WAYSIDE GLEANINGS.

Random Observations and Local Events of Lesser Magnitude.

The Fairfield people are going to celebrate the Fourth of July at D. L. Bolton's grove.

Today has been the hottest so far this season, the mercury reaching 91 degrees in the shade.

A chemical engine test in the open air will be made tonight on Gibbons & Mac Allister's lot on Third street.

A full attendance of the Rathbone Sisters is requested this evening, as business of importance will be discussed.

Mr. S. D. Fisher has nearly completed his contract of erecting a store building adjoining Mrs. Mosier's residence at Mosier.

The trial of the Indian arrested for stealing \$25 at Hood River was dismissed yesterday, on motion of Deputy Dist. Atty. Phelps.

A complaint was filed in the clerk's office today by the J. M. Russell Co. vs. Wm. Kelsay & Sons for the recovery of \$589.07 for commission charges on wool.

The 9-year-old daughter of Chas. Becht was thrown from a horse yesterday and sustained a compound fracture of the arm. Dr. Hollister attended to the injury.

Mr. James Snipes found a purse this afternoon containing several dollars, which the owner can regain by applying for it at this office and paying for advertisement.

Ebal Clarno's house, built last fall near the John Day ferry, on the Wasco county side, was destroyed by fire Sunday, June 14th, the result of a defective flue. The furniture was saved.

The Eugene Guard is informed by several horticulturists that the codlin moth has made no signs of an appearance yet, and it is generally believed that this pest was annihilated by the cold rains this spring.

Ice cream and cake, 10 cents, served by the ladies of the Lutheran church on Thursday, June 25th, in the store room recently vacated by W. A. Johnston, located on Washington street, next to U. S. land office. Doors open at 6 p. m. Everybody invited. 23-3t

Mr. G. E. Stewart has been confined to his room about ten days from an injury received by a fall at the opera house. The injury is in his back in the same location as was operated on a few weeks ago at Independence. He appeared on the street today.

Homer Davenport, the New York Journal star cartoonist, is lean and lank with the best-natured face in the world.

One glance at the man shows his gentle humor. He has the soft, graceful ways of the Californian, for his home is on the Pacific slope. He has lately been entertaining New York with his clever pencil work through the columns of the Journal.—St. Louis Republic.

An illustrated health talk will be given to the mothers and daughters of The Dalles by Mrs. Mary Brazil, of San Francisco at the Congregational church, Saturday afternoon, at 2:30, and on Monday at 2:30 o'clock. No admission charged.

A subject of great importance to women will be discussed by Mrs. Mary Brazil Saturday and Monday afternoons at the Congregational church. It will be a lecture on health with illustrations, and should be liberally attended. These lectures cost nothing to attend.

Strawberry shipments have about ceased at The Dalles and Mosier. There are some small strawberry farms on Upper Hood River that come in with their fruit two weeks behind the main crop and the growers generally receive top prices for it. Hood River will, therefore, ship for several days yet.

Frank Knox has returned from hauling his first load of wool to The Dalles, says the Fossil Journal. He brought back a load of goods for local merchants, for hauling which he got 50 cents per 100 pounds. Goods are being hauled to Antelope from The Dalles—over 60 miles—for 25 cts. per 100.

Mr. Green McLafferty while driving home to his ranch Tuesday evening, seven miles from the city, suffered a serious accident. While driving down a grade the horse stumbled, throwing him out of the buggy. In some manner he fell beneath the horse, which stepped on him, crushing in two of his ribs. The animal coming in without a driver caused others to go on a search for him, and he was found about two miles from home, slowly and painfully walking homeward. He was hurt too severely to ride and he walked the entire distance. Dr. Eshelman was summoned to attend the injured man.

Grandma Parks is passing away at the residence of her daughter, Mrs. Frank Knox, the disease being a large cancer in the stomach. She does not get up any more, and cannot talk except in labored whispers. She is a fine old woman, who does not fear death. A few weeks ago, while visiting the editor's family, she said she believed she had lived long enough, and was ready to go when called, and there is little doubt she felt the end approaching then. Two of her sons died for their country, one on the battlefield and the other in Libby prison. Tardy recognition of their martyrdom is expected soon from the government in the form of a small pension to their aged mother, but it will come too late.—Fossil Journal.

