THE SITUATION.

The manifesto issued by the silver bolters makes it certain that an aggressive fight will be made upon McKinley because of the open declaration for sound money contained in the Republican platform.

The coming campaign promises to be one of the most exciting in the country's history. The forces of cheap money; the advocates of impaired national credit; the men who want fifty cents worth of bullion called a 100-cent dollar, are organizing against the Republican nominee and will bend every endeavor to win the fight. There is but little doubt that the Chicago convention will declare for a debased currency and if it does a coalition of all the free silver parties is easily possible. Populists, fiat money advocates, free silver Republicans and free silver Democrats, eager in their love for their new-found god, will argue themselves into a justification for joining under one banner and opposing McKinley.

Should such conditions result, the duty of the sound money Democrats will be plain. If they are sincere in their devotion to the gold standard and in their belief that the present monetary system should be maintained, for them to adopt any other course than to vote for McKinley would be a surrender of principle incompatible with the ideal of American citizenship.

The legitimate issue in the coming campaign is protection. Whether or not this question shall be side-tracked in favor of the currency question remains to be decided. Among the wool-growers, the laboring men and the manufacturers protection will prevail; among other classes the currency may be of chief account. But in either case the Republican party is on the right side and goes before the country claiming that its past deeds entitle its present promises to credence, and that these pledges are for the advancement of the nation; the maintenance of a sound monetary system; protection to American industries, and the enactment of a vigorous foreign policy.

The Republican party represents the cause of good government, and its success next November is indispensable to the welfare of the nation.

Flagging interest in the Cascade locks is revived by the letter received today from Senators McBride and Mitchell. Just what the communication promises everyone can read for himself. What the result may prove none can tell. We long ago announced our belief that faith had been broken with the people regarding the completion of this great work, and the repeated delays which have occurred cannot be otherwise than intentional. If the work be done as promised in this senatorial letter, the Messrs. Day will have nothing to do with it, the operation being carried on under the supervision of the government engineers. That a lack of confidence exists in the integrity of these engineers, is as true as it is lamentable, and the people of Eastern Oregon will watch

future events not without suspicion. Our position regarding the locks is simply that when they are done and under operation we shall get enthusiastic, but not until then. In the meantime let us hope that the promises of men do not always prove false.

A SURGEON'S KNIFE

gives you a feeling of horror and dread. There is no longer necessity for its use in many diseases formerly regarded as incurable without cutting. The Triumph of Conservative Surgery is well illustrated by the fact that RUPTURE or Breach is now readily cured without the knife and without pain. Clumsy, chafing trusses can be thrown away! They never cure but often induce inflammation, strangulation and death. TUMORS Ovarian, Fibroid (Uterine) and many others, are now removed without the peril of cutting operations. PILE TUMORS, however large, other diseases of the lower bowel, are permanently cured without pain or resort to the knife. STONE in the bladder, no matter how large, is crushed, pulverized, washed out and perfectly removed without cutting. STRICTURE of primary Passage is cured in hundreds of cases. For pamphlet, references and all particulars, send to census (in stamps) to World's Dispensary Medical Association, 653 Main Street, Buffalo, N. Y.

MOTHERS

and those soon to become mothers, should know that Dr. Pierce's Favorite Prescription robs childbirth of its tortures, terrors and dangers to both mother and child, by aiding nature in preparing the system for parturition. Thereby "labor" and the period of confinement are greatly shortened. It also promotes the secretion of an abundance of nourishment for the child.

Mrs. DORA A. GUTHRIE, of Oakley, Oregon Co., writes: "When I began taking Dr. Pierce's Favorite Prescription, I was not able to stand on my feet without suffering almost death. Now I do all my housework, washing, cooking, sewing and everything for my family of eight. I am stouter now than I have been in six years. Your Favorite Prescription is the best to take before confinement, or at least it proved so with me. I never suffered so little with any of my children as I did with my last."
