

TIME CARD FOR TRAVELERS.

Below is published a correct time card of trains and boats which leave and arrive at The Dalles. Travelers may trust it, as THE CHRONICLE is kept fully informed of revisions:

Table with columns for D. P. & A. N. O. STEAMERS, OREGON RAILWAY & NAVIGATION CO., and DALLES PASSENGER. Includes departure and arrival times for various routes.

Advertising Rates. Per inch. One inch or less in Daily... \$1.50. Over two inches and under four inches... 1.00.

Weather Forecast. PORTLAND, Feb. 4, 1897. FOR EASTERN OREGON—Tonight rain; tomorrow: fair.

WAYSIDE GLEANINGS.

Random Observations and Local Events of Lesser Magnitude.

The Columbia rose a few inches yesterday. Mrs. T. J. Senfert last week won the gold medal in the ladies' bowling contest.

A chinook wind commenced blowing this morning, and has melted nearly all the snow. By morning it will all be gone.

The Hood River Glacier notes the first wild flowers of the season last week, one of C. Weids little girls bringing to the office a purple iris.

John Edwards and a man named Eaton quarreled over a game of cards at Medford Monday night, and Edwards shot Eaton in the leg, inflicting a serious wound. Edwards escaped and is still at large.

If the president extends the time on which payment may be made on forfeited railroad lands, it will be but a short time until homestead applications will be again received on unclaimed tracts.

The lower house of the Washington legislature yesterday, by a narrow majority, passed the bill to abolish capital punishment in the state of Washington, and to make the measure apply to those now under sentence of death.

Frank Wilhelm, an employe of Longley's logging camp, near La Grande, was seriously and perhaps fatally injured yesterday by falling under a load of logs which he was hauling, the load passing over and badly crushing him.

Mrs. J. L. Bradley, who lived at Dufur until about two years ago died at Junction City, in the Willamette valley, Monday, February 1st. Mrs. Bradley was the daughter of Mr. Henry Williams of 8-Mile. She leaves six small children.

The Iroquois County News tells of the smallest pair of horses on earth, which were on exhibition at Watecka last week. They are Arabians, owned by J. J. Ware, of Springfield, stand about 23 inches high, and weigh respectively 36 and 42 pounds.

Do not fail to call on Dr. Lannerberg, the eye specialist, and have your eyes examined free of charge. If you suffer with headache or nervousness you undoubtedly have imperfect vision that, if corrected, will benefit you for life. Office in the Vogt block.

At Olympia yesterday Representative Warner continued his testimony before the senatorial investigating committee, relative to the charges made against him by Senator Squire and Dr. Calhoun, of offering to sell his vote and that of twenty others. The testimony of Warner was of a character highly damaging to Senator Squire.

Mr. J. O. Douthit, brother of the editor of the Times-Mountaineer, was thrown from a horse near his home in Crook county last week, his head coming in contact with a rock. When word was sent here he had been unconscious for several hours, and it was feared he had been fatally injured.

An extra freight coming up this morning ran into a mud slide near Bonneville about 5 o'clock, derailing the engine and a couple of cars, but fortunately injuring no one. The road was blocked temporarily and the local due here at noon was annulled. The work of clearing the wreck is being pushed vigorously.

ously and the road will be clear, it is thought, in time to let the passenger through tonight.

A Great Northern west-bound overland passenger train was wrecked near Wenatchee Sunday night, by the spreading of the rails. The entire train left the track and some of the coaches went over an embankment. No one was killed, but three passengers were seriously injured.

Those who have heard Miss Jones and Miss Steyens in their former concerts in our city need not be reminded that they will have the opportunity of hearing them Tuesday evening at the Congregational church; but those who have never heard the young ladies cannot afford to miss the concert next week.

The pleasure of the pessimist is to assure you there is no pleasure. The liar tells you there is no truth—and expects you to believe him. The hypocrite bewails the "universal lack of sincerity"—and is offended if you ask for evidence of his good faith. "Life is not worth living," wails the sentimentalist—and forgets to commit suicide.

Count Browlaski, the famous Polish dwarf, was born in 1739, and visited every court in Europe in the last century. When six years he was only 17 inches in height, though at 30 years of age he grew to be 3 feet 3 inches. He had a sister, also a dwarf, and so much smaller than himself that she could stand erect under his arm. He was a man of varied and extensive accomplishments.

There are rumors and rumors what will be done next by the house. Among them one that a scheme for re-organization has been broached, with Hon. B. S. Huntington, of this county, as speaker. Mr. Huntington would make an excellent presiding officer and we hope the rumor may prove not without substantial foundation. The Benson house would certainly agree to any reasonable compromise.

