WAYSIDE GLEANINGS.

The grand jury has returned a true bill against Osborne, and his will be the first case for trial.

The assignee in the matter of the assignment of A. A. Bonney today filed his final report, which was allowed.

In the divorce suit of Alma L. Howe against Samuel T. Howe, George T. Prather was appointed to take the testimony.

Hattie Kizer was today granted a divorce from Henry Kizer, and the marital relations existing between R. L. and M. Matherson were also ruthlessly severed.

There are twenty-one applicants for teachers' certificates taking the examination today. Eighteen of them are handsome girls and the other five just men.

Hawthorne's house, near the summit of the mountain west of town, was destroyed by fire Monday night about 8 o'clock. No particulars of the matter have been received.

Poisons engendered by food fermenting in a dyspeptic stomach are the direct cause of rheumatism, gout, bronchitis, liver and kidney complaints, asthma, pneumonia, and many nervous ailments.

Remember the social given by the men folks on Friday evening at the M. E. church. A choice program is being prepared, and think of all the nice things they are going to cook, such as "Minnehaha" cake and clam chowder.

Dr. Hollister was called to Waco last night to consult with Drs. Hartley and Edgerton in the case of Mrs. Murchie, who is dangerously ill. He missed the train returning and so came down in a buggy, having an all night ride.

All members of The Dalles Commercial and Athletic Club, or others, who desire to take part in the minstrel performance, are requested to meet in the old K. of P. hall, in Schanno's building, this evening at 8:30. Rehearsals are now in progress.

Prof. R. Love is prepared to receive a few pupils in stage or ball-room dancing, private or class. Applications received at the Umatilla House. Prof. Love intends giving a series of hops during his stay in this city. Invitations will soon be issued.

Do not fail to call on Dr. Lannerberg, the eye specialist, and have your eyes examined free of charge. If you suffer with headache or nervousness you undoubtedly have imperfect vision that, if corrected, will benefit you for life. Office in the Vogt block.

The grand jury today found a true bill against Cal Douglas, charging him with assault with a dangerous weapon upon James Fisher. This is another chapter arising from the exorcisingly funny joke of turning out the lights at the dance in Brown's ball Christmas eve. The joker should now be at the acme of bliss at the result of his wit.

The grand jury evidently did not take much stock in the stories told by the complaining witness and her people in the charge against Simonson, for after listening to them, the jury returned not a true bill. The victim of the alleged

assault is a remarkably pretty little girl of about 14 years, and it is too bad that she starts in life with such a story hanging over her.

The bewitching school ma'am is much in evidence today, the regular quarterly examination beginning at noon. If Superintendent Gilbert and the board of examiners have the heart to refuse any of those demure and low-voiced little angels a certificate short of first class, then the well springs of humanity have run dry, the love of the beautiful has deteriorated and the witchery of bright, fathomless eyes and lips that silent, speak Cupids' own language, have lost their witchness, sure.

The concert last night at the Congregational church drew a crowded house, and the program from beginning to end held the interest of all. Of Miss Jones' singing nothing can be said, for words cannot describe song. She is well known here, and the beauties of her voice thoroughly appreciated. Miss Stevens won new laurels at the piano. Mr. Balfour's readings from the "Bonnie Briar Bush" and "Auld Lang Syne" were a genuine treat, and received deserved applause. All in all the concert was a success of the greatest kind.

We are informed that a fine lot of masquerade costumes will be brought here, coming direct from Chicago, in time for the ball Friday night. Transportation has been given free by the D. P. & A. N. for them and the person in charge, so they will probably arrive Thursday night. The ball promises to be the greatest affair of the kind ever held here, and we sincerely hope the receipts will make a large sum. John Crate has been one of our most faithful and energetic firemen, and every citizen owes it to the department to assist in aiding the good work by a generous patronage.

R. R. ALLARD, Principal. Senate Committee Will Visit the Site of the Portage Road.

The proposed state portage railway at the Dalles came up incidentally for discussion in the senate yesterday. Senator Dufur introduced a resolution setting forth that the appropriation of \$195,000 proposed in the bill for the construction of the road was undoubtedly too great, and authorizing the committee on commerce to visit the site and employ expert assistance to inspect it and to make estimates. Selling at once objected on the ground of expense. Harmon, Brownell Driver, Michell and others supported the resolution. In course of the discussion, it was stated that the entire cost of the trip, including expert assistance, would not be more than \$50. Selling withdrew his objection, and the resolution passed unanimously.

Doing Good Work.

The real estate exchange is doing good work in the line of advertising the resources of Eastern Oregon. Nearly every day communications are received from people in the East asking for pamphlets descriptive of this neighborhood. Hundreds have been sent out, and the opening of spring will give us a large immigration. A letter from a gentleman in Ohio, received this morning, states that he had passed through here in 1890, and was impressed with the idea that The Dalles, from its situation at the head of navigation, was bound to become a great city. He adds that before the year is out he will be a resident of Oregon.

THE VOTE TODAY.

Only Thirty-eight Answer to Their Names at Roll Call.

