Rev. John Reid, Jr., of Great Falls, Mont., recommended Ely's Cream Balm to me. I can emphasize his statement, "It is a positive cure for catarrh if used as directed."

Ely's Cream Balm is the acknowledged cure for catarrh and contains no mercury nor any injurious drug. Price, 50 cents.

IS WOMAN A HUMAN BEING?

This Question Was Gravely Discussed at a Bishop's Council at Macon.

In these latter days of the Nineteenth century, when woman is struggling for an equality with men in the arts and sciences and in politics, it may be interesting to know that as early as the Sixth century the "woman question" was a knotty problem confronting the sages of that period.

It was a more startling question, however, than that of these days of safety bicycles and abbreviated skirts. "Are women human beings?" was the woman question as formulated in the Sixth century.

This startling inquiry was proposed by a bishop at the council of Macon, and the reverend fathers were so amiable, and so liberal as to devote several sessions to the consideration of the subject. They did not disdain the question as useless or frivolous, but gravely undertook the task of assigning to woman her proper place in creation.

With all her faults they loved her still, and, moved partly, no doubt, by affection, they generously decided that she did not belong to the world of "muttons, beeves or goats," but was in truth a human being.

It must not be imagined, however, that this advanced theory was forced upon Christendom, says the London Mail. The council of Macon was not ecumenical, and so churchmen were not constrained to accept its decision.

WIDOWS IN WASHINGTON.

It Is a Gathering Ground Upon Which Rich Relatives Meet and Scheme.

Especially is it a great place for rich widows with daughters—that peculiar type of American women who, as soon as paterfamilias is comfortably tucked away under the sod, fly to Europe, spend years wandering about like social Bedouins, then are seized with a romantic form of homesickness. But they can't stand Porkopolis and Kalamazoo and West Jersey after Paris and London and Vienna, and Washington affords a convenient stop-gap.

It is American in location, European in habits, and, to a degree, in personnel. So they come here, buy a fine house, get in with the diplomatic corps, and the thing is done, says the Illustrated American. And Washington, which professes a lofty scorn for trade, and ruthlessly shuts the doors of society in the face of all Washington brokers, insurance agents, real estate people, and, in short, trade in every form, except banking, welcomes with open arms the retired trades people from New York, Chicago and anywhere else on the face of the globe.

NO LONGER A LADY.

She Had Nursed Her Maid Through Fever, and So Lost Taste.

An amusing instance of class formality was related to me the other evening by an intimate friend of the victim, says a Chicago paper's correspondent. The lady's maid of Mrs. Benevolent was stricken down with typhus fever, and her removal to the hospital was urged by the family.

But Mrs. Benevolent, having a great liking for the maid, would not listen to the plan, and declared she would nurse the girl herself. This she did through a long illness, and when the invalid became convalescent Mrs. Benevolent, at her own charge, sent the maid down to Brighton, that she might benefit by a cheerful stay by the sea.

After a sufficient time had elapsed for her complete restoration to health the maid was asked by post if she did not feel able to resume her duties. Her answer was an expression of gratitude for the kindness and care she had received, concluding with the sorrowful "regret that I shall not be able to return to your service, as I cannot engage myself to one who is not a lady, and, of course, no lady would have nursed and waited upon a servant, as you have done in my case."

The Father Names the Child.

The children of the Anois, a people living in northern Japan, do not receive their name until after they are five years old. It is the father who then chooses the name by which the child is afterward called.

Knew His Business.

"I don't know why you should have selected this particular site for a summer hotel," said a newly arrived guest to the landlord, who was an old acquaintance. "It strikes me as a very warm place."

"That may be," replied the landlord, "but you will find the proper temperature has been obtained. The waiters are all girls from the Boston colleges."—Pittsburgh Chronicle-Telegraph.

SURE CURE FOR PILES

DR. SO-SAN-KO'S PILE REMEDY

Children are naturally truthful. Nature does not lie. Let nothing be done to alter this happy disposition. Cultivate in them the love of truth, candor and the confession of error. It is lamentable to think what fearful falsehoods are uttered to deter children, to keep them quiet, or to make them obedient. Threats of being taken by old men, and black men, and other like terrors, are resorted to by ignorant and foolish servants to frighten them, and make them lie still in bed. It is ascertained that death, fits, idiocy, or insanity have been the consequences of such inhumanity. But, setting aside the probable chance of such calamities, there are other certain results. If the child discovers the falsehoods practiced upon him, he becomes boldly indifferent to the threats, is more disobedient and willful than ever, disbelieves all that is said to him, and, finding no respect for truth in others, has no regard for it himself. Firmness in adhering to promises, or any particular line of discipline in relation to children, is of first importance.—N. Y. Ledger.

English Lawyers. The difference between a counsel and a queen's counsel—or, in the event of a king being on the throne, a K. C.—is that the latter is supposed to be able to appear as the sovereign's advocate. Both are entitled to wear wig and gown; but the gown of the latter is silk, and the former is of "stuff." The queen's counsel can take only what is termed "leading business."

The Daisy in Australia. The ox-eye daisy, which bothers American farmers, is now spreading in many agricultural districts in Australia, being introduced with hayseed. It causes damage to grass lands.
