A SPECIFIC

La Grippe, for Colds, Coughs, AND LUNC TROUBLES,

YER'S CHERRY PECTORAL

"Two years ago, I had the grippe, and it left me with a cough which gave me no rest night or day. My family physician prescribed for me, changing the medicine as often as he found the things I had taken were not helping

me, but, in spite of his attendance, I got no better. Finally, my husband,-reading one day of a gentleman who had had the grippe and was cured by taking Ayer's Cherry Pectoral,-procured, for me, a bottle of this medicine, and before I had taken half of it, I was cured. I have used the Pectoral for my children and in my family, whenever we have needed it, and have found it a specific for colds, coughs, and lung troubles."-EMILY WOOD, North St., Elkton, Md.

Last Night's Dance

A merry crowd of dancers assembled at the Baldwin opera house last evening and from 9 o'clock to 12 sanced to the inspiring strains of the Orchestra Union's music. The occasion was an exceedingly pleasant one, there being enough on the floor to add brilliancy to the scene, and yet not too many for the comfort of the dancers. The young ladies were attired in becoming costumes and looked their prettiest, the gentlemen not lacking in gallantry. The hours sped quickly away, and the arrival of midnight brought to a close a delightful occasion. It was the expressed wish of those who were present that a repetition would soon occur. Among the dancers were:

Speedily Cured by

CUTICURA REMEDIES

I was a sufferer for eight years from that most distressing of all diseases, Eczema, but can now say truchfully that I am entirely curred. I tried some of the best physicians in the country, but they did me little good. The palms of my hands were covered, and would become inflamed; little white blisters at first would appear, then they would peel off, leaving a red, smooth surface which would burn like fire and itch; well, there is no name for it. On the inside of the upper part of both my limbs, great red blotches not unlike hives would appear, and as soon as I became warm, the burning and itching would begin. Night after night I would lie awake all night and seratch, and almost go wild. I heard of Cuticura remedies, got a box of Cuticura (olintment), a bottle of Cuticura Resolvent (blood purifier), and gave them a thorough trial, and after a few applications I noticed the redness and inflammation disappear; before I had used one box there was not a sign of Eczema left. I can truthully assert that \$2.00 worth of Cuticura Remedies, cured me. Any one I meet who has Eczema, I do not hesitate a moment in recommending your remedies.

A Cordwood Trust.

The low price of cordwood in The Dalles this winter has been one of the marked conditions of the season's trade. A rivalry among some of our leading firms has put the price down to a figure that makes it cheap to keep warm. Large quantities of cordwood have been brought up the river and the great erpply coupled with the fact of the m'd weather we have been having, made the wood a drug on the market. The beach has been, and is yet, covered to a large extent with wood. The cutters be tween here and the Cascades have not enjoyed the cut war here, and are murmuring because of decreased return for their labor. They are thinking of imitating some of the big eastern concerns and forming a trust and by means of it, Tourist cause the price to raise. Here is what the Stevenson Piencer has to say of the project:

We understand there is a movement on foot among the cordwood men along the river to form a combination for the purpose of putting up the price of wood. This is a step in the right direction, and it seems to be the only way out of the present difficulty. The present price is so low that wood cutters can scarcely make their grub, and it is foolish for men to wear their lives out at work at which there is no possibility, even with the greatest economy, of getting shead at all. When a man works hard he should get such compensation for his labor that he can get something abend in case of sickness. If a man cannot get such compensation he had better rustle for another job. Therefore we say let the cordwood men all along the middle river combine, and not sell a stick of wood for less than living prices. They have everything in their own hands if they will only take advantage of the situation.
