

**UNTOLD MISERY
FROM
RHEUMATISM**
C. H. King, Water Valley, Miss., cured by
Ayer's Sarsaparilla

"For five years, I suffered untold misery from muscular rheumatism. I tried every known remedy, consulted the best physicians, visited Hot Springs, Ark., three times, spending \$1000 there, besides doctors' bills; but could obtain only temporary relief. My flesh was wasted away so that I weighed only ninety-three pounds; my left arm and leg were drawn out of shape, the muscles

being twisted up in knots. I was unable to dress myself, except with assistance, and could only hobble about by using a cane. I had no appetite, and was assured, by the doctors, that I could not live. The pains, at times, were so awful, that I could procure relief only by means of hypodermic injections of morphine. I had my limbs bandaged in clay, in sulphur, in poultices; but these gave only temporary relief. After trying everything, and suffering the most awful tortures, I began to take Ayer's Sarsaparilla. Inside of two months, I was able to walk without a cane. In three months, my limbs began to strengthen, and in the course of a year, I was cured. My weight has increased to 165 pounds, and I am now able to do my full day's work as a railroad blacksmith."

The McCoy Creek Mines.

Mr. John McCoy, who returned last week from the mines that bear his name, in the Cascade mountains in Skamania county, Wash., informs the Hood River Glacier that the members of the Mazama mining company will not return to the mines to work this season. They got to the mines too late in the season to accomplish much this year, but hope to get a better start and be better prepared for work next spring. About 100 men from different sections of the country visited the mines during the short time the Mazamas were at work. Some of them were old prospectors and were convinced that the company had a good prospect of striking it rich. The creek above and below them has been prospected and claims located. The company had considerable work to do this season, in the way of building cabins and sluice boxes and flumes, that they will not have to do next year and they expect that with two months' hard work they can make a clean up that will pay them well for all their labor.

None But Ayer's at the World's Fair.

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed on exhibit at the world's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the world's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."
