Ambassador Bayard Deserts the Bryan Standard.

WILL WORK AND VOTE FOR PALMER

Cautions True Democrats Against Voting the Bryan Ticket—Gives Reasons for His Course.

WILMINGTON, Del., Oct. 12.—In a letter to Samuel Bancroft, Jr., editor of the Every Evening, Thomas F. Bayard, ambassador to Great Britain, has repudiated the platform and nominees of the Democratic national convention, and advises constitutional Democrats to vote for Palmer and Buckner. The latter is in part as follows:

"It seems scarcely possible that any one could be in doubt in relation to my personal opinion upon the serious issue now placed before our countrymen by the machinery of several political organizations. When a citizen, professing himself to be a Democrat is called upon by many or by few to yield his convictions and assent to a doctrine that congress has the power and can rightfully exercise it by its legislative fiat, to create values and regardless of their intrinsic commercial value invest one or the other of the earth's metals with arbitrary power as money and override and alter at legislative will or caprice the ratio of exchange or ability of such metal, regardless of the impairment of obligation contracts, his answer should be that such a claim of power is not consistent with the government's limited powers as defined by our constitution, but contains the quintessence of tyranny, dishonesty and absolutism and is destructive of that morality which is essential to the peace and stability of civilized society. It is, in plain words, a proposition to destroy the institution of property and break down every legal defense for its protection.

"This one question and its answer sufficiently justifies the prompt and absolute refusal of the constitutional Democrat to support in any degree the nominees of the Chicago convention and the preposterous claims of legislative power contained in their platform, under which the credit of the nation and the peace and order of society would inevitably perish.

"On the other hand, we have a Republican organization whose measures and whose leaders have steadily created such a ticket and such propositions as were presented at Chicago. While compelled to recoil from a policy favoring the compulsory purchase and coinage of silver as unlimited legal tender yet it is insistently proposed to employ and intensify the profound powers of public taxation, to prohibit commerce with other countries and thereby prevent revenue from coming into the public treasury, and to levy taxes which shall prevent the payment and collection of other taxes necessary for the support of the government, whose powers are directed personally upon each individual citizen and over every part of land or water within the national boundaries.

"Every constitutional Democrat can truly reply to such propositions that they are fraught with such gross illegality between man and man as to be inconsistent with public safety because they employ the most far-reaching and sovereign power known to the government to impoverish the working and poorer members of society, who form the great American majority, and to aggrandize those already financially stronger. Every man, faithful to the principles of his party, can properly refuse to aid in the election of candidates avowing the principles and policies that have so plainly led to our present dangers, and which are manifestly fatal to

the welfare of our country.

"But, happily, there remains a citadel and an asylum for the political conscience of any man who is honestly convinced that the path of duty leads him to keep steadily in view the great purposes for which our fathers ordained the constitution for the formation of a more perfect union, the insurance of domestic tranquility, provision for common defense, promotion of the welfare and security of liberty of ourselves and our country. Happily the candidates are presented upon a clear and unambiguous platform that assures safety to the financier, honor of our country and to the honest business transactions of all its citizens without discrimination as to race, age, sex, occupation or fortune. The personal reputations of the candidates of the national constitutional Democracy, Palmer and Buckner, are unsullied, and guarantees their fidelity to their pledges, and their election would go far to re-establish the national health of our country."

### SUCCESS IS CERTAIN.

The Election of McKinley Is Already Assured.

NEW YORK, Oct. 12.—At the national Republican headquarters today, after a conference of the entire executive committee, the following was given out:

"The election of McKinley and Hobart is an accomplished and assured fact. They will receive 270 electoral votes, Bryan will receive 110, and there are six states, having 67 electoral votes, which are doubtful, but the probabilities at present point to the fact that these 67 will go into the Republican column and be added to the 270 now assured for McKinley and Hobart. This is the status today. We have the election, and will hold it. The opposition has abandoned the East. M. S. QUAY."

### Why Does Not Mr. Bryan Answer?

Mr. Bryan tells the farmers that free coinage of silver will give them cheap dollars with which to pay their debts.

Mr. Bryan tells city workmen that free coinage of silver will raise the metal to \$1.29 per ounce, bringing the silver dollar to par with the gold dollar, thus giving city workmen another dollar as good as the present one with which to buy the farmers' products.

That is to say, to the farmer the Bryan silver dollar is to be a cheap dollar to pay debts with. To city labor the Bryan dollar is to be a dollar of high purchasing power to buy with.

Free coinage of silver cannot produce these two dollars. It can produce only one of the two. Why do not would be supporters of Mr. Bryan ask him which dollar he really means? Both the farmer, who wants to pay debts, and the workman, who must buy farm produce, are interested in having this question answered.—Chicago Times-Herald.

### One Unsettled Point.

An old man who bore evidence of more work than culture approached a representative of a free silver paper the other day in the state library.

"Can I ask you a question?"

"Certainly."

"Well, if we have free silver coinage, we'll all have more money, won't we?"

"Why, yes, certainly. That's easy to answer."

"Well, what I want to know," said the old fellow earnestly, "is whether they will bring it to me or whether I'll have to go after it."—Nebraska State Journal.

If Thirty Pounds of Wheat Made a Bushel, would you have any more wheat, or could you buy any more food, clothes or implements with the proceeds of your crop than you do now?

If 50 cents were a dollar, would your crops bring you any more of the things that you need than you get now?
