A Dangerous Plaything. TO THE EDITOR—There is an old saying that "experience is a hard master; but fools won't learn from any other." But in this age of boasted enlightenment and intelligence it does seem that even fools might learn without the aid of bitter experience, and that is that fire is a dangerous element under any all conditions; and that is dreadfully dangerous to life and property when small children are allowed to have it for a plaything. The narrow escape yesterday of a little child from serious injury has prompted these remarks. It is not necessary to give the details of yesterday's incident, except to say that a little boy about 7 years old was allowed to kindle a fire dangerously near his mother's house, with which he was to amuse himself by boiling some eggs and potatoes in tin cans. He concluded, however, and told his mother, that he could have fun enough by boiling the water without any eggs and potatoes. Several neighbor children about his own age soon congregated to share in the sport, and while they were waiting for the water to boil had lots of fun chasing each other about the premises with fire brands. But the real fun did not begin till the water boiled and one little child was badly, if not seriously, scalded. It seems incredible, but it is nevertheless true that many parents are in the

habit of allowing their children to carry matches about and start fires whenever and wherever they please, to the great annoyance of neighbors and property owners.

I believe the record will fully justify the assertion that more children lose their lives, or are crippled and scarred for life, by burns than all other accidental causes combined; and yet there are intelligent (?) fools who won't learn except by experience.

OREGON'S BEST BEER.

INCREASING DEMAND FOR THE FAMOUS HOP GOLD BEER.

The Product of the Star Brewery Co. Goes to China and Japan, as Well as to all Local Points.

Among the various enterprises of the Northwest, there is one that stands at the head of the column for increase of business during the past year, and that enterprise is the Star Brewery Company, brewers of the famous Hop Gold beer.

A year ago the name of Hop Gold was unknown; today the inhabitants of every city, town and hamlet throughout Washington, Oregon and Idaho, are familiar with not alone the name, but all have knowledge of the high reputation of the beer for which the name stands, and every resident of the Northwest should feel proud to learn that the same product is being sold in China and Japan in competition with beer from Europe, and has been pronounced by every one to be of a most superior quality. The demand for Hop Gold has grown so great that the company is at present enlarging their plant and adding some of the most improved machinery, in order to supply the increasing demand of Hop Gold, which is universally admitted to be superior to any western brand of beer, and the equal of any beer brewed by the larger breweries of the East. It has always been and will be in the future the aim of the Star Brewery Co. to further home production by purchasing hops and other materials in Oregon and Washington, in place of sending the money away. The bottling department of the brewery has made wonderful strides and the bottled beer stands up by its own merits.

The Star Brewery Company deserves unbounded success, and it is certainly securing it.

If we could trace Dyspepsia to its source, it would lead back to our kitchens. In fact, the secret of good health is good cooking. If well cooked, foods are partially digested; if poorly cooked, they are less digestible than in their raw state. If you are a victim of faulty cooking; that is, if you suffer from Dyspepsia, the rational cure must be looked for in an artificially digested food, and a food which will at the same time aid the digestion of other foods. Such a preparation virtually rests the tired digestive organs, thereby restoring them to their natural strength.

The Digestive Cordial, as prepared by the Shakers of Mount Lebanon, is such a preparation, and a single 10 cent bottle will convince you of its value. If your druggist doesn't keep it, he will be glad to get it through his wholesale house.

Laxol is the best medicine for children. Doctors recommend it in place of Castor Oil.

Over Cleveland's Head. WASHINGTON, March 3.—The house passed the immigration bill over the president's veto by a vote of 193 to 37.

The True Remedy. W. M. Repine, editor Taskiwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds. Experienced with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have certain and sure cure for Coughs, Colds, Whooping Cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at Blakeley & Houghton's Drug Store.

Dangers of the Grip. The greatest dangers from La Grippe is of it resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy is taken, all danger will be avoided. Among the tens of thousands who have used this remedy for la grippe, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that this remedy is a certain preventive of that dread disease. It will affect a permanent cure in less time than any other treatment. The 25 and 50 cent sizes for sale by Blakeley & Houghton.

A HORNLESS BUCK. Killed in Michigan and sold to Be Unique in This Country. A curious and exceedingly unusual freak is reported by a deer hunter to Forest and Stream. The hunter was up in Wexford county, Mich., and got on a deer trail that had hoof marks plainly made by a buck. Almost all hunters of deer can tell a buck from a doe track. After trailing the deer, and getting within a rod of it the buck leaped out of a clump of brush and got knocked down with a bullet through the head. The deer did not have any horns, although a two-year-old, and weighing 150 pounds. Further, it never had had any horns. Does with horns, bucks with three horns, dozens of spikes, and malformed horns, have often been reported of Michigan and other American deer, but this is the first hornless American buck reported, although some European deer sometimes lack such weapons, but yet are able to whip the horned ones.
