### PEASE & MAYS

## Maltese Cross.

MAIER & BENTON are Sole Agents for the Maltese Cross Fire and Garden Hose for The Dalles. Anyone once buying this brand of Hose will never buy any other. It is carbolized and guaranteed to stand a pressure of 350 pounds to the square inch. This city has just purchased 500 feet of the Fire Hose and the School District 200 feet of the Garden Hose. The city has some of the Maltese Cross brand that was bought seven years ago, and it is better today than some other brands that were bought only four years ago. The Maltese Cross has been the standard Hose for years, and is manufactured by the Gutta Percha Rubber and Manufacturing Co. Parties wanting hose for spray pumps and lawn purposes will do well to buy the Maltese Cross. It will cost a little more in the start, but it is the cheaper in the long run.

#### WAYSIDE GLEANINGS.

Random Observations and Local Events of Lesser Magnitude.

The Macabees meet tonight. Full attendance requested.

Friday night McKinley club meeting at the council chambers.

Repopocrat is the latest word coinage to express a political monstrosity. They are bred in Idaho.

The quarterly teachers examination began today with about twenty-five teachers present. Supt. Gilbert and Prof. Gavin, and Prof. Neece are examiners.

H. W. Goddard, assistant general freight agent of the Southern Pacific, was in the city today looking after the wool shipping interests. All wool which goes down by Regulator goes over the S. P.

Every Republican who believes in protection, sound money and prosperity should lend his aid to further the work by his presence at the McKinley club meeting Friday night. Start the ball and keep it rolling.

A late shipment of fruit to Omaha by The Dalles Commission Co. brought the following returns: Peach plums, \$1.25; cherry plums, 90; yellow plums, 80. The last two varieties are considered almost worthless here.

The Yakima Times says Dean Stair, the 17-year-old son of Mrs. Ella Stair, of the Abtanum, shot a mountain goat along the waters of the Klickitat the other day. The report of the gun frightened his packhorse, causing it to plunge over a precipice 300 feet in height, killing it instantly.

Mr. W. C. Allaway is confined to his bed by an accident about a week ago at the locks. While making a landing from a box he was struck in the back by a plank which overturned. For two or three days he remained up, but was forced to take his room, and then his bed.

Mr. T. H. Clark, who came in from St. Helens Monday, left for the same point this morning. He has with him some good-looking quartz which came from a mine he discovered the 27th of July last. Yesterday he pounded up a small piece of it in a mortar and got four cents worth of the metal from it. The mine belongs jointly to himself and A. M. Kelsay.

The United States fish commission has decided to establish a salmon hatchery near Stevenson, on the Washington side of the Columbia, opposite the cascades. This decision was in compliance to the recommendation of Professor Barton W. Evermann, the ichthyologist with the commission. Professor Evermann telegraphed the report to Wash-

ington immediately upon its completion, the other day, and yesterday received a dispatch to the effect just stated.

Where Multnomah falls is laughingly throwing its waters over high cliffs and sparkling as the evening sun-god lovingly kisses its spray until it blushes with all the tints of the rainbow; where the air is redolent with the odor of the life-giving pines; where the fir's green spears seem to touch the sky; where the atmosphere is cooled by the mist from the adjacent stream that sweeps gurgling on to meet the grand, old Oregon, is the place the lady members of the Woodmen Circle and their friends have selected as a rendezvous for a ten days camping trip. Rates have been made with Agent Lytle to carry a party of ten the round trip for \$2.50. For further particulars inquire of Della Phirman or Mrs. Cushing. Reduced rates for this occasion to begin Saturday noon.

#### Exhibits for St. Paul.

A freight car, loaded with grain of all kind in stalk, and sacked grasses, including alfalfa; fruit, fresh, dried, canned and jarred; vegetables of all kinds, hops, wool, fish, wood and minerals, will leave Portland August 24th for St. Paul. It is desired that all farmers or other exhibitors who have anything to exhibit will bring them to the office of The Dalles Commission Co., corner of Second and Washington streets. Mr. Emile Schanno will personally superintend the packing of them and they will be properly shipped. This action was determined at a recent meeting at The Dalles, at which was present Mr. E. N. Morgan of Portland. The committee especially wants the producers to bring in grain in the sheaf or in bulk, fruit, vegetables, any product showing good growth. Any product or article calculated to interest strangers in Oregon's resources or capabilities will be gladly received.

On arrival, the exhibits will be removed from the car and placed in the main pavilion, where they will be arranged for exhibition. Messrs. B. S. Pague and A. H. Devers, commissioners of this board, will accompany the car, and they will have two assistants. Mr. Robert H. Wilson, who is now giving illustrated lectures of Oregon in Iowa, under the direction and auspices of this board, will be in St. Paul during the time of the state fair, and lectures will be given on the state fair grounds, descriptive of Oregon; Messrs. Pague and Devers will also lecture. At the close of the fair, the exhibits will be repacked and returned to Portland, where, those in condition will be placed in the exposition, which opens September 19.

Among many attractive exhibits to be sent to the fair will be several 75-pound frozen salmon; and, while Messrs. Pague and Devers are at the exposition, they will give several dinners, which will consist solely of Oregon products. Oregon salmon, potatoes, ham, fruits, brandy, wines and beer. This dinner will be given to representatives of the press, and will do wonders toward advertising Oregon.

#### WASCO REPUBLICANS.

They Will Begin the Campaign in Earnest Next Friday.

The Dalles correspondent of the Oregonian writes: The Republican campaign will begin in earnest next Friday evening when the McKinley Club will resume its regular meetings. This organization intends being an active factor in promoting the cause of Republicanism in Wasco county and is preparing for vigorous work. The executive committee has issued the following circular, which will be sent to business men and others who may not heretofore have taken any deep interest in politics:

"The campaign of 1896, which promises to be one of the most momentous in the history of the nation, has begun. Upon one side is the party advocating the maintenance of a sound-money system, which will enable every dollar to be of equal purchasing value; opposed to it is a union of the forces eager for the free-coinage of silver at the ratio of 16 to 1.

"A mutual consideration for the interests of us all demands that an effort be made to overcome the hosts which are threatening to destroy conditions necessary to commercial prosperity.

"The possibility of Bryan's election has caused an utter stagnation in the wool market, and the condition of our warehouses—crowded as they are with the products of Eastern Oregon flocks—is an eloquent argument for a return to the beneficent era of a protective tariff.

"With these suggestions in mind, you are asked by the executive committee of the McKinley Club to assist in the work of the present campaign. This is a time when patriotic considerations are above those of party. No matter what your political beliefs were four years ago, or what they will be four years hence, you are asked to join hands in the present contest."

There is an aggressive Republican sentiment in Wasco county, which will see to it that McKinley is given a handsome majority.

#### Will Not Be First.

If Mr. Parrot of Goldendale succeeds in making his airship navigable, he will not be the first, according to a dispatch from Victoria. A. W. Vowell, superintendent of Indian affairs for British Columbia at that place, received two reports from Robert Loring, his agent at Hazelton, near the head of the Skeena river, of the passing of a balloon over that far northern part on July 3d, the airship traveling north and being seen first during the day by an Indian boy and later in the early evening, when it displayed a light, by a party of prospectors under the guidance of Chief Ghail, of the Kitaploox. The balloon is evidently the same that passed over Winnipeg on July 1st, but whose it is and whence it came is yet an unfathomed mystery.