A special to THE CHRONICLE, received at 1:35 this afternoon says: "Thirty-eight answered to roll call in joint assembly today. Senator Carter came in afterwards and said he had been deceived as to the number who would be present, and indicated that he would not again come in. Many in Salem consider this the beginning of the end of the Mitchell campaign.

JUDGE BELLINGER DECIDES.

New Trial Ordered in the Boat Railway Cases. Judge Bellinger, in the United States circuit court, Tuesday morning handed down decisions in the cases of the United States vs. Seufert Bros., and against I. H. Taffe; Eugene O'Connell vs. Central bank, of Oakland and Ludwig Westenfelder vs. Flora E. Green, et al.

The most important of the decisions are the two in the Celilo boat-railway condemnation suits for right of way against Seufert Bros., and against Taffe. Both are on motions for a new trial and granting same.

This will be the third trial of the cases. On the first trial Seufert Bros. were given a compromise verdict of \$25,087.50, the amount being arrived at by the jurors pooling the sums each believed proper as damages, and then dividing the total by twelve. A new trial was granted, and on the second hearing a verdict of \$35,000 was arrived at. The government moved for another trial, and in granting it, Judge Billinger in part says:

"Importance was given on the trial by the defendants, to the adaptability of the land in question for railroad purposes, and much testimony was received tending to prove that it had a large value on that account, and it was possible that the verdict was influenced by such a consideration. Since the argument of this motion I have carefully read all the evidence in the case, and find that there was, however, nothing tending to show that another road at that point could reasonably be anticipated; that there was any existing business want or any reasonable expectation of a future want of that character, except as to a boat railway. It does not appear that there is any probability whatever that this land will be available at any time for any other kind of road. * * * The owner cannot avail himself of the adaptability of these lands to a boat railway to enhance his recovery. The character and magnitude of such an undertaking as a practical matter takes it out of the field of private enterprise. * * * I am of opinion that the compensation awarded by the verdict is excessive and the motion for a new trial should be allowed on that ground."

In the Taffe case the grounds are identical with the Seufert suit and the court's reasons for granting a new trial with slight variations the same.

PERSONAL MENTION.

Miss Jones and Miss Stevens returned to Portland this morning.

Mrs. W. H. Fowler returned to Portland this morning, after a few days' visit with relatives.

Mr. Arthur Chapman, treasurer of Klickitat county, arrived from Goldendale today, accompanied by his wife. They are on their way to Seattle.

Miss Louise Rintoul has been sick for several days, and consequently unable to attend to her duties in the school-room. Miss Rowe is also on the sick list, being absent from her school room.

Mr. A. H. Huntington and wife arrived on the noon train yesterday from Eureka, Calif., where they were recently married. After visiting a few days in the city, they will proceed to Baker county, where they will make their home.

Teachers' Examination.

Notice is hereby given, that for the purpose of making an examination of all persons who may offer themselves as candidates for teachers of the schools of this county, the county school superintendent thereof, will hold a public examination at the county court house in Dalles city, beginning Wednesday, February 10, at 1 o'clock p. m. Dated this 30th day of January, 1897. C. L. GILBERT, School Supt.

A few months ago, Mr. Byron Every, of Woodstock, Mich., was badly afflicted with rheumatism. His right leg was swollen the full length, causing him great suffering. He was advised to try Chamberlain's Pain Balm. The first bottle of it helped him considerably and the second bottle effected a cure. The 25 and 50 cent sizes are for sale by Blakeley & Houghton.

These results are prevented by the use of the Shaker Digestive Cordial, a remedy discovered and prepared by the Shakers of Mount Lebanon, N. Y. It is itself a food and has power to digest other food taken with it. Thus it rests the diseased stomach and finally masters the worst cases of dyspepsia. It acts promptly and fresh strength and increase of weight soon follows. The first dose, taken immediately after eating, abates the pain and distress so dreaded by dyspeptics. Trial bottles—enough to prove its merit—10 cents.

Laxol is the best medicine for children. Doctors recommend it in place of Castor Oil.

Electric Bitters. Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness yield to Electric Bitters. 50c and \$1.00 per bottle at Blakeley & Houghton's drug store.

I have given Chamberlain's Cough Remedy a fair test and consider it one of the very best remedies for croup that I have ever found. One dose has always been sufficient, although I use it freely. Any cold my children contract yields very readily to this medicine. I can conscientiously recommend it for croup and colds in children—Geo. E. Wolff, clerk of the Circuit Court, Fernandina, Fla. Sold by Blakeley & Houghton.

THE BEAN AUTOMATIC SPRAY PUMP.

Is, unquestionably, the most successful and perfect working Spraying Device yet invented.

It is a universal testimony that more, as well as better, work can be accomplished with the Bean Spray Pump than with any other pump on the market.

With this pump one man can charge the receptable and leave it to direct the spray just where it is wanted, and thus with sufficient hose pass from tree to tree. The solution is delivered in a fine mist or spray, penetrating every nook and corner, thus doing better and more effective work than is possible by any other method, and with no waste whatever of solution.
