GILLIAM COUNTY WOOL SHIPPERS.

Under the rule that if a thing is good, push it along, too much cannot be made of the growing importance of The Dalles as a wool market. Last summer all previous records of the amounts of wool shipped from this point were broken, and those who have studied the question declare that the coming season will see previous years surpassed. As each wool shipper in the interior received his returns last summer from his wool sales and compared the figures he received with those paid in other places, he immediately announced his intention of shipping to The Dalles again; and not only that, but each wool shipper and teamster became an advertising medium of the advantages to be found in The Dalles, in this way such intelligence reaching remote places where the newspapers do not go.

A striking confirmation of the truth we have been telling is found in the last issue of the Arlington Record, that paper editorially declaring:

We understand that a proposition will be made to the railroad company, coming from the Sheepmen's Union asking a minimum rate for hauling wool to The Dalles. If the proposition is accepted the wool will be hauled here for shipment, otherwise it will be taken with teams direct to The Dalles. Whether we are willing to admit it or not, The Dalles is the best wool market in the state east of Portland, and the wool growers, who, to say the least, have suffered their share of the reduction of prices during the hard times, are determined to get all possible out of this year's clip. At present the rate for wool from Arlington to The Dalles is 40 cents. Without doubt the representatives of the company will meet the sheepmen on any reasonable proposition rather than lose the shipment of all the vast wool clip which otherwise would be loaded at this station.

We doubt exceedingly if the shippers will be able to secure the desired reduction from the railroad. Although the cause is just, railway corporations are not accustomed to look at the equity of a thing.

A reading of the article quoted will show to the business men of The Dalles of what vital importance it is that every facility possible be given to wool shippers to reach this city. The Fossil people are asking to come, and now the Sheepmen's Union of Gilliam county, a representative organization of its kind, declares the intention of wool men to haul their products to The Dalles.

More important to the people of this city just at present than the questions of national policy is this business proposition which we are called upon to face. Every citizen interested in the material growth of The Dalles must consider the subject of making such roads into the

interior as shall draw to The Dalles the trade from distant sections. It is a subject which will bear repeated consideration, and it is the intention of this paper that its readers shall never have cause to complain that THE CHRONICLE was derelict in not urging with all possible vigor the need of intelligent, concerted action.

The news from Rhode Island will be disappointing to Democrats. Several free trade organs have been predicting a decreased Republican majority in little Rhoddy, but their expectations met an early death. The returns show the re-election of the Republican governor, Lippitt, by a plurality over Littlefield, Democrat, of 10,978. One year ago these two ran against one another and Lippitt's plurality reached 10,899. So not only is Rhode Island steadfast in her fidelity to the Republican party, but gives a larger plurality than a year ago. All the Republicans have to do in order to land their candidate in the White House is to hold the vote of last year and this, judging from Rhode Island, they are likely to do. The only time for the Democratic party to rejoice is before election, for after that event there will be a wailing and gnashing of teeth for the followers of free trade. Rhode Island leads the way.

THE DALLES TALKED ABOUT.

Arlington Record: The Dalles papers are still talking of the road from that city to Fossil. It is about thirty miles farther from Fossil to The Dalles than to Arlington, besides over a much worse road. Mr. Steiwer was in The Dalles this week looking after the building of the road.

Salem Statesman: "The business outlook in The Dalles was never brighter than it is today. Not only is the amount of building and improvements going on large, but a feeling of confidence exists, which augurs well for the city's future," says The Chronicle of that city. We are glad to hear it. The good times are not far distant. The year 1892 will see the coming period of prosperity and purpose for the whole country, and more especially in the Northwest, well under way.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. If there is any one thing that needs to be purified, it is politics, so the reformer says, and many agree thereto. But blood tells, and as a blood purifier and liver corrector Simmons Liver Regulator is the best medicine. "I use it in preference to any other."—So wrote Mr. S. H. Hysell, of Middleport, Ohio. And Dr. D. S. Russell, of Farmville, Va., writes, "It fulfills all you promise for it."
