The Greet Storm in Nebraska.

OMAHA, Nov. 30 .- Final details of the great storm that has enveloped Nebraska for six days were received today. Much stock has perished on the extreme western range, where there were few ravines which afforded shelter to the animals. The aggregate is not so large as anticipated, however, and though the severe weather continues, the snow is rapidly disappearing.

A peculiar feature of the great storm is the efficient manner in which delay has been avoided by railroads centering here. Though great quantities of snow feil between Omaha and the mountains, the service was uninterrupted. The The best salve in the world for cuts, Union Pacific's overland limited was not delayed at any point between here and San Francisco. The officials are now confident they have solved the problem of handling fast trains regardless of heavy snows which in former times impeded traffic.
