WHY? have we taken hold of the VICTOR BICYCLE as our leading Wheel.

Because after thoroughly testing a dozen different makes, we have come to the conclusion that the VICTOR is the BEST.

Because it is mechanically perfect, and while not TOO LIGHT for our bad roads, yet it runs the easiest.

Because it has a tire that, while light, is almost PUNCTURE PROOF. (We will repair all punctures free for the season on 1896 Victor Tires.)

We have 1896 Bicycles that list at \$100 that we will sell for \$75, but they are not VICTORS. Our 1896 VICTORS sell for \$100.

For medium grade bicycles, we have the Waverley and Crescents—\$50 to \$85. Good second hand wheels, \$25 to \$50.

Bicycles and Tandems for rent. Wheels repaired. We keep constantly on hand a good stock of compressed air, for inflating tires, and give it away. Get your tires inflated.

WAYSIDE GLEANINGS.

Random Observations and Local Events of Lesser Magnitude.

"Past Redemption" Friday night. The river fell three inches during the night.

Hood River Strawberries are selling in Salt Lake City at \$4.50 to \$5.50 per crate.

Work will soon begin on the new depot at North Yakima, to cost about \$5000.

Conductor Fowler of the O. R. & N. reports great improvement of late in the passenger business.

Judge Bean is re-elected supreme judge by a plurality of about 13,000. This indicates that Oregon is still a Republican state.

A new steam shovel started work this morning, and trains loaded with rock are being hurried to Umatilla to prevent damage to the track in case the river rises.

County Clerk Kelsay has shipped four tons of peas to Montana, receiving an average of \$100 per ton. He will have another ton for shipment. The peas planted in February did better than those planted in the fall.

Attorney J. L. Story, who has been converted to the Populist faith, believes that Vanderberg was legally elected in the First district, but gives it up regarding the Ellis-Quinn contest. He believes an effort is being made to count Vanderberg out, and predicts if that is done the state will go Populist by 5,000 majority in November.

The jury in the case of Wolf & Zweicker Iron Works vs. I. H. Taffe brought in a verdict this morning against the defendant, Mr. Taffe of \$16.50 and \$20 attorney's fees. The jury were Messrs. N. Whealdon, Paul Krest, J. H. Cross, D. P. Thomas, John Parish, A. Sandrock, Jess Blakeney, J. W. Johnston, Hugh Chrisman, R. H. Weber, H. F. Dietzel and N. M. Lane.

The large elevator of the Tacoma Warehouse Co., at Walla Walla, was destroyed by fire Sunday morning. Eighteen hundred sacks of wheat belonging to Dement Bros., and a carload of flour owned by Gilbert & Co., stored in the warehouse, was a total loss. The elevator was valued at \$10,000, with \$4,000 insurance. The fire is of an incendiary nature. A few days ago notices were posted about town that if the people of Walla Walla did not stop employing Chinese the town would be burned down.

The Rivers.

The state weather report received today says:

The Snake river is falling, and the Columbia above Pasco continues to rise. The rise was produced by the warm weather from May 28 to June 4. Since the latter date cooler weather has prevailed over the country east of the Cas-

cade, and especially over the country drained by the Clearwater, Snake and tributary rivers; hence their decreased height. The reports at this office do not indicate that an excess of snow fell during the past winter in the mountains, hence it is not supposed that any great or phenomenal rise will result. The greatest damage lies in the fact that the temperature has been low during April and May, and this has prevented the usual slow melting of the snow in the mountains during these months. Should the temperature rise and the weather continue clear and warm for several weeks, then higher water will naturally ensue than should the weather continue cool, or the temperature even be normal. Many of the smaller streams will rise to their usual or possibly higher stage before the middle of July, but from present conditions and appearances there is little danger of any unusual flood in the Columbia, Snake or Lower Willamette rivers. For those who may not be acquainted with conditions, it should be said that the June rise in the Willamette river is not caused by conditions along or tributary to the river, but is produced by the melting of the snow in the mountains in the country drained by the Columbia and its tributaries east of the Cascades; the rise in the Columbia prevents the Willamette from flowing into the Columbia, hence the Willamette backs up to a height equal to the height of the surface of the water in the Columbia, and this backing affects the Willamette up as far as the Willamette falls at Oregon City, some 15 miles south of Portland.

