

Gents Spring Underwear.

Gentlemen, we call your special attention to two numbers in the American Hosiery Co.'s goods. The goods of the American Hosiery Co. have been on the market for half a century, and made a reputation that put them at the head of domestic manufactures. The two numbers we offer are just the thing for present use.

No. R2019.—Men's Reform 4-thread Balbriggan, ribbed, finished seams, with woven neckband, Shirts and Drawers to match; \$1.25 per piece.

No. 1743.—Men's Extra Super. Merino, light weight, heavy silk front; blue grey color; Shirts and Drawers to match; \$1.50 per piece.

ALL GOODS MARKED IN PLAIN FIGURES.

SPRING CAPES.

This season we are showing one of the strongest lines of Spring Capes ever brought into the house. Following are a few of our special numbers:

No. 403.—All wool, cloth, double cape, velvet collar, navy and black, \$3.

No. 456.—All wool, single cape, stitched with braid, and ribbon bows, dark brown and black, \$5.

No. 539.—Light tan, single cape, trimmed with braid and pearl buttons, velvet collar, \$6.

No. 451.—Plain Covert Cloth, trimm'd with large pearl buttons, \$7.

No. 540.—Light Tan, single cape, handsomely trimmed with cloth of same, \$10.

No. 521.—Tan Broadcloth, trimmed with cloth of same; pearl buttons; lined with Dresden Silk; \$13.50.

No. 472.—Light Tan single cape, trimmed with cut-work cloth, lined through with Dresden Silk, \$15.

PEASE & MAYS.

MAIER & BENTON

Are now located at 167 Second Street, opposite A. M. Williams & Co., with a complete line of

- Hardware,
- Stoves and Ranges,
- Groceries,
- Cord Wood,
- Cedar Posts,
- Barbed Wire,
- Rubber
- Garden Hose.
- Plumbing
- and Tinning
- a specialty.

Also agents for the Celebrated Cleveland Bicycle.

WHY?

have we taken hold of the VICTOR BICYCLE as our leading Wheel.

Because

after thoroughly testing a dozen different makes, we have come to the conclusion that the VICTOR is the BEST.

Because

it is mechanically perfect, and while not TOO LIGHT for our bad roads, yet it runs the easiest.

Because

it has a tire that, while light, is almost PUNCTURE PROOF. (We will repair all punctures free for the season on 1896 Victor Tires.)

We have 1896 Bicycles that list at \$100 that we will sell for \$75, but they are not VICTORS. Our 1896 VICTORS sell for \$100.

For medium grade bicycles, we have the Waverley and Crescents—\$50 to \$85. Good second hand wheels, \$25 to \$50.

Bicycles and Tandems for rent. Wheels repaired. We keep constantly on hand a good stock of compressed air, for inflating tires, and give it away. Get your tires inflated.

MAYS & CROWE.

The Dalles Daily Chronicle.

TUESDAY, MAY 5, 1896

WAYSIDE GLEANINGS.

Random Observations and Local Events of Lesser Magnitude.

The lathers are at work on the Max Vogt building.

The recorder collected \$190 in fines during last month.

Forecast—Tonight and tomorrow, fair; frost tomorrow morning.

Prayer meeting at the Congregational church this evening at 7:30 o'clock.

Wm. Bybee took a large drove of cattle to Mill Plain this morning on the Regulator.

Regular monthly meeting of East End Hose Co. No. 3, tomorrow evening at 7:30 o'clock.

Regular monthly meeting of the vestry of St. Paul's church this evening at 7:30 o'clock at the office of L. S. Davis.

Mr. T. A. Van Norden has moved his jewelry store, and now occupies very handsome and cozy quarters adjoining The Dalles National bank.

California strawberries are in market. They are small, pale and sour, but they are strawberries, and are consequently purchased for 25 cents a box.

Mr. O. F. Murhard, of The Dalles, writes to his son-in-law, Mr. Geo. Kraus, that he has just suffered a serious accident by falling from a street car in Portland. He is badly hurt and don't know when he will be able to return.

