Pierced Both Lobes of Brain.

Coroner Koehler held an inquest yesterday upon the remains of Mrs. Benjamin I. Jones, the colored woman who died at 2:40 o'clock yesterday morning with a self-inflicted wound in the head, made eight days ago with an ice-pick. The jury rendered a verdict of suicide, adding that the act was evidently done while the woman was irresponsible. No new evidence was introduced at the inquest, excepting that of Dr. Barber, who, with the assistance of Dr. Harry McKay, made a post-mortem examination. It was discovered then that the ice-pick had passed completely through both hemispheres of the brain and come within a fraction of an inch of touching the opposite side of the skull. The brain substance was found very much torn and a hollow with a blood clot existed in the left side, this being probably due to the passage of the pick when Mr. Jones drew it forth. During the time that Mrs. Jones lay unconscious at the hospital, Dr. Barber expressed the opinion that she might have recovered, had the instrument been clean and free from rust, but, after he saw the way in which the brain had been torn, he admitted that she never had a chance of recovering. The case in its many aspects is considered as a very remarkable one, and will be fully discussed in reports by physicians.—Oregonian.

Plan of Kansas Populists.

The Populist leaders of Kansas are now discussing the propriety of passing a bill in the next legislature making Mexican dollars legal tender for the payment of all debts in Kansas. It would seem that the plan meets with great favor, as it is championed by some of the prominent candidates for the United States senate.

Of course, no such law could be made applicable to contracts or obligations entered into prior to its passage, and it is even doubtful whether a state could make any other than the lawful money of the United States a legal tender for the payment of debts, but the passage of such an act would be notice to every man who owns an honest dollar that he must invest it some place else than in the state of Kansas.—Philadelphia Times.

EASTERN QUESTION TO BE SETTLED

European Powers Have Reached an Agreement.

LONDON, Dec. 9.—The Birmingham Post today confirms the repeated statements on the same subject, namely, by the Associated Press during the past two months in saying that it learns from a high quarter that an understanding has been arrived at between Great Britain, Russia and France for the settlement of the so-called Eastern question, which has for generations been troubling the statesmen of Europe.

The Post adds that the Russian Black sea fleet and the British and French Mediterranean fleets will shortly be mobilized in contiguity to the Bosphorus and Dardanelles in order to enforce, if necessary, the reforms which the embassies of the three powers are about to present to the sultan, and to which the other signers of the Berlin treaty—Germany, Austria and Italy—have consented. To this end it is asserted the allied fleets may force a passage of the straits of the Dardanelles.

A Young Man Drowned.

ASTORIA, Or., Dec. 9.—Word was received from Chadwell this morning that a young man, of the name Olsen, employed on a milk ranch near that place, drowned in the Lewis and Clark river Monday evening last. It seems that Olsen took a skiff Monday afternoon and started for the ranch of W. J. Ingalls, after milk, but was not again seen. A search the following day resulted in the discovery of the capsize skiff, while a mile farther down the river the empty milk cans were found floating toward the bay. The river was dragged today, but so far the body has not been recovered.
