The Dalles Daily Chronicle.

Entered at the Postoffice at The Dalles, Oregon as second-class matter.

THURSDAY, - - JANUARY 30, 1896

BRIEF MENTION.

Leaves From the Notebook of Chronicle Reporters.

To night Effie Ellsler At the Baldwin. Weather today and tomorrow, fair and cooler.

A gent's diamond ring for sale. Apply at this office. j29-2t

Seats for the Effie Ellsler performance are now on sale at the usual place.

A marriage license was granted today to John W. H. Cantrell and Mary F. Douglas.

Reserved seats for the Effie Ellsler performance can be secured at Blakeley & Houghton's.

The peace of the city was unbroken last night and the police court this morning devoid of occupants.

The cold weather last night froze the mud in the streets, and made the crosswalks have a more decent appearance.

The Seufert-Condon Telephone Company is getting out a new exchange list—all numbers up to date. The list will contain nearly three hundred names.

In yesterday's CHRONICLE in referring to a bond for a deed filed for record, the item should have read from John Prall to Melissa Potts instead of as printed.

A telegram sent by the authorities at Cascade Locks to Albany, was not successful in discovering any relatives of William Murray, the man who was killed at the Locks Tuesday.

A deed was filed in the county clerk's office to day from D. F. Pierce and wife to Charles R. Bone, conveying all of lots 3 and 4 in block 8, in the second addition to the town of Hood River.

The Dalles has a Michael Angelo in disguise. J. E. Hardy has branched out in the realms of imaginative art, and has on exhibition in the show window of Blakeley & Houghton's a creation from his brush.

Guard mount drill was held at the armory last evening. The field officers of the regiment were present, and the members of Co. G. were put through some good exercising. Thirty-five of the company's members were present.

The appliances for the gymnasium of the Athletic club have been shipped and can be expected to arrive almost any day. The apparatus from Providence, Rhode Island, was shipped on January 14th. That from Chicago, a few days later.

As soon as the weather permits, Surveyor Sharp will, in company with the Rattlesnake road commissioners, make a survey of the grade on this side of the Deschutes. The county court will be asked for an appropriation to make this grade as good as the Rattlesnake grade.

The aid granted by the Sherman county court makes the completion of the road assured, and the Sherman county farmers will have another outlet for their produce.

We learned today that W. H. Fowler had been summoned to Portland to take a passenger run between Portland and Pendleton. Mr. Fowler is a competent and obliging railroad man, and his promotion will be very acceptable to the traveling public.

W. H. Moore, C. L. Ireland and J. C. Burkes have been chosen delegates from the Moro McKinley club to the Portland convention. From Grass Valley Wm. Holder, R. E. French, Grant Hawley, J. Harvey Smith and C. W. Moore are the representatives. James H. Frazer and Elwood Thompson go from Monkland.

For the past week daily shipments of sturgeon have been made through the Pacific Express company. The fish that are being caught are mainly small ones, though among them are some of good size. A few years ago there was little or no demand for this variety of fish, but of late they have come into favor and find a ready sale in the Eastern markets.

The people of The Dalles will have an opportunity this evening to witness a theatrical performance of high grade. Miss Ellsler and her company are actors and actresses of recognized ability. They have received flattering press notices wherever they have played. Regarding the engagement just closed at the Marquam in Portland, the Oregonian and Telegram speak in high terms.

Mr. Paul Krefl, the boss painter, who has been kept busy here for the past several months, completed work on the new Masonic hall this week, and is now repainting and re-papering the Mays residence in Lower Antelope, preparatory to—well, we'll not let out on Robt. Jr. yet. After this job is completed Mr. Krefl will depart for his home at The Dalles. His work has given the very best of satisfaction, and he has made scores of friends here, who will regret to see him leave.—Antelope Herald.

A rousing meeting of the Antelope Republican club was held last Saturday. Delegates were chosen to the state convention of clubs as follows: Wilbur Bolton, C. B. Durbin, E. M. Shutt, M. E. Miller and T. J. Harper. Previous to this, an election for officers was held which resulted in the choice of Wilbur Bolton, president; C. B. Durbin, vice-president; E. M. Shutt, secretary; A. M. Kirchner, treasurer; J. T. Bennett, sergeant-at-arms. The club is in prosperous condition, there being 91 names on the membership roll.