A fine merchants' lunch is served every day from 11 to 2 at the White House, corner Second and Court streets. This resort is kept in first-class style and under experienced management. The merchants' lunch is prepared by a chef who understands his business.

The Dalles Commission Co. received a carload of potatoes this morning from Troutdale, and will receive another tomorrow. This would indicate that the local supply is about exhausted, which is the fact. From this on the price of tubers will advance.

The examination of Chas. Snipes, who was charged with an assault on Mr. VanBibber Sunday morning resulted in his being bound over to the grand jury under \$500 bonds. The bail was promptly furnished. The evidence is of a circumstantial nature, the young man denying the charge.

Mr. G. W. Johnson, who returned from Portland yesterday, was accompanied by a bride, who temporarily escaped the vigilance of the lynx-eyed reporter. The bride was Mr. Johnson's own, behaving been married to Mrs. Jackson, a resident of that city. The happy couple retired at once to the ranch of Mr. Johnson.

A fisherman named Alex. Johnson drowned in the canal at Cascades about 9 o'clock last night. He started out to fix his lines, and it is thought made a misstep, falling into the canal and was drowned. Coroner Butts was notified of the tragedy, but inquiry satisfied him

that it was an accidental death, for which no one was to blame, and he therefore refused to put the county to the expense of an inquest. This is by no means the first time Mr. Butts has been so considerate of the county's welfare. He has acted in like manner as regards half the unconventional deaths that have occurred during his terms of office.

A. Keller has engaged in the wholesale candy trade and is from now on prepared to furnish dealers with everything required in that line. He will therefore make a specialty in the jobbing business, and is enabled to supply the best goods at the lowest rates. Keller is his own best advertisement. By a strict regard to the quality of his candies, he has risen to first rank among candy makers of Oregon. The name Keller is a guarantee of excellence, and his goods will therefore be generally sought. Since the public has demanded them, shrewd dealers will do well to carry in stock Keller's unapproachable candies.

W. M. McIntyre is exhibiting at the Umattilla house, one of Edison's most wonderful inventions, the kinesiograph, in connection with the more familiar phonograph. By this truly wonderful discovery in science, it is possible for generations hundreds of years in the future to not only hear the eloquence of a speaker of today, but see him, mark his gestures and the expression of his face. In this way the eloquence of Henry Clay, the music of Ole Bull, the assassination of Abraham Lincoln would all have been capable of reproduction by the triumph of Edison's electrical discovery, the kinesiograph. This is the second ever exhibited in The Dalles and is worthy the investigation of everyone who can appreciate the gigantic strides made in invention in latter years.

David Garrison has secured the agency for a writing pen which will meet with the approval of the writing public generally. It is designed to save that vast amount of manual labor caused by reaching over into the ink bottle so often after a fresh supply of crystallized thought. Dave is prepared with estimates to show how many thousand miles have been wasted in these journeys of the hand back and forth, that applied to sewing or sketching or some useful art, would have saved the human family thousands of dollars, or advanced the world of art. The pen has a corral attachment which will hold enough writing fluid to last an hour or more, and dispenses with the ever-present danger of dropping a big blot of ink on the paper just as one is writing his signature. It should have a wide sale.

The Only Difference.

The only difference between imported cigars and the Regulator brand is in the price. The duty on raw material is much less than it is on the finished article; so also is the freight. Leaf tobacco comes 4th class, while cigars come as 1st class freight. Smoke Regulator cigars and give American workmen the benefit. Made of imported stock.

CITY COUNCIL.

Huntington-Bonn Alley Settled—Routine Business—Electric Light Question Again.

A full council was present last night at the regular monthly meeting, viz: Mayor Menefee and Councilmen Johns, Eshelman, Nolan, Thompson, Laner, Ross, Crowe, Wood and Saltmarsh.

