THE JACKSON TRIAL

Testimony Given in the Case Today.

PROSECUTION NOT YET FINISHED

Autopsy Revealed the Presence of No Poison Except Cocaine—Wm. H. Rankin Dead.

NEWPORT, Ky., April 24.—The first witness today in the Pearl Bryan murder trial was Allen Johnson, a colored bartender, who testified yesterday to the presence of Pearl Bryan with Jackson at Wallingford's saloon on the evening of Friday, January 31st, the night before the dead body was found, and also about the visit of Attorney Shepherd to him, with a proposition that he could make more money by staying away from the trial than he would get in witness' fees. On cross-examination the witness repeated his statement, that Shepherd told him that no power on earth could force him to go to Kentucky as a witness. When asked if he did not ask Shepherd privately how much he could get for refusing to testify, he replied that he told Shepherd that he could not refuse to testify, because it would be made very unpleasant for him if he refused to go to Kentucky.

A. S. Bryan testified that Pearl Bryan was of a very confiding disposition toward any one in whom she had confidence. She had never been in Cincinnati until she came to her death. She was an innocent, unsophisticated girl, who had seldom gone away from home. Dr. W. H. Crane gave his analysis as to the contents of Pearl Bryan's stomach. He found no poison except that known to be used in embalming, aside from cocaine. He estimated that two grains of cocaine had been given.

Dr. Dickore, a chemist, testified that the stains found in the valise and on the trousers found in Jackson's possession were made by the blood of a mammal, probably human blood. From the analysis of the earth taken from where Pearl Bryan's body was found, and of the mud found on Jackson's trousers, he declared the two specimens to be alike.

A TERRITORIAL GOVERNOR.

Washington State's First Executive is Dead.

NEW YORK, April 24.—The Herald this morning says:

William Boyd Rankin, at one time a judge on the supreme court bench of Washington territory, died Wednesday night at his home in Jersey City.

He was born in Philadelphia on March 11, 1822. President Buchanan appointed him judge in Washington territory in 1857. Before his appointment Mr. Rankin had practiced law in Philadelphia, and had stamped the state of Pennsylvania for Buchanan.

In 1859 President Buchanan appointed him the first governor of Washington territory. He quarrelled with General Harrison in 1862 and resigned his office. He again stumped the state of Pennsylvania for the Democratic candidate in the campaign of 1864.

Mrs. J. E. Kester, of Medical Lake, claims that her daughter, who is subject to cataleptic fits, and who has been con-

fined in the Medical Lake insane asylum, has been subjected to cruel and brutal treatment at that institution. Mrs. Kester also says that she was refused admittance to the asylum when she sent to visit her daughter about three months ago.

T. J. Nolton brought with him from the Klamath an immense tooth of a brown bear killed by Elmer Feheley, a miner on Thompson creek, says the Yreka Journal. The bear came in the cabin during the night and ate up everything excepting a fifty pound sack of flour, which he carried out with him, when Feheley woke up and asked him what he wanted, and receiving no reply he took a shot at the intruder, but failed to hit him. Feheley was quite wakeful during the balance of the night and was up at an unusually early hour in the morning. He saw the bear on the side hill, where he shot bruin while casting wistful glances at the sack of flour, which he evidently had dropped when Feheley fired at him in the darkness and shot the handle off from a grindstone.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75 cents.

If there is any one thing that needs to be purified, it is politics, so the reformer says, and many agree thereto. But blood tells, and as a blood purifier and liver corrector Simmons' Liver Regulator is the best medicine. "I use it in preference to any other."—So wrote Mr. S. H. Hysell, of Middleport, Ohio. And Dr. D. S. Russell, of Farmville, Va., writes, "It fulfills all you promise for it."

There will be a meeting of The Dalles Commercial and Athletic Club Saturday evening at 8 o'clock, for the purpose of adopting a constitution and bylaws. R. B. SINNOTT, J. S. SCHENCK, Secretary. President.

None But Ayer's at the World's Fair.

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed on exhibit at the world's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the world's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."
