THEY WANT M'KINLEY

Men Who Know What Democratic Rule Means.

THOUSAND POTTERIES' WORKMEN

Their Industry Crippled by the Wilson-Gorman Act—Republican Farmers Call. Too.

CANTON, Aug. 24.—A thousand workmen from 28 potteries in East Liverpool traveled 70 miles to call on Major McKinley today. This glazed-ware industry has been established in America since McKinley was sent to congress from this district 20 years ago. Chairman W. L. Smith, Colonel J. N. Taylor and W. B. Blake headed the delegation. When they reached McKinley's home there were 3000 cheering people in the crowd. Blake said:

"Under the Wilson-Gorman compromise, which opened up the floodgates of our ports to foreign products, nine million dollars' worth of crockery have been imported. Every dollar's worth, or a large percentage of it, could have been made in America under our protective policy."

"Instead, our factories have been limp and helpless. Under these unhappy conditions artisans have been thrown out of employment, and had to put up with an inordinate amount of discomfort, being scarcely capable of keeping their heads above water. The potters want to see prosperous times again, and to this end will vote for sound money, a protective policy and William McKinley."

KNOX COUNTY FARMERS.

They Visit the Republican Nominee at His Home.

CANTON, Aug. 24.—At 1 o'clock seven carloads of Knox county farmers reached Canton by a special Pennsylvania train. A local farmer headed the parade with a load of new-mown hay. They were a sturdy looking set of men, and gave cheer after cheer as their chairman appeared on the step at the McKinley residence. H. D. Crichfield, of Mount Vernon, a son of a Knox county farmer, made a neat presentation.

McKinley's response was repeatedly interrupted with applause. He said the hardships of the American farmer came from too many competitors over the whole world. They also came from the fact that the farmers' best customers, the American workmen, had been largely out of work during the past three years. The Republican party could not dispose of its competitors, but it could help the American market for the farmer. The home market under protection consumed 95 per cent of the American agricultural products. He said the home market was the best market, and the factory was the farmers' best friend.

Prosperity had come to the farmers through the factories, and not through the mines. He said he had no fear of the farmers' vote. In 1892 they stood firmly and loyally against free trade. They would stand against free trade and free silver this year. To lower the standard of value would not give the farmer any actual gain, but a panic of free trade and the free silver policy would add to the hardships of the last three years. He said free silver would not cure over-production of farm products or under consumption of the American people. Free silver would not close the wheat fields of Russia, India or Argentina. The farmer as well as the workman wanted his pay in an honest dollar.

TO STRAIGHTEN MATTERS.

Watson Offered a Cabinet Appointment for His Resignation.

ATLANTA, Ga., Aug. 24.—The Journal this afternoon will print a report to the effect that the purpose of Senator Tillman's recent mysterious visit to Thomas K. Watson, at the latter's home in Thompson, was to see if Watson could be induced to retire from the vice-presidential race, on the promise of a place in the Bryan cabinet. Watson declared that inasmuch as he had accepted the vice-presidential nomination in order to preserve the party organization, he could not surrender it in exchange for

any other office whatever. It is said that a similar offer is to be made to Sewall. In this connection it is to be noted as significant that Watson had been declaring with confidence, of late, that he would be on the Democratic ticket inside of two weeks.

CUBA MUST BE FREE.

So Says Gomez the Insurgent Commander.

NEW YORK, Aug. 24.—The Herald this morning published the following correspondence from Santa Ana, Cuba, under date of August 13th:

In speaking of the attitude of the United States toward Cuba and the possibility of President Cleveland recognizing the belligerency of the insurgents, General Gomez said:

"I have forbidden the discussion of the subject in my camp. For weeks men fairly held their breaths waiting word from Washington. It was a waste of time. Long ago I realized we must fight this war alone and unaided. We can win our independence while the executive of the United States is considering the question of our possible belligerency."

"I have no doubt of the sympathy of the American people as a whole. In fact, I have the best evidence of their good will. Many Americans are fighting in my ranks, and good, true men they are. The chief of our artillery is an American from Boston and no braver man lives."

"How long do you think the war will continue?" "I prefer not to appear in the guise of a prophet. I leave that to General Weyler," was the response.

"You are confident of success in the end?"

"As certain of it as I am that Cuba is an island, but I must fight the battle my own way. I know that we are called guerrillas; that some people marvel because we prefer to fight from ambush, but we are in this war to win. Ammunition is scarce and I think I know how to use it to advantage. Cuba is ours now. It is true the Spaniards hold most of the seaport cities and some of the interior towns, but in the latter they are getting very tired. We don't let them stop much, and now we will see that they do less. The city of Puerto Principe is hungry now; Guaraino is suffering and Victoria de las Tunis is nearly starved. Sabancu is abandoned. The cattle of Camaguey and Santiago de Cuba provinces are out of the reach of the Spaniards, and from this time forth there will be no more carrying of fruit and vegetables into the cities by pacificos. We will have no more pacificos. Every man on this island must be for Cuba or for Spain."

"I have requested the French coffee growers who did not care to take up arms for the common liberty to take a little vacation in France. Some have obeyed. It will not be for long. If they remain unmolested by my forces Spain will grow suspicious and destroy their estates as she has those of the Americans whom I tried to protect."

"Will there this coming fall any exceptions made in your order against grinding cane?" "Not one," replied the general. "Nothing will be tolerated which will yield revenue to Spain. Lack of money is Spain's weak point, and I am going to take advantage of it. I have no desire to destroy property, but Cuba must be free. But I will have no more of barter. Communication between the country and cities held by Spanish troops is now

cut off and will so remain. Their only hope of relief must come from convoys, and ever waiting for the enemy's convoys, are our ambuscades.

"All our fights are not from ambush, however," he continued. "The battle of Saratoga, which lasted four days and nights was anything but ambush. General Cattellano had more than 2000 men while we made the attack with a force of less than 600; not my old trained veterans, who I left in the West, but comparative recruits, hastily got together in Camaguey."

"The Spanish fired 55,000 rounds, according to their own reports. We fired about 12,000. There were nearly 300 graves, only 14 of which were Cubans, and yet, according to Havana reports, they always drive us out of our camps, kill many and capture a quantity of our ammunition. My men may not be possessed of superior marksmanship, but they fire at a hollow square or at a mass, while our lines, being so extended, permit most of the Spanish bullets to pass between us."

"They say we won't come out and fight," said General Gomez, with a laugh. "Why have they built a wire fence around the city of Puerto Principe if not to prevent our chasing them into their holes?"

No people suffer so much from physical disabilities as those whose business requires little or no muscular exertion. The lack of exercise causes the liver to become sluggish and the result is constant Constipation, Indigestion, Biliousness and Sick Headache. To prevent this take Simmons Liver Regulator; it keeps the liver active and makes one's condition as comfortable as those who have much exercise.
