### BRYAN AND ALTGELD.

Altgeld and Henry George spoke for government without federal interference at Cooper Union, New York, Friday evening. They talked about the four "blighting sisters in our land" which Altgeld designated as "federal interference, government by injunction, usurpation by the supreme court, and corruption." These, he declared, were allied with the gold standard in bringing ruin to our country.

Every man who votes for Bryan on November 3rd will vote to place at the head of our government a man who believes as Altgeld believes, that the punishment of bomb-throwers, car-burners and thugs is a crime; who believes that the United States government has no right to prevent any interference by a mob with its business, and that any armed body of men, in the name of a labor union, may dictate to the United States upon what terms its business shall be conducted. This is what Altgeld teaches, it is what the Chicago platform demands, and Bryan is in sympathy with both.

A man who claims that congress clothed the creditor with authority to refuse silver in case of a stipulation in the contract, is simply talking nonsense. As well might it be claimed that the sixth commandment made it a crime to murder. As the sixth commandment simply declared what was already an offense against both God and man, so congress, in the law of 1878, simply declared what was always the law, and what will, by the courts, always be declared to be the law, that where parties agree as to the kind of money in which a contract shall be paid, a judgment shall be given accordingly.

"The bankers caused the financial crash in 1893; now they are seeking to cause another." So say the great prophets of Popocracy. The banks were the first and greatest sufferers in 1893, as they are in every financial disturbance. Then come the manufacturers, merchants, laborers and producers in their turn. If Bryan could be elected every depositor who has funds in the bank, including our Populist friends, who have not already drawn out their funds, would draw out their deposits, and every

bank which is not prepared to pay gold or secure gold payment would be placed in the hands of a receiver, and every depositor would then be paid in depreciated silver. Every debtor who had property would be forced to pay, and a crash such as has never been known in this country, would follow. These are just the reasons why every banker, business man, manufacturer, and a majority of the farmers and laborers, are opposed to Bryan's election.

Do the farmers realize that the price of wheat has been put up by Lombard and Wall streets for the purpose of affecting the election in the United States? The way it was done was this: These plutocrats, who have their clutches upon the throats of the world, simply caused a drouth in India and some similar trouble in Russia, and the business was done. These robber barons have a cinch on the whole world, including the winds and rains, and can fix us whenever they please.

As the price of wheat goes up, so will the price of land ascend, and it will not be any cutting-our-dollar-in-two process either. If wheat remains high, as it in all probability will for a year or more, land will bring in gold dollars, what our Popocratic friends have been promising in silver dollars. Give us 75 cents per bushel for wheat and Bryanism will die a natural, but sudden, death. It will be a genuine case of heart failure.

The national debt, less cash in treasury, on July 1, 1889, was \$975,939,750.22; on July 1, 1893, it was \$838,969,475.75, a decrease during Mr. Harrison's administration of \$136,970,274.47. The average rate of decrease in the national debt from June 30, 1866, to July 1, 1893, the time when the Republican party was in a majority in congress, was \$70,389,713.70.

In anticipation of the election of McKinley there is a sharp advance in the price of wool in Boston. When Bryan was first nominated and there was some anticipation of his election, there was a very rapid advance in prices, but the movement was in the wrong direction.

Gold has suddenly depreciated; it will no longer buy twice as much wheat as it did in 1870. But "where is silver at?" It ought to buy as much wheat as it did in 1872, but it will not.

If large audiences would elect any candidate, Palmer and Buckner would stand a show of election. They are listened to at all points in the South by large and enthusiastic audiences.

### Cure for Headache.

As a remedy for all forms of Headache Electric Bitters has proved to be the very best. It effects a permanent cure and the most dreaded habitual sick headache yields to its influence.
