THE BLIZZARD REIGNS

Fearful Suffering in the Northwestern States.

MANY LIVES REPORTED LOST

Cattle Buried in Snow Drifts. Trains Delayed and Wires Prostrated on the Prairies.

ST. PAUL, Nov. 28.—Human beings have been frozen to death, cattle have been stamped, bruised and smothered in snow drifts; trains are delayed, wires are down and the November storm record is broken by the blizzard that holds the Northwest locked in its chilly grasp.

How many lives have been sacrificed cannot be told until the snow drifts clear away, months hence. Men are missing everywhere in the heart of the storm. Some are known to be dead, and many are missing, with the chances very much against them being alive. Those dead and missing are:

Thomas Anderson, 18 years old, lost in the snow near Moorhead, Minn.

F. M. Burrows, mail agent, lost in the storm at Devil's Lake, N. D.

Frank Stack, of Chicago, frozen to death near Fargo, N. D.

Two unidentified men, found frozen to death near Fargo, N. D.

Three missing men, lost in the snow near Fargo.

From the cattle country in the western part of North Dakota come reports of intense suffering of the livestock on the ranges, but no definite information can be had, as the wires are down. Watson Ball, a cattleman, says the losses will be extremely heavy.

South Dakota is suffering, too. At Pierre over eight inches of snow fell during Thursday and Friday, and the wind maintained an average velocity of 28 miles an hour. Wires were down most of the time, and trains and street-cars were tied up. The first train to move west went out about noon today with a snowplow.

Snow on the prairie drifted badly, and cattle losses are being reported. It was the worst storm for years.

Some of the transcontinental railroads centering at St. Paul resumed their through service today. The wind having abated, they were able to send out rotaries and snowplows, and expected that within six hours they would be able to send their traffic through in good shape, provided no serious damage has been sustained by their tracks.

Wires are still in bad shape, and it is impossible to get definite reports regarding conditions in certain sections, but the railway set large bodies of competent men to work and made rapid progress. From all reports received there seems to be nothing to contend with except immense snow banks, which, however, the rotaries can easily remove.

From latest reports it is safe to predict that tomorrow everything will be moving pretty well, though not on schedule time.

Stock Suffering in Nebraska.

OMAHA, Nov. 28.—Severe weather continues to prevail throughout Nebraska. The thermometer has been close to zero for thirty-six hours. In the western part of the state a high wind prevails. In some sections stock is reported as suffering for want of food and water. The immense supply of grain and hay in Nebraska, where it is available, enables feeders to carry cattle without trouble. Railroad trains are being operated on many roads without wires.

Don't wait till your tea is out—tell your grocer: "I want to try Schilling's Best if I can without cost either to myself or you, as the advertisements say. I am willing to pay for the tea if I like it; not if I don't; but I don't want it at your expense."

Other reports from some of the northern counties in this state say the storms of late were the most severe in years, and that range cattle would surely perish unless furnished food and shelter.

Worst Storm in Eight Years.

ABERDEEN, S. D., Nov. 28.—The present storm has not been paralleled since the great blizzard of January 12, 1888. Drifts on the streets and on the railroad tracks are six feet deep. Railroadings has been entirely abandoned until the storm breaks. The Eureka accommodation is fast at Hillsview. The loss to stock, it is feared, will be great. A dispatch from Mellen says the worst snow storm and blizzard through this section for years commenced on Wednesday night. Trains are blocked. Snow drifts on Main street are fifteen feet deep. Stock will suffer greatly.

Traffic Blocked.

WASHINGTON, Nov. 28.—A traffic blockade by storms in the Northwest is reported at the postoffice department in the following dispatch from the superintendent of the railway service at St. Paul: "On account of heavy blocking storms, trains of the Northern Pacific and Great Northern lines in South Dakota and Montana are at a standstill, telegraph wires are down, and it will be forty-eight hours before the regular train service is resumed."

Lost in a Dakota Town.

DEVILS LAKE, N. D., Nov. 28.—The blizzard was very severe here. The passenger train from the coast has remained on the siding since Thanksgiving. About 4:30 p. m. on Thursday, F. M. Burrows, mail agent, left his car to go to the depot for orders. He has not been seen since, and there is not one chance in a thousand of his having escaped death in the storm. It is supposed that in returning to the car he lost his way in the blinding storm.

