Farmers Want Cheap Money.

The advocates of free coinage in the west and south "don't take any stock" in Bryan's occasional assertion that he "contends" that the adoption of this policy would put up the price of silver to \$1.29. Indeed they would lose all interest in the agitation if they supposed that the silver dollar under free coinage was to be worth as much as the gold dollar is now. The real sentiments of these people are clearly expressed by James Kitchen, an extensive farmer and stockman of Grayson, Ky., who, when asked the other day why he was for free silver, made this reply:

I am for free silver because I am in debt, and if we got free coinage I can pay my debts with one-half of what it now costs under our present money standard. And another reason, I employ laborers on my farm. They are the creditors. I am the debtor. Under free coinage I can pay them with one-half it costs now, for it will raise the price of products, and I can then hire my farm help for 50 cents a day and pay them in bacon at 15 cents a pound.

It must become more and more plain, as the campaign proceeds, that this is the motive and must be the result of the free coinage agitation. The question at issue will thus finally resolve itself into the larger question, whether the American people still believe that honesty is the best policy.

The Pensioner's Dollar.

"You say you want a little about the old soldiers. Well, my friends, the crisis which is approaching now, appeals to the old soldier as much as it did in 1861. I am not afraid that any man who risked his life in his nation's behalf is going to be influenced by the arguments that are addressed to the soldiers now by the financiers." etc.—Mr. Bryant at Milwaukee, Sept. 5.

Not one word in answer to the question whether the purchasing power of the monthly pension payments to 970,000 pensioners would be reduced by the free coinage of 16 to 1 silver dollars. Not a word as to the effect upon pension payments hereafter of the "extermination" of the "800 cent dollar" because it is worth too much and buys too much.

We do not assume that veteran soldiers are thinking of nothing but pensions, but they should compel Mr. Bryan to say frankly what would be the effect of free coinage upon the pensioner's dollar.

Make him answer the question one way or the other.—Exchange.

An Object Lesson in Silver.

There is an American silver dollar. There are two Mexican dollars. There is more silver in each of them than in the American dollar. I bought both of them for that. What is the reason? The sole reason is that our dollar is a limited coinage, backed by gold. There is another coin. That is a French 5 franc piece. I paid 95 cents for that. It carries a little less silver than the American silver dollar. France and the United States are both gold standard countries. They keep in circulation a thousand millions of silver, and Mexico and China and Japan have not got one dollar of gold in circulation. The gold standard country can keep silver in circulation. The silver standard country can keep no gold. That is the example of every nation today. Gold all leaves the free coinage country. Gold and silver both circulate in the gold standard countries.—From a Speech by Senator Lodge.

Put This in Your Pipe!

If you are a farmer with an overdue mortgage or with one that must soon be renewed, beware of free coinage. It may get you into trouble. Dollars will be cheaper with free coinage, just as they now are in Mexico, but interest will surely be nearly double what it is now, or about equal to present rates in Mexico and other silver standard countries. Unless you are prepared to pay your mortgage at once, you should study this interest question before voting for cheap dollars.

The Dollar of the Constitution.

Mr. John Fiske, in his "Critical Period in American History," describing the widespread distress caused by the "cheap money" in circulation just after the Revolution, said: "The worst features of this financial device is that it not only impoverishes people, but beclouds their brains by creating a false and fleeting show of prosperity. * * * In such a crisis the poorest people, those who earn their bread by the sweat of their brows and have no margin of accumulated capital, always suffer the most. Above all men it is the laboring man who needs sound money and stable values."

"We must do something for silver," say the cheap dollarites. Why? The value of the annual production of eggs in the United States is twice as large as that of our silver bullion. Yet nobody claims that eggs should be made a legal tender for debts.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:
