THE RECORD OF CONGRESS.

The adjournment of congress is expected to occur this week. With the passage of the river and harbor bill over the president's veto, the congressmen and senators, who are serving their country for pay, think they have discharged all obligations to their constituency and have earned a rest.

The record made by the present congress, taken as a whole, is decidedly unsavory. Very little positive legislation has been enacted, and of that little a part has been vicious. The administration has been bitterly opposed by its party in the house and senate, till it was compelled to ask aid of Republican members. It is to the credit of the Republican party that its members rose above partisan prejudice and aided the president in sustaining the national credit.

There will be an attempt upon the part of Democratic papers to place the blame upon the Republicans for the failure of the congress to perform the acts expected, and yet this is not just. The record of the house of representatives, which contains a heavy Republican majority, has been a good one. When the enormous deficiencies, which the policy of the present administration had created, were made known, the Republican house immediately passed a bill to increase the tariff duties upon wool, manufactured wool and other articles which would provide for increased revenues to the government, at the same time affording protection to an industry badly needing it. That this bill failed in the senate was not the fault of the Republican party, since it was opposed by a combination of Democratic senators and silver fanatics, among the latter being five senators at one time Republicans, but who had long ago forfeited all claims to that appellation. The combination succeeded and the Dingley bill died "a bornin'."

The Republican party is not responsible for the acts of such men as Teller, Dubois, Jones et al, and it is to the credit of Republicanism that the effort was made to relieve a distressed country when that distress was brought about pure and simple by a Democratic administration. Had there been a Republican majority in the senate, the country would have received the benefit of this emergency tariff legislation.

On the other hand, the Republican house saved the nation from the workings of the bond resolution, which the Populist-Democratic senate tried to foist upon the people. In both these instances the lower house showed they were in touch with the best needs of the country, and that the Republican party, now as ever, when put in power could be trusted to perform its duty.

It is easy to see where the blame for present conditions should rest. The silver senators, who, deep in their own selfishness, were blind to the country's welfare, are the cause of the present congress' record, and the lesson for the nation and the Republican party to draw is that more care must be shown in the choice of national servants.

The result of the recent election has left the matter of Senator Mitchell's re election one of uncertainty. The support which that gentleman will receive from Eastern Oregon depends upon how things are conducted at the Cascade locks. If this long delayed work is completed this summer, as we are promised it will be, and boats are running by fall, Senator Mitchell will have grounds to ask for our people's support. But if the contrary proves the case, and the miserable farce is allowed to be longer enacted, then the votes of the Eastern Oregon legislators will, in self protection, go to some Eastern Oregon man. These things had better be understood at the outset. The people of Eastern Oregon have cut some eye-teeth in the last six months.

If McKinley be not nominated at St Louis, the will of the people shall have suffered defeat. But along with McKinley's nomination must go a sound money platform else the country cannot endorse the work of the convention. Oregon can be counted upon to do her duty, both as regards the man and the platform.

Portland will be the most talked-of city in the country for the next two years. Pennoyer has a reputation to maintain as the most eccentric figure in Western politics.

Pendleton is going to celebrate the Fourth. Is it not time for The Dalles to agitate the matter? A Fourth of July celebration is a good thing. Push it along.

A Gentle Corrective is what you need when your liver becomes inactive. It's what you get when you take Dr. Pierce's Pleasant Pellets; they're free from the violence and the gripping that come with the ordinary pills. The best medical authorities agree that in regulating the bowels mild methods are preferable. For every derangement of the liver, stomach and bowels, these tiny, sugar coated pills are most effective. They go about their work in an easy and natural way, and their good lasts. Once used, they are always in favor. Being composed of the choicest, concentrated vegetable extracts, they cost much more than other pills found in the market, yet from forty to forty-four are put up in each sealed glass vial, as sold through druggists, at the price of the cheaper made pills.

"Pleasant Pellets" cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation, sour stomach, loss of appetite, coated tongue, indigestion, or dyspepsia, windy belchings, "heart-burn," pains and distress after eating, and kindred derangements of the liver, stomach and bowels. Put up in sealed glass vials, therefore always fresh and reliable. Whether as a laxative, or in larger doses, as a gently acting but searching cathartic, these little "Pellets" are unequalled.

As a "dinner pill," to promote digestion, take one each day after dinner. To relieve the distress arising from over-eating, nothing equals one of these little "Pellets." They are tiny, sugar-coated, anti-bilious granules. Any child readily takes them. Accept no substitute that may be recommended to be "just as good." It may be better for the dealer, because of paying him a better profit, but he is not the one who needs help.

A free sample (4 to 7 doses) on trial, is mailed to any address, post-paid, on receipt of name and address on postal card.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. Marvelous Results.

From a letter written by Rev. J. Gunterman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at River Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Blakeley & Houghton, Druggists.
