OVER IN WASHINGTON.

Some silver Republicans of Washington have hied themselves together and instituted a new political organization. It will be known as the Bimetallic Republican party, and its only object and concern is to bring the country to a silver basis. A delegation will be sent to the National Bimetallic Convention, which meets in St. Louis July 22d. The delegates will be instructed to work for the union of all the free silver forces in the United States, and in the coming campaign in Washington fusion will be sought with the silver Democrats, Populists and silver Republicans for the nomination of a silver state ticket and silver county tickets. Everything will be silver-lined.

This silver movement was the inevitable result of the St. Louis declaration for the preservation of our financial credit, but it is just as well that it has come. The Republican party through its past glorious history and present prosperity has attracted to it many men of loose views and whose views are limited by the narrow range of selfishness. These men, blinded by the glamour of the silver shield, are taking their leave of the Republican party just as their predecessors in error bade good bye to the country some thirty-six years ago. Their places will be filled by patriotic Democrats, who, rather than see the country brought over the verge of bankruptcy, will rise above party considerations and vote for the good of the nation.

The make-up of this Bimetallic party of Washington consists mostly of disgruntled politicians who espoused the silver cause because they thought individual success lay in that direction. Now that the Republican party has taken a diametrically different position, the doors of political advancement through the old party are closed to them, and nothing remains but to form a new organization.

Ex-Governor Moore, who made the principal speech for free silver, is a broken down politician whose life has been a series of attempts after the unattainable. By a lucky chance he received the appointment of governor of Washington, which he held a few months prior to the admission of the state into the union. Geo. Turner of Spokane, another prominent member of the new party, has been a perennial candidate for United States senator since the admission of the state. Although an able man in many ways, political ambition has made him the champion of demagogical theories.

The Bimetallic party of Washington will be a gathering place for Populists, believers in flat money and fifty-cent dollars. It will create somewhat of a fervor during the campaign, poll some votes, but die away after the November election. The men who are at the head of it have never been successful in leading political bodies before, and they are not going to be now.

The people of our neighboring state are not going to transform

"Washington's glory" into "Washington's shame."

The death of Harriet Beecher Stowe has long been expected. Her active life was ended years ago, and she has been waiting in shadow the last summons. She has filled a part in American life that posterity will remember. Her death takes away nearly the last of that group of notable who by tongue and pen aided in the destruction of slavery. Like Whittier her deeds were quiet, but none the less effective. She has prepared her own monument, which will be more enduring than marble or brass.

Eight thousand men have been thrown out of employment in Ohio awaiting a settlement of wages. And yet it used to be said that McKinleyism was the cause of all strikes. Perhaps it will be declared that his nomination and impending election are the causes of the trouble. This would be as good a reason as the average free trade argument.

Multnomah county is not through with her political troubles. The Mitchell Republicans have instituted a contest on the legislative ticket, and will seek to obtain an entire recount. Portland will get through one campaign about in time to begin another.

By direction of the postoffice department The Dalles has been raised to the grade of a second class postoffice. At the same time Pendleton was reduced from a second grade to a third. The Dalles is all right.

TAKE STEPS

In time, if you are a sufferer from that scourge of humanity known as consumption, and you can be cured. There is the evidence of hundreds of living witnesses to the fact that, in all its early stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, fully 98 per cent, are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty cod-liver oil and its filthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried in vain.

The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in a book of 160 pages which will be mailed to you, on receipt of address and six cents in stamps. You can then write to those who have been cured and profit by their experience.

None But Ayer's at the World's Fair.

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed on exhibit at the world's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule, forbidding the entry of patent medicines and nostrums. The decision of the world's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."
