AMERICANS ATTACKED

Weyler's Butchers Slash an American Planter.

NINETEEN CUBAN WOMEN KILLED

Banks Resume Specie Payment—Wheat Still Goes Up on Account of Deficiencies.

Another American Maltreated by Weyler's Soldiers.

KEY WEST, Fla., Nov. 9.—Advices received from Havana last night per steamer Olivette give details of an outrage on an American citizen and the butchery of nineteen non-combatant Cubans, including four women, by Spanish soldiers. The massacre occurred last Thursday near the town of San Francisco de las Layas, Havana province.

A detachment of Spanish soldiers surprised six insurgents, who, however, made their escape, which angered the Spanish and they began to raid the houses in the neighborhood, alleging that the inhabitants were in sympathy with the rebels. They went to the sugar estate of Frederick L. Craycroft, who came here from Indiana about three years ago. Some of the soldiers entered the house, and two of them seized Mrs. Craycroft and assaulted her. The husband in desperation rushed to his wife's aid, but was struck down by a sword in the hands of an officer. Two terrible gashes were made in his back and his right arm was nearly severed. The Spaniards looted the house, took \$860 in cash and then raided other houses on the estate. They burned eight buildings and shot nineteen inmates, four of whom were women.

Graycroft, when he had recovered sufficiently, wrote to Vice-Consul Springer at Havana. It is understood that the vice-consul cabled an account of the outrage to Secretary Olney.

The Spanish authorities in Havana are greatly disturbed because several thousand insurgents from Gomez' army have entered Matanzas province. So serious does Weyler consider the situation that he has withdrawn 6,000 troops from Pinar del Rio and despatched them into Matanzas to stay the advance.

During the siege and subsequent capture of Guayamara City by the insurgents, the Spaniards lost 260 killed and wounded. Three hundred and seventy Spaniards surrendered to Garcia, commanding the besieging force. Garcia sent word to General Castellanos that they would be exchanged for Cubans held by the Spaniards.

Banks Feel the Effect of Restored Confidence.

NEW YORK, Nov. 9.—The banks are contemplating the resumption of specie payments which they suspended in February, 1892, by refusing to supply gold for export and for payment of government dues. That action threw the burden of supplying gold upon the treasury, and eventually forced the issue of bonds by the government, which aroused so much complaint. Since the election the metal has been coming into the banks in such a flood that they see their way clear to what can be termed a resumption of specie payments. By this action of the banks gold will be put into circulation, and no occasion whatever will exist for hoarding it. They will also resume the task of supplying gold for export and thus relieve the treasury of a great strain.

Merchants Will Convene.

CHICAGO, Nov. 9.—Large numbers of merchants throughout the Western and Southern states have signified their intention of attending the meetings of the National Association of Merchants and Travelers in Chicago this week, and the event promises to be of national importance. The merchants are eager at this particular time to hear the views of Lyman J. Gage, who has announced his intention to speak on the banking situation. Scarcely less in importance to the subject to be handled by Mr. Gage is the address to be delivered by J. V. Farwell, jr., on the mercantile situation.

As the 50,000 retail and wholesale merchants comprising the association are located in the states where the money question was the paramount one in the recent campaign, the merchants are desirous of hearing the financial views of one who is able to discuss it intelligently.

The merchants who will comprise the largest attendance at this, the second meeting of the the association, are chiefly from the dry goods, clothing, boot and shoe, hardware and grocery branches. More than the usual amount of late-season buying will be done by this week's visitors, if their letters to Secretary Tomlinson are any indication. Nearly all of them add the facts that they have been running on light stocks, and must therefore do some buying, to the other reasons for their coming to the city at this time.

The present officers of the association are: General chairman, A. C. Bartlett; vice-general chairman, J. V. Farwell; general treasurer, Adolph Nathan; general secretary, C. S. Tomlinson.

The Wheat Crop Deficiency.

