### AN OBJECT LESSON.

An object lesson is furnished to the people of The Dalles of the dangers which threaten the country. The wool buyers from the East, who have spent the season so far in this city, have, it is stated, received instructions from their employers in the East to buy no more wool, but to close their business arrangements and return home. This action is due to the possibility next November of Mr. Bryan being elected with his free trade, free silver views.

The Eastern woolen manufacturers come in for no blame over the situation. They are simply protecting their own interests, and the wool grower whose clips they refuse to buy concedes that they are but doing what circumstances justify.

Such action, however, will work a great hardship in the West. The wool product this year is very large, and our warehouses are crowded beyond all former precedents. But none is selling. The bankers and merchants who made advances will wait a long time for their returns—if in fact they come at all.

And yet there are men in The Dalles who will vote against McKinley next November; vote against the party whose success means the coming of prosperity to places which have suffered for the lack of it because of inimical tariff legislation. The Dalles is the largest wool depot in the West and feels the quickening and lessening of the pulse of trade sooner than most places. It has already this season felt the effect of this agitation carried on by the opponents of American industries. It is idle to state anything but the truth. Unless the election of McKinley is assured there will be no wool sold in The Dalles this season, and the \$600,000 which was circulated through our city last summer will remain in memory as a reminder of the days that were. All the arguments of theorists and demagogues fade to nothing in the face of the object lesson which the wool growers in Eastern Oregon are perceiving now.

If you want to know how Democratic tariff tinkering works, ask the wool grower whose product remains unsold in the warehouse; ask the merchant who has sold large quantities of goods, expecting a quick return, but receives it not; ask the capitalist who has loaned money and finds his security dwindling; and ask the laboring man whose wages have been cut in half, and, worse than that, finds no employment, even at wages so reduced. Ask these men, earnest questioner, and leave your free trade professors to their books and their impractical theorists.

### HOW WOULD YOU LIKE IT?

Here is a cabinet which is among the possibilities in case Bryan be elected. How would you like to have the affairs of the country administered by men who hold such views? This is an ideal cabinet for a Demo-Pop-Anarchistic administration:

Secretary of state—John P. Altgeld.

Secretary of the treasury—Richard P. Bland.

Secretary of war—Benjamin R. Tillman.

Attorney-general—Jos. Blackburn.

Postmaster-general—Horace Boies.

Secretary of the navy—John R. McLean.

Secretary of the interior—Henry M. Teller.

Secretary of agriculture—Jerry Simpson.

Nothing would then be lacking to insure peace and prosperity at home, and Altgeld would be free to force the appointment of Herr Most as ambassador to the court of St. James or to Berlin.

Why should the Populists be so concerned about preserving their party organization? The Democrats have saved them the trouble, and by their action at Chicago made Populism and Democracy identical. There is no difference between a Democrat and Populist these days.

# 98%

of all cases of consumption can, if taken in the earlier stages of the disease, be cured. This may seem like a bold assertion to those familiar only with the means generally in use for its treatment; as, nasty cod-liver oil and its filthy emulsions, extract of malt, whiskey, different preparations of hypophosphites and such like *patent* medicines. Although by many believed to be incurable, there is the evidence of hundreds of living witnesses to the fact that, in all its earlier stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, *fully 98 per cent.* are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses, in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty cod-liver oil and its filthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried in vain.

The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in a book of 160 pages which will be mailed to you, on receipt of address and six cents in stamps. You can then write those cured and learn their experience.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. None But Ayer's at the World's Fair. Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed on exhibit at the world's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the world's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."
