Ladies Committee on Reception.

The ladies committee on celebration of the opening of the locks have adopted the idea of having the reception committee composed only of those who have resided in The Dalles for a number of years. This committee will receive the visitors in the Umatilla House parlors he was shown into a room, which had Thursday evening and is composed of nothing in it but table, on which were the following ladies: Mrs. Wilson, Mesdames Thornbury, Sinnott, Myers, Marden, Gibbons, Brooks, J. A bundle of mountain mahogany sticks lying in front of the express office reminds us forcibly of old times down in Nevada. In the eastern part of the state this is about all that can be procured in many localities for fire wood. It is as hard as flint and holds fire like a government appropriation. Out at White Pine we were engaged at one time in baling hay. The corral was made of mahogany logs, and for lack of something better it was used to do our cooking with. One night Black Jack, the cook of the outfit, was lying asleep in The recent hot weather has caused him his bunk, his foot sticking out from be-tween the covers, and his big toe lying not impaired his health or happiness. temptingly an inch away from its neighbor. Charley Daly, who had been imbibing bug juice at a neighbor's to an unlimited extent, came in and saw Jack's toes. At the same time his drunken gaze fastened on a glowing mahogany coal. In a minute he had street. Thomas was but a stray kitten scooped up a hand full of ashes, placed then, so that his pedigree has never the live coal on top, and in less time been ascertained, and it is not known than it takes to relate it, had dropped the coal between Jack's gaping toes. Stands at the Head.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's by calling at my place and paying New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for Consumption, Coughs, and Colds. I cannot say enough for its merits." Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Free trial bottles at Blakeley & Houghton's drug store.

LIQUOR FROM GAS BURNERS.

Device of a Portland. Me., Hotel for Evading the Prohibition Law. Everybody who visits Maine has a different story to tell on his return of his experience in getting drinks, says the New York Sun. The champion story is, perhaps, told by a well-known traveling salesman. He says that when he asked for a drink at a Portland hotel. a pitcher of water and several tumblers and a few chairs.

Over the table was a chandelier, with apparently half a dozen gas burners. When the cocks were turned, however, not gas, but liquor came out of the burners, which were horizontal, on the tips being unscrewed. From one burner ceme whisky; from another, run; from another, gin. Each burners supply pipe connected with a cask of some one of these liquors in the room above.

The man who tells this story says that the indictment papers against the hotel in question for selling liquor would fill a bushel basket, but none of them will ever be brought to trial; at least, none has been yet. Since adopting this device, the hotel has evaded detection.

THE BIGGEST CAT.

It Is Thirty Inches Long and Weighs Twenty-Four Pounds.

Just plain "Tom" is the unpretending name of probably the greatest domestic cat in the world.

Edward Simmons, a fish and oyster dealer of New York, is the proud possessor of "Tom." This giant of cats is 30 inches in length, from his head to the tip of his tail. He is a foot high, and weighed last spring 24 pounds.

Thomas is black and white, and is rather peculiarly marked. He has two complete rings of white around his tail. which makes him look like first cousin to a raccoon.

Fasted Nearly Two Years.

Dr. Tanner's famous fast of 40 days is thrown into the background as a starvation feat by the performances of the big anaconda at the Philadelphia zoological gardens, which was only recently tempted to cat a nice fat rabibt after going hungry for 22 months. It may have been even longer, but the keepers have no record of the creature's doings previous to its captivity, and so can't tell. It is not very unusual for a snake to abstain from food for several months, at the end of which time death generally results; but the anaconda case is distinctly different from any other. Its fast lasted more than twice as long as any in the history of the "zoo," and during the whole of its conregularly for its meals.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilions fevers. No medicine will act more surely counteracting and freeing the system from the malarial poison.