LONDON, Nov. 9.—The Mark Lane Express, in a long article on the crop, says: "The deficiency in India is now known to be very serious, but it is not likely that any large wheat imports will occur. Although prices only range from 26s to 30s per quarter, the extreme poverty of the Indian populace renders anything over 30s almost prohibitive, and 15s to 25s is the usual range. Owing to the failure in India and Australia a deficiency of 2,083,500 quarters has created in Great Britain, the usual supply of which must be made up from other sources, and is a change in the situation, which itself is sufficient to uphold eccentricities.

"The quantities of wheat on passage to the United Kingdom November 7 were 2,045,000 quarters, of which Russian wheat amounts to 400,000 quarters, North American 300,000, South American 100,000 Californian 1,220,000, and elsewhere 25,000."

Wheat in London.

LONDON, Nov. 9.—Business at the Baltic in wheat opened steady and quieter. On Mark Lane wheat was firmly held at about 1s 6d higher than on Friday.

Business at the Baltic closed very quiet, but holders adhered to opening prices.

British Bark Zinta Goes Ashore Near Gray's Harbor.

ABERDEEN, Wash., Nov. 9.—The British bark Zinta of Greenock, an iron vessel of 1525 tons, went ashore on North beach this afternoon, about five miles north of the entrance to Gray's harbor, and close to where the bark Abercorn was wrecked a few years ago. The vessel was forty days out from Nagasaki, Japan, to Portland, Or., in ballast to load wheat, and first sighted land on Sunday morning about 9 o'clock, she being then about five miles off the coast, and abreast of Quinault river. The heavy current that sets in along the coast, and a heavy southwest gale, made it impossible for her to stand out to sea, and at 1 o'clock she was forced to let go both anchors. They failed to hold her, and she gradually drifted ashore, being in a similar position to the Glenmorag, wrecked north of the Columbia.

The crew consisted of 27 men under command of James Fraser, and all are safe ashore. One sailor named McNamee received a scalp wound from being struck on the head by a stanchion, which broke loose as the vessel rolled in the heavy breakers, he being the only one in the crew that was injured. The vessel was first sighted by Mr. Damon, of Oye-hut, who, noticing the signal of distress, dispatched his eldest boy to Hoquiam, 12 miles distant, for tugs, and telegrams were at once sent to Westport to the tug Traveler, and to South Bend for tugs, and for the life-saving crew, but before the tugs could arrive, the vessel was too far in shore to receive any help, and the crew was all ashore, having experienced no trouble in launching a boat on the lee side of the vessel and reaching the friendly assistance of the hospitable people who dwell along that shore. McNamee, the injured sailor, was brought to the hospital at Hoquiam, Captain Fraser and the balance of the crew remaining at Oye-hut to look after the vessel. The captain says that he is confident that he can save the vessel with but little if any damage, and the condition of the ship at this time would seem to warrant his statement, as she stood the heavy poundings received in the breakers without any perceptible damage, not even springing a rivet, and she now stands at low tide boldly out, as though in her usual element, instead of in the golden sands of a strange coast.

November Record Broken.

CHICAGO, Nov. 9.—Wheat broke the record for November this morning by selling at 80½c for December, 2 cents advance over Saturday's close. The advance was not attended by great excitement. Few open orders to take profit on long stuff at even figures brought only a temporary setback. Outside markets were particularly strong. The visible increase was only 1,243,000 bushels.

The threatened crop damage in Argentina, doleful rumors of unsatisfactory fall seeding in Russia and France and large seaboard clearances were the chief factors which contributed to the success of the bulls. Corn, oats and provisions participated in the advance proportionately.

Hearty.

When four days old my babe broke out over one side of his head and body with watery blisters, which turned to a complete scab. We called the family doctor, and he said that "he could heal them up," but "the baby would never have any more hair on his head," and we were completely discouraged. We were told to try CUTICURA REMEDIES and did so. We used two boxes of CUTICURA, two cakes of CUTICURA SOAP, and he now is all right. The hair is on thick, and you would never think there was anything the matter with him, he is so fat, good, and hearty, and I do not know how to praise CUTICURA REMEDIES enough for the good they did my child.

Mrs. W. M. H. SCOTT, Luzerne, Pa.