Off For a Holiday.

The Regulator was captured this morning without resistance by a large bevy of Amazons, who trooped down to the landing shortly before 8 o'clock and directed the captain to point the prow of the boat toward Stevenson. With the captain subdued, the conquest of the crew was easy, and the Regulator was theirs. At Stevenson they landed and devoted the day to pleasure. They chose an Eden-like camping ground in point of scenic attractions, but minus the hitherto inevitable Adam. Just how they amused themselves we are unfortunately unable to state, and it will perhaps never be known, for women never tell a secret, and reporters were barred. Whatever the manner of their entertainment, if it attained their expectations, the day must have been a happy one, for before leaving they dropped many significant hints that they were going to have fun, and fun was what they were going for. When the boat pulled far enough away from the pier so that it was impossible to jump aboard they shouted "We won't be home till morning," and the reflections on the part of the worse halves left behind were more or less miserable in consequence. But when they do return, with faces possibly tanned and with the vivacious spirits of girlhood once again shining out of their bright eyes, whatever they have done will be forgiven and forgotten, and the memory of their day off will be among the pleasant things to reflect upon for many years to come.

The party consisted of Mesdames W. L. Bradshaw, Wm. Mitchell, J. T. Peters, M. French, J. B. Crossen, W. H. Wilson, F. Menefee, G. L. Herbert, J. M. Marden, E. O. McCoy, E. E. Lytle, A. S. Mac Allister, J. S. Fish, W. H. Hobson and Truman Butler.

"Past Redemption"

This famous temperance play will be produced at the New Vogt opera house on Friday evening, June 12th, for the purpose of defraying the expenses of the grand lodge meeting of the Independent Order of Good Templars of Oregon, which takes place here Wednesday, Thursday and Friday of this week. "Past Redemption" is without a rival as a temperance drama, not excepting "Ten Nights in a Bar Room." The action is natural, the lines beautiful, and the comedy far above the average. The cast is strong and evenly balanced, and every detail will be carefully observed in order to make this performance the best ever given by a local cast. Arrangements have been made for the grand lodge to attend in a body, and from the outlook a very large audience will be present. A large number of tickets have been sold, so if you want good seats it would be well to get them early.

The Congressional Situation.

Thomas H. Tongue, the Republican candidate, now leads W. S. Vanderburg, Populist, by 74 votes, the totals being: Tongue, 19,355; Vanderburg, 19,281. The official vote in Coos county made

a change of one vote in favor of Tongue's plurality, and in Josephine county Tongue's vote has been increased 2, and that of Vanderburg diminished 27, or a change of 29 to Tongue.

Ellis' plurality over Quinn is now 462 votes, the latter having added to his total 22 from Baker, 2 from Crook, 29 from Harney, 272 from Union, and lost 10 in Umatilla. Ellis' total has been increased by 34 from Baker, 45 from Crook, 14 from Harney, 107 from Union, and he has lost 34 in Umatilla. The vote now is: Ellis, 12,368; Quinn, 11,916.

The City Election.

The city election occurs Monday. There is to be elected a mayor, city treasurer, three councilmen and three water commissioners. Though the time is fast approaching, there has been little interest manifested in a general way, and if any extended system of wires has been laid, it does not appear on the surface. For mayor five names have been mentioned—the present incumbent, Mayor Menefee, and Messrs. M. T. Nolan, Henry Maier, Jud Fish and S. B. Adams. Reports are conflicting as to whether some of these gentlemen would accept the nomination.

The primary will be held Thursday. According to custom, this has been in the form of a mass meeting, where the mayor and treasurer were nominated, and if any disaffection resulted other candidates were nominated at independent meetings held later. At the original mass meeting a motion is usually made that ward meetings be held the night following to nominate councilmen and water commissioners. The mayor has issued a call for a mass meeting Thursday night.

Citizens Meeting.

Pursuant to the usual custom, a meeting will be held at the Court house on Thursday evening June 11th, 1896, at 8 o'clock, for the purpose of making nominations for the offices to be filled at the coming city election.
