ALL GOODS MARKED IN PLAIN FIGURES.

PEASE & MAYS.

## MAIER & BENTON

Are now located at 167 Second Street, opposite A. M. Williams & Co., with a complete line of

Hardware,  
Stoves and Ranges,  
Groceries,  
Cord Wood,  
Cedar Posts,  
Barbed Wire,  
Rubber  
Garden Hose.  
Plumbing  
and Tinning  
a specialty.

Also agents for the Celebrated Cleveland Bicycle.

WHY? have we taken hold of the VICTOR BICYCLE as our leading Wheel.

Because after thoroughly testing a dozen different makes, we have come to the conclusion that the VICTOR is the BEST.

Because it is mechanically perfect, and while not TOO LIGHT for our bad roads, yet it runs the easiest.

Because it has a tire that, while light, is almost PUNCTURE PROOF. (We will repair all punctures free for the season on 1896 Victor Tires.)

We have 1896 Ribcycles that list at \$100 that we will sell for \$75, but they are not VICTORS. Our 1896 VICTORS sell for \$100.

For medium grade bicycles, we have the Waverley and Crescents—\$50 to \$85. Good second hand wheels, \$25 to \$50.

Bicycles and Tandems for rent. Wheels repaired. We keep constantly on hand a good stock of compressed air, for inflating tires, and give it away. Get your tires inflated.

MAYS & CROWE.

## Wall Paper

Latest Designs,  
New Combinations,  
Harmonious Colorings.  
At Very Low Prices.

Call and see our samples before buying.

JOS. T. PETERS & CO.

## The Dalles Daily Chronicle.

TUESDAY, - - - MAY 19, 1896

### WAYSIDE GLEANINGS.

Random Observations and Local Events of Lesser Magnitude.

Green peas at Dalles Commission Co.'s  
Forecast—Tonight and Wednesday, fair and warmer.

There will be a meeting at the vestry of the Congregational church this evening at 8 o'clock.

"Cyclone" Davis of Texas speaks Friday night at the court house under the auspices of the Populist state central committee.

A complaint was filed in the clerk's office today by W. L. Wheldon for the recovery of a promissory note given by L. E. Ferguson.

Winter lingering in the lap of spring may be all right, but when it comes to working the same game on summer there is reason for complaining.

Miss Florence Lewis of this city has been engaged as a primary teacher in the Antelope public school. Prof. H. G. Lake of Wanic will be principal.

The excursion on next Sunday will be the first of the season and will doubtless be liberally patronized. The proceeds are for the purpose of buying uniforms for the band.

The fine weather of yesterday should be permanent, but a cool southwest wind arose this morning, which portends more cloudy weather or rain. A few days of sunshine would be most beneficial, both to vegetation and animal spirits.

Parties from Antelope speak in terms of the highest praise of the new Sherar grade from Bakeoven to Cross Hollow. The road avoids the former and much-dreaded Bakeoven hill, which was very bad. The road through to Antelope has been repaired and improved, and is in first-class traveling shape.

The latest from Washington says: "It is practically decided that the senate will recede from the amendment providing for a boat railway at the dalles of the Columbia, and for the Lakes Union and Washington canal, at Seattle, but a provision is likely to be made for a direct appropriation of \$150,000 to be immediately available for the Seattle improvement."

After the meeting of the Blue Lodge last evening at the Masonic hall, the ladies of the Eastern Star pleasantly surprised them with an invitation to a grand banquet, which the ladies had slyly prepared the previous afternoon. The spread was one of the finest ever given in the annals of the local lodge, and was given ample justice by the pleased members of the Masonic order and the estimable ladies of the Eastern Star.

Dr. T. F. Campbell (M. D., M. C.), physician, surgeon, etc., late of Los Angeles, office at Umatilla house. All calls attended. Telephone 37.

dawit

### Good Templars Social.

About 100 Good Templars and their friends met at Fraternity hall Monday evening to take part in the lodge social that had been previously announced. The early part of the evening was spent in social converse until the program committee was ready to proceed, and then a short but very fine program was presented, Walter Reavis acting as chairman. The first number was a piano solo by Mrs. Varney, rendered in that lady's best style. The recitation by Mabel Allen was the description of a missionary lady calling on her friend for subscription toward the work of sending help to the heathen. She is met by the friend's little freckled faced chatterbox, who tells her many interesting things about what ma says and Uncle Dick says; in short she is well posted as to her own standing when the mother of the little chatterbox appears. Fred Snipes bass solo, "Cast Aside," was well received. Walter Reavis rendering of the recitation, "Flying Jim's Last Leap," affected many in the audience to tears. Mrs. Briggs told an interesting romance in connection with the singing of "Coming Through the Rye." Mrs. Varney's vocal solo "Murphy's Daughter Nell" was a comic song which all enjoyed.

