TUESDAY, JULY 28, 1896

WHAT GOLD COINS ARE WORTH.

Recently, in reply to a correspondent, the Baltimore Sun stated that a \$20 gold piece is worth \$20 by reason of the weight of gold in it, not by reason of the government stamp or inscription. If the gold piece were melted into a lump, it would still be worth \$20 in the market. There are 23.22 grains, Troy, of pure gold in the gold dollar. In other words, the gold in a coin obtained no increase of value in the process of coinage. No appreciable part of its value was due to the mint's stamp, and the proof of this was that if melted down the coin was worth as much as before. Whereas, the silver dollar, the coinage of which it is proposed to make free, is worth when melted down but little over 50 cents.

As several correspondents questioned the correctness of the statement, the Sun, to end all question, addressed inquiries to the director of the mint at Washington, with the following result:

A. S. Abell Company, publishers Baltimore Sun, Baltimore, Md.: Gentlemen—In reply to your inquiries relative to the value of gold and U. S. gold coins, I submit the following:

"1. What do you give for gold?" Answer—The government pays for gold at the rate of \$20.67 per ounce, fine, or \$18.60 per ounce, standard, 9-10th fine.

"2. Is there a charge for minting, and if so, how much is it?" Answer—The government makes no charge for coining gold.

"3. Is there a charge for the copper used to prepare gold for the mint?" Answer—When the bullion deposited is not suitable for coinage and requires parting and refining, charges are made for these operations, equal to the expense incurred in eliminating the base metals and parting the gold from the silver when the two metals are combined. There is also a charge of two cents per ounce for copper required for alloy. Upon gold bullion of standard fineness, that is, containing 9-10ths gold and 1-10th copper, no charge whatever would be imposed.

"4. Will the mint give \$1 for 23.22 grains of pure gold?" Answer—The depositor of gold bullion is allowed 100 cents for every 23.22 grains, Troy, of pure gold his deposit may contain.

"5. What is a \$20 gold piece worth in the market if melted into a lump?" Answer—Twenty dollars if it has lost nothing in the melting.

The enthusiasm which attended Bryan's nomination at the outset is beginning to decline. He is not the man whom people can long hurrah about. From now till election day Bryan stock will be upon the wane, and after that he will be known in history only as illustrating a phenomenon in American politics. Bryan could get more votes tomorrow than he can three months from now.

THE BUSINESS MAN'S LUNCH.

Hard Work and Indigestion go Hand in Hand.

Concentrated thought, continued in, robs the stomach of necessary blood, and this is also true of hard physical labor. When a five horse-power engine is made to do ten horse-power work, something is going to break. Very often the hard-worked man coming from the field or the office will "bolt" his food in a few minutes which will take hours to digest. Then too, many foods are about as useful in the stomach as a key of nails would be in a fire under a boiler. The ill-used stomach refuses to do its work without the proper stimulus which it gets from the blood and nerves. The nerves are weak and "ready to break" because they do not get the nourishment they require from the blood, finally the ill-used brain is morbidly wide awake when the overworked man attempts to find rest in bed.

The application of common sense in the treatment of the stomach and the whole system brings to the busy man the full enjoyment of life and healthy digestion when he takes Dr. Pierce's Pleasant Pellets to relieve a bilious stomach or after a too hearty meal, and Dr. Pierce's Golden Medical Discovery to purify, cure and vitalize the blood. The "Pellets" are tiny sugar-coated pills made of highly concentrated vegetable ingredients which relieve the stomach of all offending matters easily and thoroughly. They need only be taken for a short time to cure the biliousness, constipation and slothfulness, or torpor, of the liver; then the "Medical Discovery" should be taken in teaspoonful doses to increase the blood and enrich it. It has a peculiar effect upon the lining membranes of the stomach and bowels, toning up and strengthening them for all time. The whole system feels the effect of the pure blood coursing through the body and the nerves are vitalized and strengthened, not deadened, or put to sleep, as the so-called "cleary compounds and nerve mixtures" do—but refreshed and fed on the food they need for health. If you suffer from indigestion, dyspepsia, nervousness, and any of the ills which come from impure blood and disordered stomach, you can cure yourself with Dr. Pierce's Golden Medical Discovery which can be obtained at any drug store in the country.

When You Want Ice Cream,

Lemonade, Candies, Nuts, Home-made Taffy, Cigars, Tobacco, Fruits, &c, and a good

Lunch. Go to Mrs. C. Nelson & Co., Lunch 5 to 15 cents.

Write or call for prices of farm machinery. JOHN M. FILLGON.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75 cents.

Anheuser beer on draught at the Midway.

All Free.
