The Regulator left this morning with flags flying at half mast in honor of the dead heroes, whose comrades will today strew flowers over their graves all over the land.

#### Mr. Spencer's Speech.

Mr. L. C. Spencer made an old-fashioned Republican speech at the courthouse last night. He talked along the lines of protection and bimetallicism in a speech of an hour and a half's length, and was frequently interrupted with applause. He was introduced by Mr. F. W. Wilson, president of The Dalles McKinley Club.

Mr. Spencer reviewed the financial history of our country from 1796 to the present time. He explained the truth of the Gresham law, or the promulgation of a well-known principle in 1856 in England which he applied to all nations at all times where two or more metals circulated side by side. That principle is that the cheaper money will drive the dearer out of circulation. When money was first coined by our government at a ratio of 15 to 1 gold was driven out of circulation. An attempt was made to remedy it by establishing the ratio at 16 to 1. This was an error the other way and silver became the scarcer metal. The government cannot legislate a value for silver. Silver must take its place in the commercial world along with every other commodity. If legislation would give silver value Mr. Spencer would go further than the Populists. If 16 to 1 would double its value, he wondered why did not make it 8 to 1 and quadruple it, or 4 to 1 and make it worth eight times as much. He would make it 1 to 1 and make all of us millionaires. He closed with a strong argument to support the regular ticket and vote 'er straight.

When she became Miss, she clung to Castoria.

#### The Jury Vote the Australian Ballot.

The jury amused themselves during the long hours last night while they were trying to agree on a verdict in the Snipes case by taking a vote on the political situation. Sample ballots were handed them, which each quietly marked and deposited in a hat. The vote showed their minds were about in the same confusion on the political situation as they were on the Snipes case. Perhaps the best index as to their party complexion was shown in the vote for congress, Bennett receiving 7, Ellis 3 and Quinn 2.

This opinion is corroborated by the vote for superintendent of schools, the Democratic nominee receiving 7, the Republican 3, while one of the two Populists knew that Miss Hansbury was not legally a candidate. For the other positions, the vote showed a great tremendous agitation in favor of the Republican candidates.

For supreme judge, Bean led the ticket, receiving 5, Bennett, Dem. 4, Gaston the inevitable 2.

For clerk, Kelsey's popularity was manifested, receiving the full Republican vote, a majority of the Democratic vote, and even one of the Populists: Kelsey 8, Cates 3. Driver also gained a Democratic vote: Driver 4, Woodcock 6, Taylor 2.

For joint senators the Demo-Pop fuse is apparent: Armsworthy (dem) 5, Dufar (dem) 6, Mitchell (rep) 6, Moore (rep) 4.

For representatives, B. S. Huntington leads the ticket with 5. Henry 3, Messenger 2, Jones 2, Coon 1.

For county treasurer, the independent candidate is top man. Wm. Mitchell received 5 votes, Geo. Liebe 4, Seth Morgan 2, and C. L. Phillips 1.

Geo. Morgan, accepting the jury's vote as indicative of anything, is the most popular. He received 8 votes to Whipple's 3. Morgan is our townsman, while Whipple is not so well known in this locality.

For coroner, Butts 6, Williams 4. For surveyor, Schutz 7, Goit 4.

The last named again shows the complexion of the jury politically. Both men are held in equal esteem by the community.

It is now too late to subpoena a jury with a Republican majority, which party is really dominant, and the vote if it shows anything is very complimentary, as it indicates that the Democratic party propose to vote for many men who represent the party of protection and the friends of both gold and silver as money metals.

WHY? have we taken hold of the VICTOR BICYCLE as our leading Wheel.

Because after thoroughly testing a dozen different makes, we have come to the conclusion that the VICTOR is the BEST.

Because it is mechanically perfect, and while not TOO LIGHT for our bad roads, yet it runs the easiest.

Because it has a tire that, while light, is almost PUNCTURE PROOF. (We will repair all punctures free for the season on 1896 Victor Tires.)

We have 1896 Bicycles that list at \$100 that we will sell for \$75, but they are not VICTORS. Our 1896 VICTORS sell for \$100.

For medium grade bicycles, we have the Waverley and Crescents—\$50 to \$85. Good second hand wheels, \$25 to \$50.

Bicycles and Tandems for rent. Wheels repaired. We keep constantly on hand a good stock of compressed air, for inflating tires, and give it away. Get your tires inflated.

#### A QUESTION ANSWERED.

"Why Did You Come Out Independent?" By the request of many friends and voters of this county, who believe, like myself, that this free country should be run by the people, and not by any faction nor political bosses of any party, who would down a man without any cause whatever.

Now, gentlemen, I do not ask for more than others have had before me, and have only done my duty as a faithful custodian of the funds of this county, and shall continue to do so as long as you say by your vote for me to stay in this office; not favoring the rich more than the man who toils long for his hard-earned dollar.

I leave it for the voters of this county to say if a tried man is not as good as an untried man in this responsible office.
