THE BEST ADVISER.

If a man who had never given much attention to farming was to commence business as a farmer his neighbors would pronounce him a fool should he go for instruction to a farmer whose business was conducted in a slipshod manner; whose fences were all out of repair; whose buildings were dilapidated; whose implements were scattered; whose crops were never properly planted, or were never harvested at the right season. Common sense would teach the learner that such a farmer was a poor counselor.

But when it comes to settling a question of finance—a question which may affect the history of the nation for years, we are quite apt to listen to the man who has never been able to manage his own business so as to meet the debts he has contracted. How many men are there today in this and other states who are standing upon the streets preaching free silver who are now incapable of paying their debts and who, during their entire lives, have never had a bunk account or drawn a check? Their own business has been neglected, as business managers they are confessedly failures, and yet when it comes to a matter of national financing they pose as advisers. The men who have trained themselves to careful business habits, whose minds have been directed especially to careful business methods, and who consequently have accumulated something for themselves and their families, are denounced as plutocrats and gold bugs, as the leeches of society. If they chance to offer advice as to what is the wisest business course to pursue, they are declared to be the enemies of the laboring man, seeking to press upon labor a crown of thorns.

What is the distinction between the farmer who never succeeded in farming as a teacher of farming, and the man who never had business ability to provide means to pay his honest debts as a teacher of finance?

The Dalles has a good public school system, and hence its schools are growing in usefulness. Our city is growing, but we think the growth of the city does not account entirely for the large attendance of scholars.

Wheat goes up. Why? Because there is a shortage in the crop in

Russia. Silver continues to go down. Why? Because the holders of bullion do not believe Bryan is going to be elected or that there is to be any immediate change in the laws respecting the coinage of silver, and because the supply continues very large.

The Bryanites claim that Bryan's election is sure. There are no sporting men in their ranks or there would be a vast amount of betting. Possibly it is the lack of confidence more than piety which keeps their funds in their pockets.

In 1892 the Chicago Herald said: "Vote for Cleveland and \$1.25 for wheat." Now the same party is saying: "Vote for Bryan and \$1 for wheat." We are just as likely to see the latter promise fulfilled as we did the former.

The Colored Brother's Prayer.

The following prayer is said to have been actually delivered by an aged colored minister in Virginia a few days ago.

"O Lord, save this country from the hands of them who are trying to bust it up. Give us plenty of work and good money for it, so we can take care of our wives and children, and buy good bread and meat and pay for it. We want to keep politics out of churches and out of our prayer meetings, but we can't help asking thee to keep a lookout for that poor miserable sinner, Bryan, who we hear is coming into the state hand in hand with Satan. We ask thee don't let him do no harm, and, if it ain't asking too much, please forgive his sins that he is committing every day, and then knock the stuff out of him next November."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. Electric Bitters. Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, Indigestion, Constipation, Dizziness yield to Electric Bitters. 50c and \$1 per bottle at Blakeley & Houghton's drug store.
