has received
from Secretary Smith, a strong adverse
report against the free homestead bill.
The bill absolves all persons completing
a five years residence on lands, taken
and occupied under the homestead laws
from making further payments to secure
their title other than the fees incident
to the filling and obtaining proof. The
measure is a sweeping one and the land
officials estimate its passage would in-
volve at least \$30,000,000 cost to the
government and \$18,000,000 to Oklahoma
alone, this being the amount paid the
Indians for the relinquishment of their
lands.

WORK FOR THE JUDICIARY COMMITTEE.

WASHINGTON, Jan. 21.—The house
committee on judiciary today took steps
to investigate the action of Controller
Bowler, in withholding the sugar-bounty
appropriation. A substitute for Boat-
ner's resolution, drawn by Mr. Ray, was
adopted. It is more comprehensive
than the original and avoids special
reference to Bowler.

Allison Succeeds Himself.

DES MOINES, Ia., Jan. 21.—The legis-
lature proceeded today to elect a United
States senator. The vote in the senate
stood: Allison, 42; Babb, 6. House—
Allison, 73; Babb, 19; Stuart, 1.

A. E. Kilpatrick, of Fillmore, Cal.,
had the misfortune to have his leg
caught between a cart and a stone and
badly bruised. Ordinarily he would
have been laid up for two or three weeks,
but says: "After using one bottle of
Chamberlain's Pain Balm I began to
feel better, and in three days was entirely
well. The peculiar soothing qualities
which Chamberlain's Pain Balm pos-
sesses I have never noticed in any other
liniment. I take pleasure in recom-
mending it." This liniment is also of
great value for rheumatism and lame
back. For sale by Blakeley & Houghton,
Druggist.

If there is any one thing that needs
to be purified, it is politics, so the re-
former says, and many agree thereto.
But blood tells, and as a blood purifier
and liver corrector Simmons Liver Reg-
ulator is the best medicine. "I use it in
preference to any other."—So wrote Mr.
S. H. Hyatt, of Middleport, Ohio. And
Dr. D. S. Russell, of Farmville, Va., writes,
"It fulfills all you promise for it."

Geo. W. Jenkins, editor of the Santa
Maria "Times," Cal., in speaking of the
various ailments of children said:
"When my children have croup there is
only one patent medicine I ever use, and
that is Chamberlain's Cough Remedy.
It possesses some medical properties
that relieve the little sufferers immedi-
ately. It is, in my opinion, the best
cough medicine in the market." If this
remedy is freely given as soon as the
croup cough appears it will prevent the
attack. It is also an ideal remedy for
whooping cough. There is no danger in
giving it to children, as it contains nothing
injurious. For sale by Blakeley &
Houghton, Druggist.

"Castoria is so well adapted to children
that I recommend it as superior to any prescription
known to me." H. A. Anscher, M.D.,
121 South Oxford St., Brooklyn, N.Y.

"For several years I have recommended your
'Castoria,' and shall always continue to do so,
as it has invariably produced beneficial results."

CHARLES F. PARKER, M.D.,
123rd Street and 7th Ave., New York City.

"The use of 'Castoria' is so universal and
its merits so well known that it seems a work of
supererogation to endorse it. Few are the in-
telligent families who do not know Castoria
within easy reach."

There is a big demand for Wasco
county warrants and there is no difficulty
in selling them at par. A year or so ago
they were selling at from 90 to 95 cents,
but there is now plenty of money in
town to take up the whole issue at par.
If some of this capital could be used in
establishing some manufactory—say
woolen mill for instance—the benefit
to the town and to the inventor would be
far greater.
