

THE BEST FAMILY MEDICINE

She Has Ever Known. Words of Praise from a New York Lady for **AYER'S PILLS**

"I would like to add my testimony to that of others who have used Ayer's Pills, and to say that I have taken them for many years, and always derived the best results from their use. For stomach and liver troubles, and for the cure of headache caused by these derangements, Ayer's Pills cannot be equalled."

When my friends ask me what is the best remedy for disorders of the stomach, liver, or bowels, my invariable answer is, Ayer's Pills. Taken in season, they will break up a cold, prevent la grippe, check fever, and regulate the digestive organs. They are easy to take, and are, indeed, the best all-round family medicine I have ever known."

AN IMPORTANT MEETING.

Continued from third page. \$433.62, warrants redeemed, \$898.61, leaving a cash balance of \$8,000.01. The following bills were then allowed: Chas F Lauer, marshal salary, \$75 00 Geo Brown, engineer, 75 00 J J Wiley, night watchman, 60 00 C J Crandall, treasurer, 20 00 G W Phelps, recorder, 50 00 J T Peters, wood, 7 50 Dalles Lumbering Co, lumber, 1 45 Maier & Benton, mds, 2 04 Dalles City Water Works, water rent for September, 32 00 C V Champlin, labor streets, 1 02 Dalles El Lt Co, lighting offices and fire dept, 13 10 Oaks & Stringer, hauling, 1 25 M T Nolan, mds, 1 00 Mays & Crowe, mds, 1 05 Pickings & Burgraf, meals to prisoners, 13 35 Columbia hotel, meals of prisoners, 3 35 J Staniela, labor streets, 2 80 James Like, labor streets, 14 80 Nolan called attention to the deprecation of cows, and after some comment, the marshal was instructed to enforce the ordinance, and to employ help if necessary, the imposing fees to reimburse the assistant so employed. Marshal Lauer reported another list of defective sidewalks, which went through the usual course looking to their immediate repair. Engineer Brown requested some supplies for the engine house. There was some suction hose needed for the Jackson engine, some torches, lanterns and axes; a new chimney should also be built in the engine house. Referred to fire and water committee, with power to act. The mayor said that some property owners on residence streets desired to replace the old wooden sidewalks with a four-foot asphalt walk, with two feet of gravel or cinders on each side, and desired favorable legislation by ordinance permitting them to construct such a walk. No action, but council was favorable. Nolan moved that gravel be placed at the corners by crosswalks. Carried. Adjourned.

The Cow Ordinance to Be Enforced.

The marshal informs us that the cow ordinance will be strictly enforced from today. Owners of all cows who have been in the habit of allowing them to roam about the streets will act the part of wisdom by hereafter keeping them confined. The loose cows have been a source of great annoyance all summer. There is one that has run after children several times. Many of them can open a gate as quickly as the owner and often injure gardens, lawns and trees. The increasing duties of the marshal, especially since the office of street commissioner has merged into it, has rendered it impossible for that official to run down and impound cows. Saturday night, therefore, the council took suitable action in giving the marshal authority to hire an assistant to do this work, the fees to pay for the service.

Mrs. Turner's Body.

The body found in the river Saturday proved to be that of Mrs. Turner. The fisherman who discovered it floating took it for a sturgeon, but rowing to it found it was a human body. He was unwilling to secure it then, but going to Hood River told Mr. Winans, and both returned for it. It was fastened with a rope and the coroner summoned. The water had preserved the body very well, and but for the face being bloated looked very natural. The clothes, shoes and stockings showed no evidences of wear, except the sleeves of the dress, which were missing. The arms were spread widely apart. A coffin was taken to the riverside and the body placed therein and taken to The Dalles. The deceased was buried yesterday morning adjoining the grave of Mrs. Whittaker.

The Discovery Saved His Life.

Mr. G. Cailloutte, Druggist, Bearersville, Ill. says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at Blakeley & Houghton's Drug Store. A PLAIN TALK TO WORKINGMEN.

The A B C of the Silver Question.

Let us not get mixed up with complex matters in connection with the free silver idea.

Let us not befog our brain with arguments about the crime of 1873 or bother with the many theories which the advocates of free silver are giving us.

But let us take a common sense view of the situation. Now, to start with: Suppose Bryan was elected and the free coinage act had been passed and that free coinage was an actual fact.

Suppose that silver could be taken to the mint and coined into silver dollars at the ratio of 16 to 1.

How would that affect us? We haven't got any silver bullion.

A whole lot of people who own silver mines have it, and so they could have it coined into 16 to 1 dollars, but not having any ourselves we could not have a solitary, single dollar coined under the free silver act.

Now, suppose, however, that all the silver mine owners and others who had silver took it all to Washington or Philadelphia or to some other United States mint and had it coined into 16 to 1 dollars, and

Suppose so much had been coined that all the silver in the world was made into 16 to 1 dollars, and

Suppose that every one of these dollars was piled in one heap right on the next block, and

Suppose every single one of them was worth 100 cents here and everywhere.

What good would they do us unless we had something we could trade by which we could get one?

Well, we have something to trade; everybody has. Some have labor, so much for a dollar. Some have lumber, so much, for a dollar.

Some have sugar or potatoes or hams or coal or something else, all so much for a dollar.

We have advertising and subscriptions, so much for a dollar.

When we want one of those silver dollars, we cannot go and take it. They don't belong to us. They belong to the men who took the silver to the mint to be coined.

If we took one, it would be stealing. If we asked for one for nothing, it would be begging.

If the owners gave us one for nothing, it would be a gift.

If we borrowed one, it would cost us interest, and so

Most of us, to get one, must trade labor, lumber, sugar, coal, advertising or something to get it.

This is absolutely and honestly so, isn't it?

Well, being so, why do we take any chances on the dollar?

We can get gold now. It is worth 100 cents on a dollar everywhere.

So we have supposed the silver to be, but

Suppose it isn't. What then?

What is the use of taking a chance unless we can do better? A silver dollar won't be worth more than 100 cents, will it?

We are getting that now. Let well enough alone.

Some say duty compels a Democrat to back up and vote for a Democrat. You have Bryan's word that he is no Democrat. Let him deny that he said it.

Some say it is pretty bad now. We might as well take a chance. It can't be worse.

What kind of tomfoolery is this? Are things bad in a business way? Let us tell you something to try.

Vote down this crowd of repudiators. Tell the world in trumpet tones in November that we want the best money, that we will take no other, and business will revive.

Let the capital out that Bryan and his followers have scared under cover, and prosperity will come.—Lumber Trade Journal.
