IS THE END NEAR AT HAND?

Interest in the locks at the Cascades has revived because of the announcement that work will be begun upon the inner walls within a short time. Opinion differs as to whether or not the task will be completed and the canal ready for the operation of boats before the present year has passed. Of one thing we are sure, there is but little to be done, and if the will is present the way can be easily found.

The national government has acted very generously in acceding to the results made by the people's representatives, which requests were based upon the estimates made by supposedly competent engineers. The money last appropriated, and which is now on hand, it is intended shall be sufficient for the completion of the locks to navigation. Nothing but chicanery and jobbery can prevent such a realization, but judging from the past, the people of Eastern Oregon have no firm faith for the future.

We believe that at this time a special effort should be made towards preventing any repetition of former delays. The locks are on the verge of completion, and a set back now would mean that the intention exists somewhere that the work shall never be finished.

Congressman Ellis and Senator McBride are in the state, and Senator Mitchell will soon be here. It would seem a good plan if a meeting of these gentlemen with the citizens of The Dalles could be arranged and the situation freely and frankly discussed. The matter is of such overwhelmingly importance to Eastern Oregon that it should be clearly understood just what the situation is, and a declaration made by our delegation in congress would serve to dissipate any existing doubts.

Political history affords some interesting data concerning the nomination of presidential candidates. It is not necessary to go back farther than 1856, at the time that the Republican party practically came on to the political stage. Fremont was nominated on the first formal ballot by unanimous vote. Buchanan was nominated on the 17th ballot. President Lincoln had on the first ballot, in 1860, 102 votes out of 465. He was nominated on the third ballot by 300, to 165 for Seward of New York. Lincoln's second nomination was practically unanimous.

What has Mr. Bryan ever done to entitle him to a place among the presidents of the United States? He is a good Fourth of July orator, but the country at this critical moment

needs a man of sober thought, of wide experience and tried character. Bryan possesses none of these qualifications. As a stamper Bryan would be a far greater success than a president.

The Democratic party would seek to legislate into office judges of the United States supreme court who would render decisions according to tenets of the party. One of the safeguards of constitutional government would thus be destroyed.

Yet relief is ready to the hand of almost any one who will use systematically the remedy that has permanently cured thousands. SIMMONS' LIVER REGULATOR is no drastic, violent purge, but a gentle assistant to nature.

CONSTIPATION

SHOULD not be regarded as a trifling ailment—in fact, nature demands the utmost regularity of the bowels, and any deviation from this demand paves the way often to serious danger. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J.
