

### LOSS OF VOICE After Acute Bronchitis CURED BY USING **AYER'S Cherry Pectoral**

#### A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry

Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral."—E. M. BRAWLEY, D. D., Dist. Secretary, Am. Bapt. Publication Society, Petersburg, Va.

#### PERSONAL MENTION.

Ex-Gov. Moody is in the city.

Mr. I. H. Taffe of Celilo is in town today.

Geo. A. Young of Bakeoven returned home today.

School Superintendent Shelley went home by the Regulator this morning.

Rev. M. L. Zweig, pastor of St. James Evangelical Lutheran church of Portland arrived in town on the noon train today.

Mrs. Wm. E. Sylvester went to Portland today by the Regulator line. She will spend some time with her daughter, Mrs. Emory Oliver.

Mr. F. H. Rowe was a passenger by the Regulator on his way to his lumbering operations on the Klickitat, where he proposes to commence work at once. He has a large quantity of pine log ready for the mill.

E. C. Pease, of the firm of Pease & Mays, accompanied by his wife returned home by the noon train today, from a trip to the bay city. We presume he is "loaded for bear" in the dry goods line. He says Tom Ward came as far as Portland and will be up on the noon train Monday.

Col. Sinnott, of Umatilla House fame, arrived in Portland yesterday, accompanied by his excellent wife. They will be home tomorrow, where their numerous friends will be glad to welcome them. The Col. and Mrs. Sinnott have spent the winter amongst the orange groves of California and we long to hear him tell of his experience.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75 cents.

#### It May Do as Much for You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called kidney cures but without any good result. About a year ago he began to use Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all Kidney and Liver troubles and often gives almost instant relief. One trial will prove our statement. Price 50c and \$1.00. At Blakeley & Houghton's Drug Store.

A high liver with a torpid liver will not be a long liver. Correct the liver with DeWitt's Little Early Biscuits, little pills that cure dyspepsia and constipation. Snipes-Kinerey, Drug Co.

#### A QUESTION OF VISION.

Incidents Which Go to Show That Mind and Not Eye Sees.

It is an admitted fact that the eye is the "organ of vision," yet there is but little doubt, even in the minds of opticians and physiologists, that the phenomenon of "seeing" is chiefly mental—in other words, that it is the mind and not the eye that "sees."

How often have you seen a friend who, seemingly, was engaged in looking intently on some object on the table, at the opposite side of the room, or at some picture, who, on being aroused from his day dream, would confess that he was "looking at nothing in particular." The explanation of the fact that he saw "nothing in particular" is plain enough if properly set forth. It was because his mind was busy with other times and scenes.

Faces, bits of wayside scenery, and the like, were being presented to view in the panorama of the mind, and the "mind's eye"—or mental vision—was engaged in eagerly scanning of impressions made thereon years or scores of years before. Again, if you want to know whether your companion looked at his watch with his brain or his eyes, ask him the time of day after he puts the timepiece in his pocket.

#### PREPARED FOR EMERGENCIES.

Young Man Who Got a Clerkship in Anticipation of His Prodigality.

Here is a story that one of the southern members vouches for, according to the Washington Post. A young man, one of his constituents, applied to him for a \$1,000 clerkship. The member secured the appointment, but the day before the constituent was to be sworn in he came to his representative in a troubled state of mind and said:

"Colonel, I have had \$125,000 left me by an aunt, and, my God! just think what I have to go through again."

"Let me congratulate you," said the representative.

"No, don't do that," said the constituent; "you don't know what you're congratulating me on."

"Yes, I do," said the member, "for now you can live without working."

"Colonel," said the distressed young man, "I may as well tell you. Several years ago I had \$100,000 left me by another aunt and it took me nearly a year to spend it. After I got through I had to go to the hospital for six months to get over the effects of my dissipation. The reason I came to see you to-day was to ask you to keep that place for me until I can spend this money."

#### London's Big Wheel.

The big wheel at Earl's Court, London, has so far been an undoubted success. It has only a record of 15 weeks' work, but during that brief period receipts amount to upward of £23,000, or an average of £250 per day. The total number of passengers carried round the wheel was 430,000. The result is an interim dividend of ten per cent., and a future dividend of nine per cent., with £2,000 carried to the depreciating account.

#### Where Water Is Deep.

A deeper spot in the ocean than yet known has been found recently by her majesty's surveying ship Penguin in latitude 23 degrees 40 minutes south, longitude 175 degrees 10 minutes west. A fault in the wire caused the sounding to be abandoned after 4,900 fathoms had been run out without touching bottom.

#### METHODS OF MODERN AUTHORS.

Novels Compressed or Padded to Suit the Publisher's Needs.

There is now an author before the public whose writings have a wide audience, but who has recently been told by the critics that his work is deteriorating. This is true, says E. W. Bask in the Forum, and it is not strange that it should be so. He is a man who as a writer shows the highest art in his work, and his earlier books demonstrate this fact beyond a doubt. But he has come under the influence of the dollar, and now writes what is called "to order." Not long ago a magazine editor approached this author for his next work and found him just starting upon it.

"I would like it," said the editor. "What will you pay for it?" was the author's first question.

"How long will it probably be?" inquired the editor.

"Oh, I can make it just as long or as short as you want it," said the obliging author. Then he added: "It depends upon the price. I can make a 40,000-word story of it if you like, and then it will cost you \$6,000. Or I can spin it out to 60,000 words—and that is really what I ought to have to let the story tell itself, but then I will want \$7,500 for it. Of course, if you can't pay more than \$6,000, I can trim it accordingly."

The real question of the story itself did not enter into the question. It was simply a matter of price. You paid so much and got so much. If you paid a little more you received a little more. It was Anthony Trollope over again.

#### What Causes Pimples?

Clogging of the pores or mouths of the sebaceous glands with sebum or oily matter. The plug of sebum in the centre of the pimple is called a blackhead, grub, or comedone.

Nature will not allow the clogging of the pores to continue long, hence, inflammation, pain, swelling and redness; later pus or matter forms, breaks or is opened, the plug comes out, and the pore is once more free.

There are thousands of these pores in the face alone, any one of which is liable to become clogged by neglect or disease.

#### What Cures Pimples?

The only reliable preventive and cure, when not due to a constitutional humor, is

#### Cuticura Soap

#### None But Ayer's at the World's Fair.

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed on exhibit at the world's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the world's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."