Part II of the program was the drawing card, and it consisted of the sale of young ladies, who after the close of the program had retired to the ante room, and prepared for the ordeal of being sold, by decorating themselves in fantastic costumes and covering the head with a paper sack, thus completely hiding their identity. One lady was admitted at a time and as number one came in, Auctioneer Brown announced that he was ready to receive bids, on the lady before them. Then the bidding began, and when the head gear was removed our old friend and co-laborer in the temperance cause, whose identity was so well concealed that no one was able to tell who she was. More than a score of bargains were thus disposed of at the ruinously low prices of from 50 cents to \$1.10. After the sale was completed tables were brought into the room and the purchases had been claimed by their respective buyers, they sat down to the contemplation and investigation of the finest lunch you can imagine, which each lady had provided for herself before being admitted to the pleasure of being sold.

Everybody seemed happy, and after eating their lunch enjoyed the rest of the evening in games and social intercourse till nearly midnight.

Mrs. Joles informs us that the Juveniles are about ready with a Juvenile social, such as only the boys and girls are capable of giving. You that want a pleasant evening watch out for the Juvenile social.

The Baldwin opera house, centrally located, well ventilated, lighted by electricity, and newly renovated, is now for rent for theatrical shows, campaign speakers, concerts and lectures, church sociables, dancing parties, etc., on very favorable terms. Address J. C. B., P. O. box No. 211.

### INITIAL STEPS.

Articles Filed for The Dalles and Goldendale Transportation Co.

"The Dalles and Goldendale Transportation Co." is the name of a new organization evolved from the wagon train idea brought to the attention of our citizens recently by Mr. L. H. Campbell. This gentleman has been very energetic in attending to the details of the formation of such a company, and his perseverance and faith in its practical adaptability has been crowned with success.

Enough men of means now share his opinion to warrant articles of incorporation of "The Dalles and Goldendale Transportation Co." to be drawn up, and they were filed at the clerk's office this afternoon. They contain the names of J. W. French, A. S. Mac Allister and Hugh Glenn of The Dalles and Frank Motter of Portland.

After the articles have been filed, the next step is to circulate the stock book for subscriptions. When half the amount is subscribed, the company can commence stocking with the equipment necessary to conduct the business. A large amount of the capital stock has already been promised by citizens of Goldendale.

The articles of incorporation provide for carrying on and conducting a general freight and transportation business in the states of Oregon and Washington, with all the rights and privileges of a common carrier granted by the laws of those states between The Dalles and Goldendale, also Rockland, Centerville and Cleveland, Wash., and such other branches as business may demand.

Erecting and maintaining a graded and macadamized, or otherwise improved roadway or roadbed.

The operation over said roadbed of engines, cars, wagons, coaches, etc., as shall be necessary for the carrying on of the business of the corporation.

Engaging in building, purchasing or leasing barges or vessels of whatever kind to transport freight and passengers across the Columbia.

Erecting or leasing any necessary telegraph or telephone lines along such right of way.

Constructing or leasing docks, bridges, warehouses, landings, inclines, storehouses, depots, engine houses, bars, machine and repair shops necessary in conducting said business.

Borrowing money upon promissory notes or bonds secured by mortgage or otherwise, or unsecured.

The principal office is to be The Dalles. Amount of capital stock, \$35,000.

### Spraying Apple Trees.

The best time to spray apple trees is just after the blossoms fall, and while the blossom end of the young apple stands up. The spray of poison then falls into the blossom end of the apple where the miller lays its egg, and when the egg hatches and the worm goes to feeding on the fruit it gets a dose of poison with the first mouthful, and that kills it and saves the fruit. That is the whole secret of the success of spraying.

The poison generally used is the common dilution of Paris green and a little Bordeaux mixture, well stirred in with it will make the poison adhere better and not be washed off soon by rains. It is also the best thing there is for fungus growth. There is not much use of trying to raise fruit now without spraying, as the bugs are almost certain to kill it. Often one spraying will accomplish the work, but if rains wash it off it is better to spray two or three times.

### Sound Money.

Judge H. H. Northup of Portland was listened to by a large audience at the court house last evening. He announced his platform to be sound money, protection, the restriction of foreign immigration and an open river from the Inland Empire to the sea. Judge Northup's utterances bear the impress of sincerity. He is of the opinion that free coinage of silver will be a calamity that if adopted will be most generally deplored. It will drive gold out of circulation, because it will then be the more valuable metal. He is therefore the true bi-metallist and the silver champions are the mono-metallists. He exposed the plan of a minority in the senate to block tariff legislation until the financial question is settled, and believes the American people are therefore forced to pronounce first upon it. Another principle of importance advocated by Judge Northup was the restriction of foreign immigration, and his remarks on that score seemed to be universally appreciated. His speech throughout was received with marked attention, very few leaving the hall during his address of nearly two hours' length. Many who could not find seats stood up during the whole evening. Judge Northup was followed in a short speech by Mr. Lydell Baker, who is a fluent speaker and orator, and who entertained and gave expression to the same views as Judge Northup.

### Money! Money! Money!

To pay Wasco county warrants registered prior to July 3, 1892. Interest ceases after May 15, 1896.