Notwithstanding the good sermons preached almost every day in the East Oregonian, Pendleton is having more than her share of that kind of crime involving great moral turpitude. The other day it was the city recorder, who used the city funds for his own purposes, and now from the East Oregonian we learn of a prominent Woodman soliciting funds for a sick brother, and failing to turn them over. It is such things as these that makes man lose confidence in his fellow man.

She was nervous and scared as she penetrated the city's purlieus. A freight train was being switched down there, and a loud-voiced switchman was giving instructions to another of his craft. Switchmen have a language all their own, which is incomprehensible to the plain, every-day, nonrailroading citizen. Among other things they call a train "her" and "she," just as a sailor refers to a ship, and just as she neared the switchman, this is what he yelled: "Head her off, Jim; cut her in two and send the head end up here." She fled from the murderous villain, and postponed her trip. Meanwhile the other switchman obeyed orders. He cut the train in two and sent the head end back.

Drill Sent For.

We stated some days ago that the money subscribed for the diamond drill had been collected, turned over and the drill ordered. We were mistaken about the latter portion of the statement for the drill was not ordered until yesterday. Mr. Nicholas had been corresponding with different parties concerning prices, etc., and besides it took some little time to decide upon just what kind of a drill was needed. It is the intention now to buy two drills; one a regular diamond, and the other simply a bit working on the diamond drill shaft, known as an "adamantine." The latter is adapted to cutting tough rock that is not hard, and will facilitate the work.

Mrs. Hoffman Saturday Afternoon.

Mrs. Hoffman's work in New Jersey has been of the highest order. She is one of the ablest and keenest students of political and social problems we have today. She has delivered eight addresses in the cities of Orange and East Orange. Her close analytical argument will make you think, and her sincerity and honesty will command respect and esteem.—Mrs. Quigley, Orange.

Mrs. Hoffman will give an address on Saturday, the 6th, at the Congregational church at 2:30 o'clock, and will speak in the Vogt opera house on Sunday evening next at 7:30.

What's money for? To get good things. What's money-back? Good—Schilling's Best. For sale by W. E. Kahler

CITY COUNCIL MEETING.

Propose Changes in the Charter—Will Sell a Lot to Lutheran Church.

The regular meeting of the city council was held last night; present Mayor Menefee and Councilmen Nolan, Wood, Thompson, Kuck, Champlin, Clough and Johns.

Minutes of last meeting read and approved.

Petition by the Lutheran church asking to purchase certain lots was received, and the recorder was instructed to draw up an ordinance in accordance with the prayer of the petition. Council to meet tonight to consider the same.

A communication was received from Representative Huntington, suggesting changes in city charter. The recorder was instructed to communicate with Mr. Huntington recommending that the changes be as follows: "That the recorder be allowed five days in which to report ordinances to mayor. That a majority vote of the council be sufficient to remove recorder or marshal from office. That the amount of license tax on sale of liquor in packages be left blank;" and also to state that the council deem the present manner of selecting recorder and marshal best.

The proposed ordinance regulating the sale of liquor in bottles, was up, but its hearing was postponed until next regular meeting.

On motion Mr. Nicholas was allowed the use of the rockcrusher, that the engineer of the fire department take a receipt for same and that the same be returned in as good condition as when received.

Special committee on electric lights reported verbally that no further propositions had been received from the Electric Light Company.

Reports of officers were read and placed on file, and claims per marshal's report, and also officers' salaries were allowed and warrants ordered drawn for their payment.

On motion the committee on health and police, were instructed to recommend some plan for getting rid of a great surplus of worthless dogs.

The following claims were allowed and warrants ordered drawn for the amounts:

Table of bills allowed. C F Lauer, marshal's salary... \$75 00. Geo J Brown, engineer fire engine 75 00. J J Wiley, night watch... 60 00. G W Phelps, recorder... 50 00. C J Crandall, treasurer... 20 00. J H Harper, lighting street lamps 39 45. Dalles City Water Works, water rent... 32 00. Jim Like, labor... 21 70. V Roase, " 8 20. W F Bassett, labor... 3 20. Jim Hogan, " 1 80. J V Heeley, " 1 80. Wm Henzie, team work... 10 50. California Restaurant, meals... 12 15. J P McNerny, mdse... 1 20. Gupta Percha Mfg Co, hose... 40 00. Times Mountaineer, printing... 1 50. P F Burham, hauling... 2 75. Gunning & Hockman, mdse... 1 80. D W Mann, hauling... 50. Dalles Light Co, lights... 29 00. L Rorden, mdse... 1 95. Ward, Kerns & Robertson... 1 00. Prinz & Nitechke, mdse... 3 50. Mays & Crowe, mdse... 11 62.

No further business appearing, council adjourned to meet tonight.

ONLY THIRTY-SIX TODAY.

Huntington Declares He Will No Longer Meet With the Benson House.