Snow Blockade Raised.

HURON, S. D., Nov. 28.—The snow blockade was raised and traffic on this division of the Chicago & Northwestern road resumed tonight. The Great Northern will begin business Monday. Telegraph lines are badly demoralized. Stock losses on the northern and western ranges are very heavy, but no suffering among the settlers is reported. The storm lasted 48 hours, and was one of the most severe experienced since the settlement of this country.

In Colorado.

DENVER, Nov. 28.—The minimum temperature recorded at the Denver station weather bureau today was 8 deg. below zero, at 6 a. m.; at 11 it was 8½ below zero. At Leadville it is 17 below zero; at Pueblo, 12 below; at Cripple Creek, 14 below. The cold snap has been more severe in Wyoming and Colorado. At Lander, Wyo., the thermometer recorded 28 below zero last night.

Minnesota and Manitoba.

ST. PAUL, Nov. 28.—A light snowfall only was reported today, but it seems to be the closing fury of the present big blizzard. The temperature dropped to a low point. In this city it was 7 below zero early this morning. Moorhead reported 24 below; Huron, 8 below; Williston, 22 below; Winnipeg, 24 below. Trains are badly delayed, and telegraph communication greatly crippled.

Salt Lake's Coldest Day.

SALT LAKE, Nov. 28.—Today was the coldest November day in Salt Lake in the 20 years existence of the Utah weather bureau. At 5 o'clock this morning the thermometer registered five-tenths of a degree below zero.

SITUATION IN THE TRANSVAAL.

Kruger Says the Rumors of Impending Trouble Are Untrue.

PRETORIA, South Africa, Nov. 28.—At a banquet here yesterday evening, President Kruger declared that the rumors of impending trouble were untrue, and that they had been spread by speculators. All was clear, he added. The London convention assured the independence of the Transvaal, and if a change was desirable, he would see that it was arranged constitutionally. Referring to the delay of the Transvaal government in claiming indemnity from the British South Africa Company in consequence of the Jameson raid, President Kruger said the delay arose from the desire not to make an excessive demand, and that the exact expense was not computed. He ridiculed the idea that an invasion of Rhodesia was proposed, and assured his hearers that the mining interests of the country would be fostered.

The Prince Leaves Blenheim.

WOODSTOCK, England, Nov. 28.—The Prince and Princess of Wales left Blenheim this morning and were escorted to Oxford by a detachment of the local yeomanry corps, the Oxfordshire hussars, headed by the Duke of Marlborough, who is a lieutenant of that branch of the cavalry.

Satelli Made No Report.

ROME, Nov. 28.—Cardinal Satelli denounces as absolutely false and reprehensible all rumors published in America alleging that he made a report to the pope touching upon the university of Washington, Archbishop Ireland, Cardinal Gibbons or other Catholic dignitaries.

Jameson in a Critical Condition.

LONDON, Nov. 28.—Dr. Jameson, leader of the Transvaal raid, who is undergoing a sentence of 15 months' imprisonment in Holloway jail, and whose sickness has previously been noted, is announced to be in a critical condition.

The Niger Expedition.

PARIS, Nov. 28.—The French government has received assurance from the government of Great Britain that the sphere of the river Niger company's proposed expedition will not affect French interests.

BURNED LIKE FIRE

Speedily Cured by CUTICURA REMEDIES

I was a sufferer for eight years from that most distressing of all diseases, Eczema, but can now say truthfully that I am entirely cured. I tried some of the best physicians in the country, but they did me little good. The palms of my hands were covered, and would become inflamed; little white blisters at first would appear, then they would peel off, leaving a red, smooth surface which would burn like fire and itch; well, there is no name for it. On the inside of the upper part of both my limbs, great red blotches not unlike hives would appear, and as soon as I became warm, the burning and itching would begin. Night after night I would lie awake all night and scratch, and almost go wild. I heard of CUTICURA remedies, got a box of CUTICURA (ointment), a bottle of CUTICURA RESOLVENT (blood purifier), and gave them a thorough trial, and after a few applications I noticed the redness and inflammation disappear; before that used one box there are not a sign of Eczema left. I can truthfully assert that 2.00 worth of CUTICURA REMEDIES cured me. Any one I meet who has Eczema, I do not hesitate a moment in recommending your remedies.
