WHY? have we taken hold of the VICTOR BI-CYCLE as our leading Wheel.

Because after thoroughly testing a dozen different makes, we have come to the conclusion that the VICTOR is the BEST.

Because it is mechanically perfect, and while not TOO LIGHT for our bad roads, yet it runs the easiest.

Because it has a tire that, while light, is almost PUNCTURE PROOF. (We will repair all punctures free for the season on 1896 Victor Tires.)

We have 1896 Bicycles that list at \$100 that we will sell for \$75, but they are not VICTORS. Our 1896 VICTORS sell for \$100.

For medium grade bicycles, we have the Waverley and Crescents—\$50 to \$85. Good second hand wheels, \$25 to \$50.

Bicycles and Tandems for rent. Wheels repaired. We keep constantly on hand a good stock of compressed air, for inflating tires, and give it away. Get your tires inflated.

### WAYSIDE GLEANINGS.

Random Observations and Local Events of Lesser Magnitude.

Forecast—Tonight and tomorrow fair and warmer.

The new Stanford straw hat at A. M. Williams & Co.

A marriage license was granted today to Edwin T. Hibbard and Lillian M. Richardson.

Mr. John M. Roth, who has been proprietor of the Central hotel at Dufur, will shortly move to Kingsley. Mr. Hugh Morehead will take charge of the hotel.

It does not yet appear that there will be a contest for the several city positions, nominated Thursday and Friday nights. There is no issue of importance this year before the people to be decided by a city election.

There is said to be a very large amount of snow in the region of the Upper Columbia. The great volume of the rise of the Snake is over, so that unusually high water is scarcely to be feared. The river is about on a standstill.

Dr. Hollister received a letter this morning from Mr. Chas. Malette, formerly timekeeper at the shops here, that his father had died very suddenly in Kansas last week. The old gentleman was at one time governor of South Dakota.

The attorneys of the city believe they are a little stronger on a bowling game than other classes of professional men and are especially inviting the doctors, druggists and dentists to knock the chip from their shoulder. Their confidence is supreme, and some of them are just a little aggressive about it.

Owing to the high stage of water in the river the salmon catch continues light. Herriek canned a few cases Thursday and is putting up a few today. Altogether the wheels are doing poorly at the present time, but a very large catch is expected when the water recedes about ten feet from the present stage.

The larger number of Good Templar delegates left on this afternoon's train and many of their new-made friends of The Dalles were at the train to bid them adieu. Just before starting the visitors gave three cheers for The Dalles, and as the train disappeared through the cut handkerchiefs were waved by the visitors and guests, marking the last farewell for the season.

The Dufur Dispatch has the following kind words for our city: "The Dalles is the most important wool mart on the Pacific coast. It is the center of a wool and stock business for two hundred miles round about. Even the wool-growers of Washington haul their product right by stations on the Northern Pacific railway seventy-five or eighty miles into The Dalles. Over 4,000,000

pounds of wool are now in the warehouses there, and as much more is expected to arrive."

It has been agreed upon between Supt. Troy Shelley and C. L. Gilbert, superintendent-elect, to hold a normal institute at The Dalles, beginning July 13th and continuing four weeks. Besides the common school studies, instruction will be given in such of the higher branches of study as shall be decided upon later on. This will be a rare opportunity for all those now engaged in the profession of teaching or preparing for the same. Further information will be given about board and rooms.

### A Perilous Adventure.

Geo. C. Walker passed through Cello rapids yesterday in a steamer forty feet long, and tied up his boat at the mess house above the dalles rapids. He is in the city today and saw Capt. Waud, whose opinion he is soliciting as to whether he can pass over the dalles in the boat with any degree of safety. The captain will go in the morning and make an inspection. Mr. Walker says it looks at present as though the swell at the dalles is about thirty feet high. The owner of the craft has come in it all the way from Lewiston, making the distance in thirty hours. The first eighty miles was made in five hours. It is a stern wheel steamer furnished with two engines and a 175-lb boiler. He wants to take the boat to Portland and sell it. The most perilous part of his trip was in Snake river canyon, where he says while passing through some rapids the boat stood up nearly on end, as it dashed down a steep place into a whirlpool at an elbow of the river. Opinion is divided as to what will become of the boat at the dalles. Some believe it will be whirled underneath and never appear on the surface again.

### WAR IN THE AIR.

The Dalles Militia Company Prepared to Leave at an Hour's Notice.

There is an air of suppressed excitement in militia circles at the present time, and the boys are on the qui vive of anticipation over the Astoria troubles. Little can be learned from either officers or men, owing to the secrecy which is enjoined upon them from headquarters, but this much is known, that they have received orders to hold themselves in readiness at an hour's notice. As another evidence that the atmosphere is strongly impregnated with the martial spirit, it may be observed that the orders expected to have been issued early in the week for the encampment at Hood River on the 23d, have not been issued. It is also known that the officers here have forwarded guns and ammunition to other companies of this battalion, The Dalles being the supply point. Levi Chrisman, captain of Co. G, yesterday received a supply of webbed cartridge belts, and it is probable that he has orders to supply the same to all the companies. Altogether it would not be surprising if the assemble call should be sounded on our streets at any time. The situation at Astoria is now very tense. Many murders have already been committed, and the time has come when some effort must be made on the part of the state to prevent loss of life and property. If a call to arms is made, it is possible a special train would start from Baker City, picking up the militia companies on the way.

### Circuit Court.

Circuit court was again in session this morning, and after the consideration of several matters, adjourned till the 24th. The business of the court was never before cleared up so completely, there being but a very few cases continued till next term. Following was the business disposed of today:

T. F. Baines vs. Thos. Denton and Sandox Bros. Reply filed. Case referred to Maybel Mack to take testimony with special reference made to have testimony of P. J. Complin taken in New York City, and the foreclosure of Thos. Denton's farm. Sandox Bros. claim the right of way for a water ditch through the property.

Green vs. Story and Dalles City, amended complaint filed and ten days given to answer.

Mary Davenport vs. Meeks et al referred to Douglas Dufur to take testimony.

Cases or Huntington vs. Winans, confirmation of sale of property near Hood River.