The engagement of that bright and intelligent actress, Effie Ellsler, commences at the Baldwin tonight. Miss Ellsler's visit to the city is a dramatic episode highly valued by our playgoers, for a more conscientious and thorough artist cannot be found on the stage today, and her supporting company never retrogrades from the excellent standard of that which has ever constituted her support. Tonight Miss Ellsler will be

seen in Alexander Dumas' "Camille," and tomorrow night in a magnificent production of Shakespeare's "As You Like It." A prominent addition to the company is Mr. John A. Elleler, who will direct the performances. Mr. Frank Weston will also appear in both bills.

In arranging a schedule embracing so many dates as are in the lecture course, it was impossible but that some changes would occur making a necessity for re-adjustment. Such a change is necessary on the next date printed on the season tickets, Feb. 4th. The lecture for that evening, will have to be postponed until the 18th. The following lecture will be given on the 25th. The remaining ones we hope will take place on the dates as given on the tickets.

The dispatches yesterday say that Senator Mitchell has introduced a bill appropriating \$5000, in addition to the amount already appropriated, for the construction and equipment of a boat railway between The Dalles and Celilo. There must be some mistake in the figures quoted, as \$5000 would be a mere bagatelle in a work of this magnitude—not a sufficient sum to occupy the attention of the senate long. It is probable that \$50,000 is the amount asked for. The surveys have already been made by the engineering corps, and whatever amount now appropriated would be for the actual work of construction. The bill, which we assume is for a larger amount, will not pass without strong opposition, and the Oregon delegation will have an opportunity of showing what influence it possesses in the halls of congress.

The taxpayers should keep in mind the school meeting tomorrow afternoon at 2 o'clock in the Court street school house. This meeting will be one of the most important ever held in the district and it should be the understood duty of every taxpayer to be present. Retrenchment is the cry all over the state, and while strict economy should be used, the district should not be niggardly in providing for its schools. The project of building a new school house should be calmly and carefully considered and if it is decided to build, the tax should be cheerfully voted. Above all things let the taxpayers of the district be well represented and an opportunity be given for a free expression of opinion. The public schools of this city are her pride, and the only question to be considered is how to increase their efficiency with the least inconvenience to the taxpayers.

The contract for building the bowling alley in the Commercial and Athletic Club, was awarded yesterday to Mr. Hugh Glenn. The plans and specifications, which were prepared by an architect in Portland, provide for the building of a double alley similar to that in the Multnomah Athletic Club. Work will not be begun until next week, as the materials are yet to be selected. The brick wall near which the alley is to be built received a thorough soaking at the time of the fire last summer, and still contains a great deal of moisture, which

has caused a great deal of inconvenience in the re-fitting of the building. For this reason the alley could not have been begun sooner. Those who have examined the plans and who have inspected the alley at the Multnomah club, and who are competent to judge, say that the alley, when done, will be complete in every particular, and the members of the club will have every opportunity for becoming good bowlers.

To Exterminate the San Jose Scale.

Mr. Emil Schanno, who is a member of the State Board of Horticulture, has been investigating the subject of a means to exterminate the San Jose scale and aphid. This inquiry has led to the belief that the remedy printed below will prove efficacious in destroying this enemy of the fruit men. The wash is a preparation to be used in winter time, and it should be applied during the next two months. The formula is as follows:

The following formulae and directions if properly carried out, will produce an effective solution for San Jose scale and aphid.

- 50 lbs. Lime.
- 50 lbs. Sulphur.
- 50 lbs. of Stock Salt.

This will make 150 gallons of wash. Directions—Slack 25 lbs. of lime, then add the 50 lbs. of sulphur, boil it over a brisk fire for one hour, then slack the remaining 25 lbs. of lime, then place all the salt with it in the boiler and boil for fifteen minutes more, then add the necessary amount of water to make 150 gallons.

This solution should be used at a temperature of at least 100 degrees. Before using strain it. This is an excellent winter wash for fruit trees.

The utility of this wash depends a great deal upon the strength of the sulphur. It is therefore recommended that those who use this wash have a Beaumes scale for acid. When it shows eight degrees when cold, it is of the proper strength. These scales can be obtained through any druggists, at a cost not to exceed fifty cents.

No more BOILS, no more PIMPLES—Use Kinerly's Iron Tonic. The Snipes-Kinerly Drug Co. Telephone No. 3.
