

REGISTRY OF INVESTMENTS IN AMERICA.

There are 500 silk manufactures in the United States, capitalized at \$50,000,000, and giving employment to more than 60,000 persons, including 30,000 women and girls.

The first establishment of the silk business a permanence was effected in the city of Paterson, N. J., which has since come to be known as the American Lyons, says the Philadelphia Times. Paterson, however, has not monopolized the silk business of New Jersey, for other cities of the Cranberry state have had a part of it, particularly Newark and Jersey City. New Jersey has remained at the head of the line of manufactures, with a product of \$20,000,000 in the year of the last federal census, New York and Pennsylvania following with a product of \$19,000,000 each, and Connecticut coming fourth, with a product of \$10,000,000.

The statistics just at hand for the year 1895 show on the part of Pennsylvania a marked increase in this manufacture since the national census of 1890. While the number of establishments has not been increased, their output has been enlarged 25 per cent., the most notable increase being in the production of ribbons, which was more than doubled, the output in 1895 being 35,000,000 yards. The number of spindles increased during the year 59 per cent. In 1895 the number of employes was 13,815, an increase of 4485 over the number in 1890. The wages paid in 1895 were \$4,082,292, as compared with \$2,725,285 in 1890. At this rate of increase it cannot be long before Pennsylvania will exceed New Jersey in the amount of the annual product of silk.

Eastern Pennsylvania, in which a majority of the silk manufactures are situated, has many geographical advantages. Unlike Western Pennsylvania, except in the anthracite region, it does not produce coal, oil or iron ore. Much of the land is rocky, some of it sterile, and it is not held at high prices. Wood any building materials are cheap, there is water power in plenty. The railroad connections of Eastern Pennsylvania are excellent, the anthracite coal lines passing through much territory which is not productive in agriculture or otherwise. Recently the extreme northeastern section of Pennsylvania has been utilized for the construction of silk factories. This can be done with advantage now, because the eligible towns of New Jersey are somewhat overcrowded on the falling silk market, and the cost of eligible land increased abnormally in cities adjacent to New York. Along with this increase of land has been the corresponding increase in rents. The largest market for American silks is in the cities of the East, and one of the first of these is the city of Philadelphia. As Pennsylvania takes much of the product of American silk manufactures, there seems nothing unnatural in Pennsylvania in supplying most of the demand; but it will be a surprise to many persons to know that the Keystone state is now nearly at the head of the states of the country in the manufacture of silk.

The value of raw silk imported into the United States—from France, Italy and China chiefly—last year was \$22,000,000. The value of silk goods imported was \$31,000,000.

EDITOR CHRONICLE:—Sometime last fall a bridge across the Deepchutes near my place was cut down and sagged down, so that the high water took it out. Some few people, without any reason for doing so have imagined Mr. J. H. Sherar had caused this wreck to be done. I am sorry anyone could have so poor an opinion of Mr. Sherar, whose reputation is above reproach, but in order to correct this impression, I desire to state that I am well satisfied as to who did the work and that Mr. Sherar certainly had nothing to do with it.

Good Fortune Crazed Him.

SAN FRANCISCO, Dec. 30.—Fred L. Wood, a convict in San Quentin prison, who recently inherited a fortune of \$30,000 from the estate of his father, a Chicago millionaire, is insane. He became violent in his cell Monday night, and had to be forcibly removed to the receiving hospital. It is thought his recent good fortune, together with the constraint attendant upon his confinement in the penitentiary is the cause of his insanity.

A tired stomach is very much like a sprained ankle. If you suffer from any of the symptoms of dyspepsia, your stomach is tired. It needs a crutch. We must relieve it of all work for a time, or until it is restored to its natural strength. To do this successfully, we must use a food which is already digested outside of the body, and which will aid the digestion of other foods that may be taken with it. Such a product is the Shaker Digestive Cereal.

The Shakers have utilized the digestive principles present in plants for the manufacture of this article, and its success has been truly phenomenal. You can try it for the nominal sum of 10 cents, as sample bottles are sold by all druggists at this price.

Laxol is the best medicine for children. Doctors recommend it in place of Castor Oil.

Mr. Goldfogle has a daughter who is past 30, homely and unattractive, and he and his wife had years ago given up hope that she would ever have a chance to change her name.

A day or two ago when he came home to supper his wife said, joyfully:

"Our Jennie has an admirer at last. Mr. Simpson, the stockbroker, sent her a big box of candy and asked her to go to the theater with him to-night. It will be an excellent match for her; his family are well connected, and I've inquired into his habits, and altogether I'm perfectly delighted with Jennie's catch."

"H'm," said Mr. Goldfogle. "Better not be too confident yet. I'll look about to-morrow and see whether Simpson voted for Bryan or not."

"What the world has that to do with it, I'd like to know."

"A lot," said Mr. Goldfogle. "Simpson may be only paying an election bet."—Detroit Free Press.
