ENGLAND IS JEALOUS

Says America Must Be Responsible for its Words.

THE DINGLEY TARIFF BILL AGAIN

F. C. Hyde of Baker City Died Saturday—Hanna's Factories Are Running Full Blast Again.

NEW YORK, Nov. 15.—The evening Post's copyright cablegram from London today has a review of the press comment on the Anglo-American agreement on the Venezuelan question. The most notable extract is one from the Spectator, which dispatch says it laments over the folly of a country like the United States, with a standing army and great fleet, "putting itself into position of being dragged into war whenever a petulant American half-caste state chooses to insult an European power."

The Spectator says: "If the United States assumes suzerainty it must guarantee decent wards. Thirty of fifty years hence Europe, pressed almost to madness by the inability to feed the over-crowded peoples, will want to swarm into South America under its own flags.

To deny them will mean attempting to crush the fleets and armies of the combined continent of Europe."

THE DINGLEY TARIFF BILL.

Possibility That it Will Pass at the Coming Session.

WASHINGTON, Nov. 14.—In view of the recent statements of some of the silver senators that they would not oppose the Dingley tariff bill, and the opinion of Senator Morgan that the Democrats would probably permit the legislation without obstruction on their part, the prospects for the bill are deemed fair, if the Republicans decide to pass it. Upon the latter contingency there is a division of opinion among Republicans. Senator Sherman, of Ohio, takes the ground that the passage of the Dingley bill at the coming session would obviate the necessity for an extra session of congress, as it would furnish the revenue needed for the present and would be sufficient for all purposes until congress shall meet in regular session and prepare a revision of the tariff carefully and deliberately.

Another reason advanced in support of the proposition for the passage of the Dingley bill at this time is the suggestion that the custom-houses should be locked as soon as possible by an increase of the tariff rates against the impending flood of cheap foreign goods which would come in through anticipation of a certain increase in the rates at some future day. The fact is recalled in this connection that just such a flood of cheap goods poured into the country prior to the McKinley bill going into effect, and in anticipation of the increased rates carried by that bill. In a single month prior to the taking effect of that bill, the importations jumped to \$78,338,183. This was an increase over the preceding month of \$15,000,000 and of the same month a year previous of nearly \$25,000,000.

According to the arguments advanced the ill effect of such a condition are obvious. It is held that it discounts the revenues of the incoming administration because the market is surfeited with goods and the importations would be light for the first few months of the tariff law. For the same reason it is claimed harm is worked to the American manufacturers and laborers, the people whom the new law is to benefit, for it cuts off the market of the American product. However, it is stated that

If your tea is not good, why don't you drink water? It is cheaper and better for you than poor tea.

If it is good, your stomach is glad to get it; does its work better.

Schilling's Best is good tea—at grocers' in packages.

President Cleveland would veto the Dingley bill or any other tariff measures passed at the coming session of congress. His support of the sound money principles and his practical co-operation with the Republican party in the election just over can in no way be construed, it is said, as meaning that the president is in any way in sympathy with the party on the other questions. The Republican party is still his foe on the tariff question. He will, despite the severe lesson the country has learned, continue a free trader.

Spain and Uncle Sam Friendly.

WASHINGTON, Nov. 14.—In answer to inquiries as to the foundation of certain sensational stories in circulation recently as to trouble with Spain growing out of the Cuban situation, Secretary Lamont said today: "Stories about the movement of troops in the South are untrue, and the assumption that work on coast defenses has any significance or is being expedited for any unusual purpose has no foundation. This work has made excellent progress in the past year, and I am making an effort to show some return in completed defenses for the large amount of money appropriated for this object."

Stands at the Head.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for Consumption, Coughs, and Colds. I cannot say enough for its merits." Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Free trial bottles at Blakeley & Houghton's drug store.

A Mayor Under Arrest.

NEW YORK, Nov. 14.—A bench warrant for the arrest of Mayor H. J. Gleason of Long Island City was issued by the district court today. The warrant charges violation of the election laws. The indictment was issued on complaint of the Jeffersonian party of Long Island City, which alleged that Gleason had illegally refused them representation on the board of election inspectors.