THE CHINESE CASE.

Charge of Larceny Trumped Up, but Kin Sing Stays in Portland.

Wong Louie left for Portland on the afternoon train yesterday to get his wife if possible. That he failed may be judged from the following from today's Oregonian:

Won Duck and Kin Sing, a couple who were arrested a few days ago for the larceny of a \$50 diamond ring on complaint of the woman's husband, Wong Louie, of The Dalles, were given a hearing in Justice Geisler's court yesterday afternoon, which resulted in their discharge. This case is an almost exact parallel of the Rivers case, which crowded the municipal court Tuesday afternoon. The woman was forced to earn her husband's living by prostitution, and, becoming desperate, ran away to escape him. He, as did Rivers, trumped up a charge of larceny to bring his wife back, and failed in his purpose of punishing her. The ladies of the Christian mission took to the woman in charge, and will take care of her for a time.

The Right of Way Cases.

The jury in the case of the United States against Sentert Bros., Wm. Mitchell, The Dalles Packing Co. and I. H. Taffe arrived on the noon train today with U. S. Prosecuting Attorney Murphy, and after eating dinner were driven to the location of the rights of way, for which damages are asked. Mr. Schanno testified yesterday that the lands were valueless for agriculture or horticulture and the only question is as to the inconvenience for fishing, and the consequent damage therefrom. The jury has settled one case for \$2,000, involving a strip of land three miles long, containing eighty acres.

In this connection the Oregonian today has the following:

The case of the United States vs. William Mitchell to condemn right of way through defendant's property for The Dalles-Celilo boat railway, was on trial in the United States court yesterday. Mr. Mitchell owns a tract of land extending about half a mile along the river. There is no fishery established there, but there is a very good place to put one, and Mr. Mitchell asks damages in the sum of \$4352 for the condemnation of his property. It is probably that the jury will go up and view the landscape over before deciding on a verdict.

Dr. Darrin Well Known.

MR. EDITOR:—Having noticed the arrival of Dr. Darrin at the Umatilla house, I wish to state to the public what he did for my father, (now residing in Boyd, Oregon), seven years ago. For months he had been sorely afflicted with a terrible pain in the ear and head, causing restlessness, deafness and insomnia. He was nearly crazy with pain, and all remedies failed to cure. He was induced to go to Dr. Darrin, then in Portland. In a few weeks he came home a cured man, all by the effects of electricity as administered by Dr. Darrin.

I am in business at 110 Second street, this city, and will gladly answer any questions. Tom McCov, Proprietor of the O. K. Baths.

Appropriation Money Now Available.

Captain W. Fisk, United States engineer, has received an official copy of the river and harbor bill, as passed by congress over the president's veto June 3d. He is also notified that the various appropriations for works in Oregon under his charge are now available, and will, as soon as practicable, have projects for the various works prepared, in order that operations may be commenced without unnecessary delay. These improvements include the following:

Improving Columbia river at 3-Mile rapids, and the construction and equipment of a boat railway from the foot of the Dalles rapids to the head of Celilo falls, in the state of Oregon, the same to be constructed under the direction of the secretary of war, in accordance with the plans and specification of the engineer department, \$150,000.

Improving Columbia river at the cascades—\$50,000 for maintaining and protecting existing works and for modifications required to increase the navigable capacity of the canal, \$20,000, of which, or so much thereof as may be necessary, shall be immediately available for expenditure in the discretion of the secretary of war in constructing on the land and river sides of the canal, between the upper lock gate masonry and the upper guard gate masonry, such portions of the walls proposed in the modified project presented by the board of engineers in its report of October 18, 1894, as may be necessary to construct in advance of the opening of the canal to commerce.

Fourth of July Rates.

For the Fourth of July the O. R. & N. Co. will sell excursion tickets to any rail station within 300 miles of The Dalles at rate of one fare for the round trip. Tickets to be sold July 23, 24 and 25; good up to and including July 28th. E. E. LITTLE, Agent.
