MUCH TO LEARN.

The American people have much to learn between now and next November. They must learn that it is time to stop trifling with economic loans; that the resources of this country, rich and varied as they are, cannot supply the drain which is made upon them by the vacillating course of politicians and pseudo-statesmen.

Four years ago the nation was enjoying unexampled prosperity; labor was employed at remunerative wages; capital was making a sure return; our relations with foreign nations were honorable and peaceful, while peace and plenty brooded over the land.

This was all changed by the election of 1892, when the people overthrew existing conditions and started on a course which has stopped but a short distance from ruin. Since March 4, 1892, there has been saddled upon the country a debt of \$262,000,000, upon which there is an annual interest charge of over \$11,000,000.

Free coinage of silver cannot be defended from any logical standpoint. A large amount of silver is carried in circulation because the government carries a greater amount of gold in which the silver, should it be desired could be redeemed.

The debtor class might reap a temporary advantage, but the fruits would be bitter as further investment of capital would cease and a business stagnation result, to which the present stringency would be insignificant in comparison.

The present campaign must be one of education. It is the duty of every voter to inform himself as best he may, and next November decide whether he shall vote to overturn all honest conditions and throw the

nation into a chaos from which it will take years to extricate it.

Those Democrats who object to the arraignment of Cleveland's administration contained in the Republican platform, should stop and consider whether or not all that was said is not true. There can be no doubt but that the country has passed through a period of distress unsurpassed in our previous history, and it is just as true that this result is due to Democratic legislation.

Democratic promises and Democratic fulfillment are two different things. In 1892 many farmers were deluded into the belief that free trade would increase the price of wheat and make the exports of the country greater.

WOMEN'S FACES - like flowers, fade and wither with time; the bloom of the rose is only known to the healthy woman's cheeks.

Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Dr. Pierce's Favorite Prescription will cure the chronic inflammation of the lining membranes which cause such exhausting drains upon the system.

Mrs. JENNIE WILLIAMS, of Mohawk Lane Co., Oregon, writes: "I was sick for over three years with blind dizzy spells, palpitation of the heart, pain in the back and head, and at times would have such a weak tired feeling when I first got up in the morning, and at times nervous chills."

A Household Treasure. D. W. Fuller, of Canajoharie, N. Y., says that he always keeps Dr. King's New Discovery in the house and his family has always found the very best results follow its use; that he would not be without it, if procurable.