After reading and adoption of minutes, J. L. Story made a statement that some seven years ago he borrowed \$320 from the city from the sewer fund. Afterward the city employed Mr. Craft to survey the city, earning \$1,100 or \$1,200. Mr. Story, with others, took about \$400 worth of his orders upon the city. The question has recently arisen of the title to a certain piece of property, which Mr. Story wanted to clear up, by showing the city's indebtedness to him in this manner. On motion of Eshelman, referred to judiciary committee.

Eshelman then requested the privilege of the city for a peddler with a disabled hand to peddle jewelry without a license—Geo. Dams by name, a German. Nolan made a vigorous speech against it, Eshelman contending that his deformity should entitle him to prosecute his work without paying the customary license. The motion carried to permit him to peddle until Friday night.

Mr. Bonn was present again. He has been persistent in his attendance at the city council meetings, on account of the question of a contemplated alley which is adjacent to his property. The committee reported that there should be made an alley 16 feet in width, north side and west end and be in line with north side of Eighth street, and east end of same be equidistant between Mr. Bonn and Mr. Wheelon's houses, and that said petitioners file bonds with recorder sufficient to recover all expenses incurred in connection with the laying out and establishing of said alley. The report was adopted.

Mr. Johns recommended that the street commissioner put from one to three loads of rock on the new cistern cover on Fourth street. Adopted.

The reports of the various city offices were then read and adopted.

The following bills were read and warrants ordered drawn:

Jas H Blakeney, marshal	\$ 75 00
Geo J Brown, eng fire dept	75 00
G W Phelps, recorder	50 00
F G Connelly, nightwatchman	80 00
C J Orandall, treasurer	20 00
Joe T Peters, cordwood	4 00
Manchester Lock Works, mdee	18 70
Electric Lt Co, lighting offices	11 80
Chronicle Pub Co, printing	2 00
C M Fouts, labor and mdee	12 55
Columbia hotel, meals to psnrs	14 53
Isaac Joles, labor	11 00

Total \$354 60

Thompson revived the electric light question by stating that during the coming winter there would probably be a demand for lights on the streets again, though during the summer months they could be dispensed with. He brought up the subject at this meeting so that there would be plenty of time to consider ways and means of furnishing the city during the winter months with

cheaper lights than they have been accustomed to pay. Eshelman believed that incandescents could be advantageously used, that forty or fifty fifty-candle power lights could be put in at the principal street corners for \$100 per month. Crowe thought the incandescents would give better satisfaction. Ross took the opposite view. Nolan said that we were getting along very comfortably at present, that the citizens seemed to be satisfied, and that he believed the matter should be allowed to rest for a time. If the citizens wanted lights they would find means to express themselves. It might become an issue at the next city election.

Laner brought up the subject of dangerous sidewalks and moved that the marshal report at next meeting upon all sidewalks which need repair. The motion carried.

Adjourned.

A Famous Lecture.

Dr. Gregory de Kannel, the Russian traveler, will give his famous lecture next Friday night at the M. E. church for the benefit of the church.

Dr. De Kannel is the recipient of the gold medal for illustrated lectures at the World's Columbian Exposition, Chicago, 1893. The lecture is illustrated with over 100 stereo-electrical tableaux taken from nature during the traveler's last trip to his native country; including a number of rare Russian paintings; interior and exterior views of Imperial apartments, palaces, ancient and modern cathedrals; street scenes, modes of life, customs and habits; the historical Kremlin; also charming cloud, sunset and twilight effects, etc. All of Dr. De Kannel's slides are made of original negatives taken and colored by himself. The mechanical and dissolving effects originated by D. De Kannel. The entertainment will conclude with a number of different magnificent tableaux: Stereo-electrical reproduction of living pictures; a day at the Midwinter fair; mythological scenes, and famous Columbia river scenery as viewed from O. R. & N. Co.'s observation cars.

For Sale.

Three Jerseys, a cow and two yearling heifers. Inquire of H. A. Bills, at Maier & Benton's store.

Awarded Highest Honors—World's Fair, Gold Medal, Midwinter Fair.
