VICTORIA TO RETIRE

This Report is Given Out in London.

HER HEALTH BADLY SHATTERED

Prince of Wales May Soon Occupy the British Throne—Development of Australian Mines.

LONDON, July 31.—The rumor that Queen Victoria intends to retire in favor of the Prince of Wales is again current today. It is added that court circles are greatly troubled regarding the condition of the queen's health. Such reports have frequently appeared recently, only to be semi-officially contradicted later, but it seems that there may be some actual foundation for the statements made. It is added that her majesty has decided to spend her time in future at Balmoral or Osborne, and will give the Prince and Princess of Wales the use of Buckingham palace and Windsor castle. There is no doubt the queen seems to feel greatly wrought up over her eyes and bereavements. Her majesty is quoted as having repeatedly remarked during her stay at Buckingham palace upon the occasion of the recent marriage of Princess Maude of Wales to Prince Charles of Denmark: "This is my last visit to London."

Color is given the reports in circulation by the deep emotion displayed by the queen as she bowed in reply to the enthusiastic multitude which lined the route from Buckingham palace to the railroad station where she took the train for Windsor, after the marriage ceremony.

Development of Australian Mines. SAN FRANCISCO, July 31.—Percy F. Marks, one of the proprietors of the London Financial News, and one of the recognized authorities on financial matters, arrived yesterday on the Monowai. The paper was founded in 1883, and is owned by himself and his brother, Harry H. Marks, a member of parlia-

ment. This brother, previous to embarking in this London newspaper enterprise, obtained his journalistic experience on American papers.

Mr. Marks has been in Australia making a study of the gold fields of West Australia, New South Wales and New Zealand. As these mines develop, which they are now doing very rapidly, he predicts a very remarkable increase in the supply of gold, amounting, in fact, to a glut of the yellow metal in the market. The mines of West Australia are particularly prolific, but have the disadvantage of being in a country scantily supplied with wood, water and means of transportation. But these disadvantages are being rapidly overcome. The government is extending the railroad from Perth to Coolgardie, on to Kalgoorlie, better known at Honanous, 25 miles, an extraordinarily rich mining region.

The government has also asked parliament for \$5,000,000 for the purpose of laying 3000 miles of water pipe. In many places drinking water sells for two shillings a gallon. From here Mr. Marks goes to Cripple Creek to investigate the mining prospects there. His paper, he says, has always had a favorable opinion of the Cripple Creek fields.

L. H. PLATTOR KILLED.

Shot Through the Heart While in the Spokane Courthouse.

SPokane, Wash., July 31.—L. H. Plattor, a well-known attorney and Democratic politician, was shot and almost instantly killed in the corridor of the courthouse shortly before 6 o'clock this evening. The shot was fired by Henry Seiffert, a restaurant proprietor and sporting man, who is also well known.

The tragedy resulted from remarks made by Plattor in court, and which Seiffert construed as a reflection upon his character.

BRYAN A PAID AGENT.

The Democratic Nominee Exposed by Senator Thurston.

MADISON, Wis., July 31.—The political campaign of 1896 was opened today in the presence of 8000 people, Senator John M. Thurston, of Nebraska, and Clarence S. Darrow, of Chicago, for two and a half hours presenting the respective sides of the currency question. Each talked for an hour and a quarter. During the course of his speech, Senator Thurston said:

"I happened to hear Bryan four years ago in the congressional campaign in my state. I pledge you, my countrymen, and it is a solemn fact, that from the beginning of that campaign to the end, William J. Bryan advocated no other issue, no other argument than the tariff. Four years ago I heard William J. Bryan say to a great audience in my state: 'Give us free trade and the American workingman's wages will go up.' But they went down. He said, 'Give us free trade and business will boom.' But it burst. (Loud applause and laughter.) The same man today comes before you with a new promise. They have discarded the issue of four years ago, and now 'Give us free silver and the wages of men will increase; give us free silver and the prices of products will rise; give us free silver and the new avenues of employment will be opened up; give us free silver and the business of the country will boom.'"

After depicting the evils which would follow the adoption of laws for free coinage of silver, Thurston added:

"Who has carried on this great silver campaign? On the 11th of July, 1896, a Democratic paper, the Chicago Chronicle, published this in double-leaded type, on its editorial page:

"The proprietors of the big bonanzas have found it profitable to keep a large number of lecturers and other spokesmen on the road preaching to the people. Among the many who have thus been employed and carried on the pay-rolls of the big bonanzas for a number of years is William J. Bryan, of Nebraska, a paid agent and spokesman for the free-silver combine."

"In the city of Omaha, where William J. Bryan does editorial work, the Omaha Bee has made the specific charge, editori-

ally, time and again. It has never been met. I say, as an American citizen, having at heart the welfare of the people, that the man posing as the advocate of the down-trodden masses of his countrymen—holding a 'crown of thorns' in one hand and the bugaboo 'cross of gold' in the other—owes it a duty to every man, woman and child in this country to say whether that charge is false or whether it is true. I do say, my countrymen, and I know whereof I speak, that for three years and a half, without regard to Bryan, there has been a selected corps of orators and writers, paid employes of the silver producers, spreading their literature over this country from one end to the other, telling the farmer that with free silver he will have more for wheat; telling the laboring man that with free silver he will have more for his work."

None But Ayer's at the World's Fair.

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed on exhibit at the world's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the world's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."

These Must Go at Once.

A home with lot, worth \$900; \$750 takes it. Owner leaving city, and must sell. Three lots only five blocks from Court house. Lay in fair shape; \$150 for the three. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J.
