NO 233

SAVED THE GROUND

Portland's Fire Department on Exhibition.

A FREE SHOW ON THE EAST SIDE

Yesterday's Fire Burned Itself Out--The Chief and His Men Rattled--An Engine Disabled.

Says today's Oregonian:

Had every engine, truck and hose, with every man connected with the department, remained quietly in their respective houses yesterday morning, the fire on the East Side could not have burned any further than it did. The fire department was entirely impotent. Chief DeBoest was in command, and it was his first fire since being promoted to the place of a fireman, and he made a dismal failure of it. He clearly showed that he possessed no command over men, and while he stood helpless, the "Jim-Crow" members of the department took orders from ex-Chief Thomas A. Jordan and Joseph Buchtel, and ex-District Engineer Charles Doublebower. There were men there wearing the badge of the fire department who did not even know how to couple a length of hose, wasting their time in trying to joint "he" butts, and so thoroughly ignorant as not to comprehend that a reversal of a hose length was only necessary. After the waste of fully 20 minutes, water was finally secured by hose No. 2, through a long stretch of pipe, but by that time, the puny stream had little effect on the raging flames. At the sand dock, there were two inclines, from where a full supply of water from the river could have been got. At the foot of Belmont street, there is an easy roadway to the river edge, and at the foot of East Alder street there is also abundant means to secure water, but not one of these sources of supply was used. Engine No. 1 lost a great deal of time, the new crew being so entirely bewildered that the men had no idea of what was to be done or how to do it. Engine No. 4 was "plugged" at the start, that is, the engineer turned the water in from the hydrant, started up his engine, but failed to open the discharge gate, and consequently the engine was filled with water. If it had been carrying any great head of steam, the engine would have been blown to atoms.

Engine No. 7, on the East side, did not get to the fire. When the alarm sounded the horses rushed to their places at the pole, and the harness snapped on. Then the driver and other members went out on the street to look at the fire. While so engaged, the intelligent horses, who knew that duty called them better than the green men, grew so restive that they started to go to the fire on their own account, and in doing so snapped the tongue of the engine, and so disabled it. Chemical No. 3 met with a similar accident, and will have to go to the repair shop.

The fire was the worst managed of any in the history of Portland.

The following are the losses sustained by the owners of the property destroyed by the unchecked fire, and on which there was not a dollar's worth of insurance:

Portland ventilated barrel factory	\$ 6,000
Dock on which factory stood, owned by E. Shannon	1,500
Dock of Russell, Macleod & Blyth	2,500
Two engines and 12 coaches and flat cars of Portland Consolidated Railroad Company	10,000
Shacks and other property	500
Total loss	\$20,500

A Railway Accident.

OTTUMWA, Ia., Oct. 3.—The special car of Superintendent Levy, of the Burlington, with a number of officials on board, was overturned in the wreck at Krum this morning. None of the officials were badly hurt. Harry Moore, a flagman, was killed. The wreck was caused by a passenger train backing from a sidetrack into a freight.

Grand Jury to Investigate.

LEADVILLE, Oct. 3.—Judge Owens today impaneled the grand jury to investigate the killing of six men at the Coronado and Emmett mines on September 21, particularly Fireman O'Keefe. An effort has been made to secure jurymen

not connected with mining interests. Max Boehmer, merchant, is foreman. Judge Owens appointed A. Dickson as special prosecutor, and Coroner Nelson in charge of the jury. Dickson will be assisted by Assistant Attorney General Thorne, who has been sent to Leadville by Governor McIntyre. Judge Owens, in his charge strongly denounced the crimes they were called upon to investigate, and urged them to sift the matter to the bottom.

Depew Will Marry \$3,000,000.

NEW YORK, Oct. 3.—The World this morning says:

The engagement of Miss Edith Collins and Chancey M. Depew is now practically acknowledged by their friends. The wedding may be looked for in November. It will be celebrated at St. Bartholomew's church. An intimate friend of Miss Collins received a letter from her yesterday. She is now in Russia, but will reach New York the latter part of October. Miss Collins is a beautiful young woman, has a fortune of \$3,000,000, and is a granddaughter of Commodore Vanderbilt.

Will Not Support Bryan.

DALLAS, Texas, Oct. 3.—Judge Woods, the Populist elector at large, and M. M. Williams, elector of the Tenth district, made public the announcement that they will not support Bryan for president. The Watson feeling is intense.

HOW WILL YOU VOTE?

The Lines of Division Between the Parties.

HONESTY.

Everybody who wants cheap money—that is, money which is loaned at low rates of interest—should vote for the party which is pledged to maintain the present standard of value under which our stock of money has increased and interest rates have steadily declined during the past 23 years.

Everybody who wants a stable measure of values which will be just to both debtors and creditors and will best serve as a medium of exchange should vote for the gold standard, which the experience of all countries has shown to be better than silver.

Everybody who wants the country to be prosperous, confidence restored, capital abundant and banks willing and able to make loans should vote with the men who stand for honest money and a stable financial system.

Everybody who knows that congress cannot create a dollar's worth of property and that if the government makes some money, rich by law it takes the wealth it gives them from some other men should vote for the party which is opposed to the idea that the government's fiat makes money valuable.

Everybody who believes in common, everyday honesty and in the obligation of debtors to return as good money as they borrowed must of necessity vote this year against the party of repudiation.

It May Do as Much for You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called kidney cures but without any good result. About a year ago he began to use Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price 50c and \$1.00. At Blakeley & Houghton's Drug Store.

None But Ayer's at the World's Fair.

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed on exhibit at the world's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the world's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."
