Never was a more grievous wrong done to the farmers of our country than that so unjustly inflicted during the past three years upon the wool growers. Although among our most useful citizens, their interests have been practically destroyed. —McKinley's letter of acceptance.

BRYAN'S ABSURDITY.

At New London, Conn., Bryan yesterday ran across a Yankee who punctured his soap bubble as neatly as it has ever been done. One of his auditors inquired:

"Where will we be when we get free silver?"

Bryan—Are you in favor of a gold standard?

Auditor—I am.

Bryan—Tell me why?

Auditor—Because I believe it is the best for the country. Every nation will accept a gold dollar for a dollar.

Bryan—Why, I will tell you. Because of its value. The reason the gold dollar and bullion are worth the same is because the law says you can convert the bullion into a dollar at the mint.

Now apply Bryan's answer to 412½ grains of copper, iron or aluminum, or all of these metals, and then would the world be rich indeed. If you can make 412½ grains of silver, now worth 53 cents, worth 100 cents, then can you make 412½ grains of copper, now worth less than two cents, worth one dollar. If we can do it with one, then can we with all.

The whole argument reduces itself to an absurdity.

Horse Nonsense.

"I don't think I am really any cheaper than I used to be," argued the horse. "I am worth just as much as I ever was. The bicycle has appreciated. That's all."—Chicago Tribune.

Let farmers remember that a 200 cent dollar is just as valuable in their hands as it is in the hands of the wage earner.
