

THE MAINE ELECTION

Republicans Expect Over 30,000 Majority.

LARGEST IN A PRESIDENTIAL YEAR

Sound-Money Canvass Conducted Under Most Favorable Circumstances—The List of Candidates.

AUGUSTA, Me., Sept. 13.—If the weather is fair tomorrow, Hon. Llewellyn Powers, Republican, will be elected governor of Maine by over 30,000 majority, with a strong possibility that the figures will be nearer 40,000.

Chairman Manley, of the Republican state committee, believes that the figures will be the largest ever given in a presidential year, and his Democratic opponents practically agree with him.

The Republican canvass has been conducted under the more favorable circumstances. Maine has never heard so many distinguished Republican orators as during the past few weeks.

THE SILVER BARON'S STAKE.

List of Mine Owners to Whom Bryan's Election Means Millions.

The supporters of Mr. Bryan have undertaken to array "the masses against

ROYAL BAKING POWDER Absolutely Pure.

the classes" in this contest and to that end have held up the millionaires as supporters of McKinley and Hobart.

The Republican congressional campaign committee has given out a statement showing the part played by the owners of the silver mines of the country in shaping the course of the recent conventions which have declared for the free and unlimited coinage of silver at sixteen to one.

Table listing names and amounts of silver mine owners, including Hearst estate, John Mackay, J. B. Higgins, etc.

After criticism of some of the wealthy men who are working for free coinage the statement charges that William J. Bryan has for years been paid to deliver silver orations, and concludes:

"To the silver mine owners the election of Bryan and of a free silver Democratic house means millions. Placing the product of their mines 54,000,000 ounces a year, though it would soon be 100,000,000 ounces, and the government paying them at the rate of 31.29 an ounce, and granting, for the sake of argument, that it cost them sixty-eight cents an ounce to mine it, the people of the United States would pay into the pockets of the silver miners \$41,000,000 per annum, and make gigantic monopolies in their platform. This is an unduly conservative estimate of the profits of the silver barons; the actual figures would more likely be \$75,000,000 per annum. It will be thus seen at a glance what is involved in the election of Mr. Bryan, not counting the evils that would flow from the retirement of upward of \$600,000,000 of gold upon which the credit of the nation is founded.

The silver movement is a conspiracy, and those behind it are the most desperate and unscrupulous men who have yet become foremost in American affairs.

This Fellow Wants to Bet.

John Eagan, of Indianapolis, has signed and sent to the Cincinnati Commercial Gazette the following order: "I am (and have been for forty years) a Democrat, but will now bet \$20,000 to \$10,000 that McKinley will get everyone of the northern and western states. I will bet \$20,000 to \$10,000 that McKinley will be elected, and I will make a bet of \$5,000 that Bryan won't get as large a vote as Greely. These will hold good until October 1st."

Recognized His Better Half.

An old man down in Sherman county would not believe he could hear his wife talk a distance of ten miles by telephone. His better half was in Moro during the recent thunder shower, where there was a telephone, and the skeptic was at Grass Valley, where there was a similar instrument, and on being told how to operate the thing he walked boldly up and shouted, "Hello, Jane!" At that instant lightning struck the telephone wire and knocked the old gent down, and as he scrambled to his feet he excitedly cried, "That's Jane, all right!"—Antelope Herald.

Reduction in Railroad Fares.

As there will be numerous requests for reduced rates on account of political meetings during the coming contest, it has been decided that in order to treat all parties alike, a one fare rate will be made by the O. E. & N. Co. for various meetings of this character.

This of course is intended only for occasions where there is sufficient number to justify a reduction in rates. This is done so that there will be no partiality in favor of any one party.
