## UNTOLD MISERY FROM HEUMATISM C. H. King, Water Valley, Miss., cured by Ayer's Sarsaparilla

"For five years, I suffered unfold misery from muscular theumatism. I tried every known remedy, consulted the best physi-cians, visited Hot Springs, Ark, three times, spending \$1990 there, besides doctors' bills; but could obtain only temporary relief. My flesh was wasted away so that I weighed only ninety-three points; my left arm and leg were drawn out of shape, the muscles

being twisted up in knots. I was unable to dress myself, except with assistance, and could only hobble about by using a cane. I had no appetite, and was assured, by the had no appetite, and was assured, by the doctors, that I could not live. The pains, at times, were so awful, that I could procure relief only by means of hypodermic injec-tions of morphine. I had my limbs bandaged in clay, in sulphur, in poultices; but these gave only temporary relief. After trying everything, and suffering the most awful tortures, I began to take Ayer's Sarsuparilla. Inside of two months I was able to walk Inside of two months, I was able to walk without a cane. In three months, my limbs began to strengthen, and in the course of a year, I was cured. My weight has increased to 165 pounds, and I am now able to do my full day's work as a railroad blacksmith."

YER'S The Only World's Fair Sarsaparilla. AYER'S PILLS cure Headache.

## WONDERS OF SCIENCE.

They Compel Us to Believe Almost Anything Possible.

People are now familiar with the idea of storing up sound for future use so that a man's voice can be heard long after he is dead. It has recently been suggested that somewhere in the storehouse of nature the sight of all that has taken place is stored up, and that Moses got his account of the creation from a kind of kinetoscope which was disclosed to him as he stood in the cleft of the rock and saw the pictures of the procession of events pass by. As Dr. Johnson said, we have seen so much that we are prepared to believe more. When people in New York city can hear the roar of Ningara, when machinery can be driven by a water wheel 300 miles distant, when we can see through boards and take photographs of a fat man's bones and the money in his pockets, when we can talk with our friends a thousand miles away and recognize the tones of their voices, when we can warm the baby's milk at night by touching a button, we must be obstinate, indeed, if we refuse to believe anything. There is nothing in the "Arabian Nights" as marvelous as the things seen at the electrical exposition in New York. And yet, says the Baltimore Sun, if we apply the logic of David Hume in his essays on the miracles to these things, we should refuse to believe that a photograph of a living man's skeleton may be taken. Hume refused to credit the miracles because they are contrary to all human experience. It is a matter of curious speculation, have we reached the limit of knowledge of electricity, or are we upon the threshold of scientific revelations? Will we in time discover that apartment of nature's storehouse where she keeps the sights and sounds of past ages?

## PERSONAL MENTION.

ing.

Miss Etta Story left for Portland this morning.

Mrs. S. H. Frazier went to Hood River this morning.

this afternoon

Mr. Kerr, of Kerr & Buckley, went to Portland this morning.

Mr. A. J. Dufur left on the west-bound train to join his family.
