BRAVE AND COOL

A Philadelphia Tenement-House Fire De-

velops a Young Heroine.

In January last a Philadelphia tene-

ment house was burned. Two men were

killed and several persons were badly

injured, while others escaped in an al-

most miraculous manner. The fourth floor was occupied by the family of

Joseph Zellers. The father and mother

seem to have been absent, but the five

children were at home. All were saved

through the bravery and coolness of

the oldest of them, a girl of 16, whose

conduct is briefly described by the Rec-

Jenny Zellers was dressing the chil-

dren, the youngest a mere babe, when a

cloud of smoke came into the room and

at the same time the frantic cries of

Hastily opening the door, she saw the

flames leaping up the stairway toward

forced them up a ladder and through a

ings, and below them the flames were

Still retaining her presence of mind,

the brave girl dropped her brother, a lad

of 14, to the roof of the house to the

south. It was a fall of ten feet, but the

boy landed safely, and then the gir!

braved the fire in her doomed home to

This she threw to her brother, who

arranged it on the roof, and then, one by

one, she dropped the other children.

The infant she took in her arms and

leaped with it in safety to the bedding. Next she broke a skylight in the roof to

which all had escaped, and lowering the

children through it, they all reached the

AN HONORABLE VEGETABLE.

The Onion Has Its Admirers-The Ana-

conda (Mont.) Onlon Seciety. The nutritious and wholesome onion

occasionally finds its vindicators. At

WILL BE AN END.

Gen. Weyler's embargo against the exportation of Cuban tobacco is likely to put the finishing touches to what was once our flourishing trade ord: with Cuba, says the Salem Statesman. Our exports fell from \$23,604,000 in 1893 to \$12,809,000 last year, though at the same time the trade totals for 1895 were being made the devastation of the island had hardly her. Never hesitating, she closed the door, and calling the children together

Cuba depends wholly on sugar and tobacco. It is with these that it pays for the flour, provisions and articles of manufactured goods it has bought in large quantities from the United States. This season, however, it will have neither sugar nor tobacco. The sugar industry is already ruined. The Associated Press reports have shown that there are now nothing but blackened ruins to make the sites of the sugar mills which once gave the island its largest revenue. Add to this the suppression of the tobacco trade under Gen. Weyler's order of embargo, and the misery of Cuba is complete.

By what right does Spain protract a barbaric war to such extremity? For how many years may a stronger power inflict the direct calamities on there is a dining club called the Anaa weaker one which it is unable to subjugate by force of arms? How can Spain expect that the people of the United States will view with in difference the misery thus wantonly visited on Americans? A cuckoo organ says the "news that an administration will make a vigorous protest against this barbaric and unfriendly act is very welcome."

But this proposed protest will give from which the socity tales its name. no relief to the struggling patriots of On the wall hung this motto, beautifully Cuba, and it will not affect the busi ness interests of this country at which the order of Butcher General Wevler is aimed. Time was, though, when the protests of the authorities at Washington were listened to with respectful attention by Spain, or any other country against whose acts they were directed. They were acted upon with indications of profound regard by this same Spain during General Grant's administration in the early seventies, while the Cuban revolution was in progress.

The time is coming again, though it drags all too slowly, when the protests of this country will have weight with Spain. They will be received with respect after the 4th of March next, or if they be not so received, respect will be enforced with the ministerial offices of our army and navy. Then there will be an end to these outrages.

Through trains on the O. R. & N will ron via Umatilla, Walla Walla and Pendleton. Through sleepers, first and second class will run in connection with the Union Prcific, the same as heretofore. A through first-class sleeper from Portland to Spokane, connecting with the first-class sleeper to St. Paul and a through tourist sleeper from Portland to St. Paul, will be run in connection with the Great Northern railway.

POST OFFICE SECRECY.

Ask a Letter Carrier the Address of Your Friend, and He Will my: "Excuse Me." It is not generally known that Uncle Sam looks upon the address or whereabouts of one of his citizens as an inviolable secret. Such, however, is the case, says the New York World.

A New Yorker who had been out of the city for some time found upon his return, a few days ago, that one of his intimate friends had changed his residence without leaving his exact new address. All he could gather was that his friend now lived in a flat on the north side of a certain street.

When he arrived at the block in question he found to his dismay that every house in it was a flat house. He would have to go from door to door until he found his friend's name over one of the

He had not proceeded far when he met a letter-carrier making his usual delivery. Here, he thought, was the man who could save him a lot of time

and trouble. "Yes, sir," replied the postman, in re sponse to his inquiry, "I know the party very well. But I am sorry to say I can-not give you his number. It is against the rules."

The same secrecy is observed at the post office. The postal address of anybody will not be given by the federal authorities even to a state officer. This rule is in accordance with the general principle that a man's dealings with the government are of a confidential na-

JAVA'S NATURAL WONDER.

Home of the Hot Devils Possesses Great

The greatest natural wonder in Java if not in the entire world, is the justly celebrated "Gheko Kamdka Gumko," or "Home of the Hot Devils," known to the world as the "Island of Fire." This geological singularity is really a lake of boiling mud, situated at about the center of the plains of Grobogana, and it is called an island because the great emerald sea of vegetation which surrounds it gives it that appearance. The 'island" is about two miles in circum ference and is situated at a distance of almost exactly 50 miles from Solo. Near the center of this geological freak immense columns of soft, hot mid may be seen continually rising and falling like great timbers thrust through the boiling substratum by giant hands, and then again quickly withdrawn. Besides the phenomenon of the boiling mud columns there are scores of gigantic bubbles of hot slime that fill up like huge balloons and keep up a series of constant explosions varying with the size of the bubble. In times past, so size of the bubble. In times past, so the Javanese authorities say, there was a tall, spirelike column of baked mud on the west edge of the lake, which constantly belched a pure stream of cold water, but this has long been obliterated, and everything is now a seething mass of bubbling mud and slime, a marvel to the visitors, who come from great distances to see it.
