NATIONAL REPUBLICAN TICKET.

For President, WILLIAM M'KINLEY, Ohio. For Vice-President, GARRET A. HOBART, New Jersey. For Presidential Electors, T. T. GEEB, Marion County; S. M. YORAN, Lane; E. L. SMITH, Wasco; J. F. CAPLES, Multnomah.

THE COMMERCIAL AND COINAGE VALUES.

Prior to 1800 the relative values of gold and silver had varied at different times and places from 2 to 1 in India at the time of Alexander's invasion, to 16 to 1 in 1793 throughout the commercial nations of Europe. From 1545 to 1560 the average ratio in Europe was 11.30 to 1. About 1600 it had changed to 12.25 to 1 and 60 years later was about 15 to 1. According to Garbett, an English refiner, the bullion value of the two metals varied from 1783 to 1793 19 1/2 per cent. In 1793 the commercial ratio was 15 to 1. In 1800 the price of silver had depreciated until the ratio was 15.68; eight years later it was 16.08; in 1813, 16.25; from this time on the price of silver rose gradually until in 1833 it was within a small fraction of 16 to 1 and in 1837 it had further risen to 15.9883 to 1; in 1870, the time the act of 1873 was first introduced the price of silver was \$1.328 per ounce and its ratio to gold was 15.57. During all these years since 1837 it should be borne in mind the coinage ratio was 15.9883. During one year, 1843, the price rose suddenly from \$1.303 to \$1.927, the highest price since the organization of the government. But a year later it fell to \$1.304. The foregoing figures are taken from tables of Sottbeer, Pixley and Abell.

The world's product of gold and silver, as far as we are able to give it, during the years mentioned is as follows:

Year	Gold	Silver
1792-1834	\$14,000,000	Insignificant
1834-1844	7,500,000	250,000
1844	30,000,000	16,000,000
1872	35,000,000	30,000,000
1873	35,000,000	37,000,000

From 1873 to 1892 inclusive, the average annual gold product of the world has been \$35,000,000 while the average annual silver product, commercial value, has been \$49,650,000. The coinage value of the average annual product during this same time has been \$120,000,000. The contention is made that the act of 1873 has been the cause of the depreciation of silver, and to undo the act of 1873 will restore silver dollars of 41 1/2 grains to a parity with gold. The total world's product of silver from 1792 to 1873 was \$154,150,000, while the world's product during the 5 years, 1873 to 1878, was \$213,350,000.

These figures which are taken from the statistics of the U. S. mint, show, if they show anything, that the act of 1873 was a blessing to this nation instead of a crime; that the commer-

cial value of the two metals must govern the legal ratios, and legislation cannot overcome the enormous proportionate increase in the silver product.

Special Agent Dixon is parading through the Oregonian Mr. J. H. Sherar of this county, one of the most substantial law-abiding citizens in the state of Oregon, as a violator of the law and a man who disregards his word. Mr. Sherar is not the kind of a man this Dixon represents him to be. Mr. Dixon has not found Mr. Sherar's herders on the reserve and has never ordered them off. It would be a great satisfaction to the people of Eastern Oregon if Mr. Dixon would demonstrate that the sheep men are violating the law or injuring the government, and quit advertising himself in the papers.

The Democratic papers are claiming that the act of congress under which the sheep men are being excluded from the Cascade mountains was enacted under a Republican administration. The act referred to was an act concerning the repeal of the timber culture law, and the last clause provides that the president may set apart public lands as forest reservations. The law passed March 3, 1891. Mr. Harrison continued in office until March 4, 1893, but the Cascade timber reserve nonsense was never thought of until Cleveland came into office and made his proclamation of September 8, 1893. The Republican party disclaims any responsibility for this or other attacks upon the sheep industry.

Mr. Bryan's Columbus speech is in effect: "We all want more money. Open the mints to silver at 16 to 1 and silver will be coined in enormous quantities, so that we can all have some. How will we get it into circulation? Why, just as we get gold into circulation, pay our obligations and buy what we need." Does he believe his listeners are being fooled by this clap trap?

On most questions the opinion of Judge Geo. H. Williams is pretty sound, but he too has joined the gold bugs and is advocating the election of McKinley. In fact nearly all the careful thinking men of the nation have done likewise.

If Maine will speak next Tuesday as positively as Vermont did yesterday the Boston wool buyers will return to Oregon and commence to do business at the old stand, for McKinley's election will be pretty well asured.
