After Acute Bronchitis  
CURED BY USING  
**AYER'S Cherry Pectoral**  
A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry

Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral.—E. M. BRAWLEY, D. D., Dist. Secretary, Am. Bapt. Publication Society, Petersburg, Va.

**EDITOR CHRONICLE:**

As a counter irritant, to this powerful emetic gratuitously administered to the honorable county court of Wasco county (emanating from some of Hood River's sensational citizens,) I beg leave to state a few facts and figures.

At present Hood river is "flowing unweeded to the sea." If Mr. Parker, or anybody else sees fit to float timber of any kind down said stream, he or they are at perfect liberty to do so for the simple reason that he, nor no other man can handle cordwood in Hood River valley at \$2 per cord on board cars and have any margin left, and if the H. R. L. Co. had their boom in place right now, and would run and boom his 2000 cords for 10 cents per cord, I believe he would not avail himself of such an offer with cordwood at its present price.

Mr. Parker adroitly cites you to the timber twenty-four miles up the river (mostly owned by speculators) and intimates that had it not been for the granting of this lease, that timber would be available now, for commercial purposes. At the same time knowing, as he certainly must, that that particular body of timber is hermetically sealed and of no practical value for commercial purposes without the completion of the proposed improvement of Hood river, by which time it is supposed the county court takes control of rates. As to there being "not much good timber short of twenty-four miles," the man simply makes a very large mistake. Others, who have seen that country, will say there is 20,000 acres of firm fair to good timber short of the twenty-four mile limit, and tributary to Hood river. It would be just as sensible to talk about getting those logs to the front from that twenty-four mile limit, with a cant hook, overland, as to talk about driving Hood river from that point without first expending thousands of dollars in the way of clearing the bed of the stream of obstructions, building splash dams, etc.

Now, Mr. Editor, I will say to you that Hood river is not, and never will be without it is first largely improved, the statement of some of Hood River's wisacres to the contrary, notwithstanding. I have tried to drive Hood river myself and invariably came out at the little end of the horn. I have also seen others driving the aforesaid stream, and they also complained of being forced through the same small aperture. Whenever you meet a man that is enthusiastic in his desire to drive Hood river in her present condition, you can safely set him down for a tenderfoot.

Cordwood, in considerable quantities, has been driven, or rather carried, down from fifteen or twenty miles at one time, but it was five or six weeks in transit, and was in a deplorable condition when it arrived at its destination.

Respectfully,  
LINN WINANS.

Geo. W. Jenkins, editor of the Santa Maria "Times," Cal., in speaking of the various ailments of children said: "When my children have croup there is only one patent medicine I ever use, and that is Chamberlain's Cough Remedy. It possesses some medicinal properties that relieve the little sufferers immediately. It is, in my opinion, the best cough medicine in the market." If this remedy is freely given as soon as the croup cough appears it will prevent the attack. It is also an ideal remedy for whooping cough. There is no danger in giving it to children, as it contains nothing injurious. For sale by Blakeley & Houghton, Druggist.

The exposure to all sorts and conditions of weather that a lumberman is called upon to endure in the camps often produces severe colds, which, if not promptly checked, result in congestion or pneumonia. Mr. J. O. Davenport, ex manager of the Fort Bragg Redwood Co., an immense institution at Fort Bragg, Cal., says they sell large quantities of Chamberlain's Cough Remedy at the company's store and that he has himself used this remedy for a severe cold and obtained immediate relief. This medicine prevents any tendency of a cold toward pneumonia and insures a prompt recovery. For sale by Blakeley & Houghton, Druggist.

**None But Ayer's at the World's Fair.**

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed on exhibit at the world's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the world's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."