Thirty-six members of the legislature met at noon today in joint session. On roll call Huntington voted with them, and when the result of the ballot was announced, he rose, and in a brief speech declared that he had voted with them for the last time; that he would no longer meet with the Benson house, and that he proposed to do nothing until his party got together and organized the house legally.

Hughes, of Washington, and McKinley Mitchell were absent.

Brown, Taylor, Crawford and Conn, went to Mitchell and asked to be released from their promises of support. Mitchell urged them to stay until tomorrow, and all but Crawford consented.

The joint convention then adjourned to meet tomorrow at noon.

Either Hughes or Crawford went to Mitchell yesterday and asked to be released from the promise to support him, but were persuaded to stay until today.

A Lucky Inventor.

A small rotary engine of novel design has been invented by Grant Brambel, of Sleepy Eye, Minn., of patent of which H. F. Allen, of London, president of an engineering syndicate, has offered him \$1,600,000. In the ordinary type of cylinder engines the steam enters at the end of the cylinder, is cut off and used as an expansion from the cut off to the end of the stroke. The Brambel rotary engine does away with the crank motion and uses its own plunger for a cut-off. The engine is steam tight and requires no ring packing. It can be either simple or compound. It weighs less and occupies only a fraction of the space of the old style engine. The working model

weighed but twelve pounds and seven ounces, yet was of twenty-three actual horse-power.

They Will Marry.

Sheriff Matlock arrived from Heppner yesterday, armed with a warrant for the arrest of a young man named Morgan, son of Heppner's mayor. He had telegraphed here concerning Morgan, and Deputy Sheriff Kelley, had arrested the young fellow before Matlock arrived.

He is charged with that offense as old as history; as old and perhaps older than legendary lore can bear witness to—of having loved not wisely, but too well. As the matter stands now, he is a father without having attended any wedding ceremonies, but will go back now that he has to, and give the girl and the little one the right to bear his name. The land slide at Bonneville, rather delayed his wedding tour with the sheriff, but he will have it just the same.

Public Installation.

The following is the program to be rendered at the Good Templars hall next Saturday evening, in connection with the installation of officers:

- Solo—"Warrior Bold"..... Archie Barnett
Solo—"You Can't Play in My Back Yard"..... W. D. Harper
Duet—"The Misses Lewis"..... Rev. A. D. Skaggs
Solo—"My Lady's Bower"..... Miss Ethel Deming
Mrs. Hoffman will probably be present and favor the lodge with an address on temperance.

PERSONAL MENTION.

T. H. Johnston of Dufur is in the city. C. C. Hobart is up from the Cascade Locks.

Mr. Charles Fraser, the barber, is dangerously ill with pneumonia.

Miss Mary Lay is confined to her bed with what, it is hoped, will prove to be pneumonia.

Wanted.

Position as housekeeper, by a middle aged lady; widower's family preferred. Would go into the country. Address or call Union Street Lodging House, Room No. 9. 4-43t-w1\*

Here is a diamond, here a piece of charcoal. Both carbon; yet between them stands the mightiest of magicians—Nature. The food on your table, and your own body; elementally the same; yet between the two stands the digestion, the arbiter of growth or decline, life or death.

We cannot make a diamond; we cannot make flesh, blood and bone. No. But by means of the Shaker Digestive Cordial we can enable the stomach to digest food which would otherwise ferment and poison the system. In all forms of dyspepsia and incipient consumption, with weakness, loss of flesh, thin blood, nervous prostration the Cordial is the successful remedy. Taken with food it relieves at once. It nourishes, and assists nature to nourish. A trial bottle—enough to show its merit—10 cents.

Laxol is the best medicine for children. Doctors recommend it in place of Castor Oil.

Dalles-More Stage

Leaves the Umatilla house 8 a. m. Tuesdays, Thursdays and Saturdays. DOUGLAS ALLEN, Prop.

THE BEAN AUTOMATIC SPRAY PUMP.

Is, unquestionably, the most successful and perfect working Spraying Device yet invented.

It is a universal testimony that more, as well as better, work can be accomplished with the Bean Spray Pump than with any other pump on the market.

With this pump one man can charge the receptable and leave it to direct the spray just where it is wanted, and thus with sufficient hose pass from tree to tree. The solution is delivered in a fine mist or spray, penetrating every nook and corner, thus doing better and more effective work than is possible by any other method, and with no waste whatever of solution.

For further particulars see special circular or call upon or correspond with,

MAIER & BENTON AGENT FOR THE DALLES.

LARGE CONSIGNMENT WILSON HEATERS JUST RECEIVED at MAYS & CROWE.

Remember We have strictly First-class FIR, OAK and MAPLE WOOD To sell at LOWEST MARKET RATES. Phone 25. JOS. T. PETERS & CO
