THE WHEAT MARKET

A Phenomenal Advance Oyer Saturday.

GRAIN IS SHIPPED TO INDIA

Two Steamers Loaded and Sailing Vessels Being Sought--The New York Sales.

CHICAGO, Oct. 17.—The semi-excited state of the wheat market, as yesterday's session was coming to a close was increased this morning to a fairly good specimen of general alarm. That fear was well grounded as it turned out. There was not a single bushel to be had for less than 1 3/8c advance on yesterday's closing price, and very little under 74c, or 1 3/8c higher than it closed at yesterday, for December delivery. The reason for such a sudden and material rise, following the big jump of the previous day, stuck clear out from the official bulletin boards. Foreign markets led in the scramble, just as they did on the day before.

A public dispatch from Liverpool quoted an advance there over night of 2 1/2 pence per cental, which is equivalent to three cents per bushel. Private cablegrams reported Liverpool and London wheat excited at the advance already named at the former and at 7 1/4d per quarter at the latter place. New York wired that foreigners were active buyers there and claimed that 175 boat loads—equal to 1,400,000 bushels—were taken there. With that for a starter the prices bid for December at the opening were from 73 1/2 to 74c, against 72 1/2 at the end of yesterday's session. The crowd had scarcely got accustomed to 74c wheat when further dispatches of an exciting character started them again and the price rose to 74 3/4c.

A San Francisco message said that two more steamer cargoes of wheat had been taken for India and that inquiries were being made for sailing vessels to take wheat to the same destination. The significance of the latter point in the dispatch was the indication it gave of an expected long continuance of Indian requirements.

On top of all that a private cablegram reported the Berlin market excited and five marks higher, that being an equivalent to 3 1/2c per bushel. It is no wonder that speculators scrambled for wheat. And they did. There were simply no bear needs of any kind and the only chance the anxious shorts had was when a speculator, satisfied with the profit in sight, put his line on the market. There was plenty of this done, but everything was grabbed and the price never stopped advancing until 76 1/2c had been scored, exactly four cents over yesterday's closing. Here realizing increased and was sufficient to break the price of December to 75 3/4c at the close.

Prices in New York.

NEW YORK, Oct. 17.—The bull campaign in wheat was marked today by another sensational advance in prices and a heavy trade.

The 'Frisco Market.

SAN FRANCISCO, Oct. 17.—At the closing session of the Produce Exchange call board today wheat had a gradual decline. In the local speculative market, the highest during the present excitement was reached when December wheat was sold at \$1.50 per cental, against 1.41 1/2 as the best price paid yesterday.

The Indian Famine.

LONDON, Oct. 17.—Famine in northern India which now appears to be inevitable, causes the greatest anxiety here and it is recognized that the import of American wheat is likely to be the prime factor of the situation. Prices in the affected districts have risen considerably, and California wheat en route is sold in advance at higher prices than native wheat, indicating a conviction that prices will have risen still higher by the time the imports arrive. The Indian government has already sketched out vast schemes for railroad, canal and other relief work.

SILVER WILL FALL.

Bayard's Letter Aired in England--Contention of the Silver Party.

LONDON, Oct. 17.—The Statistician points out that the position of silver is most unpleasant, though, it adds, "the price may be temporarily maintained. The opinion is growing that the silver party will not be successful in the American elections, consequently silver will not receive the support of United States purchasers and the Chinese demand is nil." Continuing the Statistician says:

"The threatened failure of the crops in India is serious matter for silver, as, with a scarcity of food, the natives are inclined to sell rather than buy ornaments. Hence the Indian demand may disappear for a considerable time. Thus it appears that a serious fall in the price of silver is probable unless the silver party gains power in America."

The letter of the United States ambassador here, Mr. Thomas F. Bayard, to Samuel Bancroft, Jr., of Wilmington, Delaware, advocating the Democratic support of Palmer and Buckner, which was published in the United States on Monday last and which was published in this country today, surprises the English who, while approving the sentiments expressed, think that Bayard has committed "fresh indiscretion."

The Daily Chronicle news placard reads: "Bayard denounces Bryan." and the Daily Telegraph says: "To English minds there is some incongruity in an ambassador taking an active part in political struggles."

The St. James Gazette remarks: "Mr. Bayard's letter is as sensible as all his utterances; but we fear it is too sensible for the great American nation and is not liable to please the mob or the wire pullers."

LOST HIS TEMPER.

A Spanish Editor Aroused by a Washington Dispatch.

MADRID, Oct. 18.—Commencing upon the statement contained in a dispatch from Washington that President Cleveland intends to intervene in Cuba in a manner tantamount to the recognition of the independence of the insurgents, the Imparcial declares that Spain ought to demand a full explanation of the Washington government.

"She cannot brook a threat over her head," continues the Imparcial, "even for a single day. By what right does the United States define the time for Spain to settle a question of her internal administration? It must be affirmed before the whole world that the American government cannot impose any sort of terms upon us."

After denouncing the United States' fictitious neutrality, the Imparcial concludes as follows:

"The conduct of the United States will arouse international indignation. If Spain should remain alone in a conflict with the United States, Spaniards, by their own efforts, will know how to mark the difference between the noble defenders of their own property and the vile traffickers at Washington."

Bryan's Rotten Egg Argument.

As a contribution to financial and economic thought the following utterance of Mr. Bryan, made in Kentucky, is the most remarkable yet offered even by him:

"If any man in this community would offer to buy all the eggs produced at 25 cents a dozen and was able to make good the offer, nobody would sell eggs for less, no matter what the cost of production, whether 1 cent or 5 cents a dozen. So with silver. Free coinage would establish the market price of silver at \$1.29, and nobody would sell it for a cent less."

Why limit the price of eggs to 25 cents and of silver to \$1.29? If the reasoning is sound, the price in each case might easily be doubled, and the consequent benefit to the human race correspondingly increased. And why stop with eggs and silver? Why not mark up the price of everything you wish to buy—offer to pay double or treble what is asked for it and keep on paying that price to all comers—hold it there? That's all you have to do—hold it there. "Nobody would sell it for a cent less," says Bryan, so long as you held it. "So with silver." And the man who is putting forth such thought as this is a candidate for the presidency of 70,000,000 of people in the closing years of the nineteenth century!

The Bargain Counter Candidate.

"Some of the reports say that the women went wild over Bryan at different places along his route," remarked the horse editor.

"That's natural," replied the snake editor. "He is the bargain counter candidate."

"How so?"

"He wants to mark the dollar down to 53 cents."—Pittsburg Chronicle-Telegraph.

Never was a more grievous wrong done the farmers of our country than that so unjustly inflicted during the past three years upon the wool growers. Although among our most useful citizens, their interests have been practically destroyed.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:
