

DESTROYED THE FLAG

Spaniards Show Their Spite by Tearing It.

CUBANS WILL BE GIVEN FAIR PLAY

Greek Insurgents Continue Their Invasion of Macedonia, and War Seems Inevitable.

NEW YORK, April 15.—A Herald dispatch from Sagua Grande via Key West, says a report has just reached there of outrage perpetrated near the town of Encierujada, by Spanish troops, who destroyed the property owned by the wife of the British vice-consul, Mr. Harris, of Sagua Grande, and tore up an American flag which the manager of the estate, George Harris, who is an American citizen, had draped over his bed.

The estate of Mrs. Harris, called La Palma, is about two miles from Encierujada. The troops broke open the doors and removed articles of value. Finding the flag in the manager's bedroom, the soldiers carried it out with many epithets and tore it into bits. Being satisfied with their vengeance on the bit of bunting, in the absence of its owner, they departed.

The matter was reported to Mr. Harris on his return, and he promptly laid it before the British and American consular officials in Sagua, who will cause a thorough investigation.

It is said the Spanish assert that they had seen insurgents leaving the estate, but this is denied by the manager. The American consul at Sagua, his friends say, will make a full report on the flag incident. He is Mr. Barker, one of the most vigorous American representatives on the island.

FAIR PLAY FOR CUBANS.

President McKinley Will See That They Get It.

NEW YORK, April 15.—A Tribune dispatch from Washington says:

The policy of the administration in reference to Cuba is not likely to be criticized as was that of its predecessor on the score of indifference to the rights of American citizens. Secretary Sherman, unlike Olney, will see to it that imprisonment of suspects entitled to the protection of the United States for an indefinite period is no longer indulged in by Spanish officials in Cuba. He will even go further and make it plain to the Spanish authorities that they cannot, in the closing of the 19th century, be permitted to carry on war on principles widely divergent from modern civilization. In short, notice has been served on the Spanish government—informally as yet, but still in unmistakable terms—that this government recognizes a state of civil war on the island of Cuba which demands a treatment of prisoners taken in action by either side somewhat different from that which seems to have been accorded them thus far.

The immediate cause of this notice being served on the Spanish government was, of course, the capture of Cuban General Rivera and the rumor that he would be forthwith tried by drumhead court-martial and shot.

The president, immediately after the news of the fate in store for the prisoner was received, directed Secretary Sherman to draw up a protest against the contemplated action of General Weyler. Upon second consideration, however, the protest took a less formal shape. Instead of being delivered to the Spanish minister in writing, Senor de Lome was sent for by the secretary of state and informed as to the views of the administration in the matter. This protest, it is assumed was no less explicit than that which Secretary Sherman had previously drafted. At any rate it had its effect, for General Rivera is still living.

GREEKS ARE MARCHING ON.

Invasion of Macedonia Is Being Vigorously Prosecuted.

LARISSA, April 15.—There is no truth in the Turkish reports that the Greek irregulars have been driven out of Macedonia. It is true a few of the irregulars who formed a part of the expeditionary force returned into Greek territory, but these are men who for some reason have been unable to keep up with the main body of the Greeks and consequently retreated across the frontier.

The main body of irregulars is continuing its successful operations against the Turks. The report of the capture of Kipuri, north of Baltino, by the Greeks is confirmed, and in addition, the main forces of the irregulars of the expeditionary force have advanced as far as Pigavitz, where they destroyed

An important bridge across a mountain torrent.

From that point Chief Davells, who is directing operations, sent a detachment of Italians under Colonel Cipri, with instructions to capture Zlovoft, a small town occupying an important strategic position. The Italians accomplished the task with considerable skill. Chief Davells sent another column to capture Stivon. This movement was also successful. At Kritudes, Plisia and Kourduzie, heavy fighting occurred between Greeks and Turks before the places were captured.

Another column of Greek irregulars started for Macedonia from Zarkos, half way between Larissa and Trikala. Shortly after crossing the frontier the Greeks were confronted by strong forces of Turkish regular troops in well-defended positions in the villages of Anakoutra and Kahakoutra. Sharp fighting followed, but the Greeks carried both villages.

The Greeks have achieved success in occupying strategic positions by means of irregulars, within Turkish territory before war has formally been declared. Greek irregulars now hold all four roads leading from the Thessalian frontier in the direction of Greveno, which may be looked upon as a Turkish center.

According to reports received from leaders of the irregular forces, at least 1,000 mountaineers of the country traversed by Greeks have joined the irregular forces, and it is further stated the Albanians are deserting from the Turkish forces near Mount Olympus, escaping into Thessaly and joining the Greek forces.

Austrian Vessels Fired Upon.

CANEA, April 15.—The Australian torpedo-boats were fired on today by the insurgents near Kissamo, while chasing the Greek blockade runners. There has been sharp fighting around Candia between the Turks and insurgents.

Turkish Position Untenable.

LONDON, April 15.—A special from Constantinople says in the last encounter between Greek irregulars and Turkish regular troops, the latter lost 240 killed and wounded. The dispatch adds that Edhem Pasha, the Turkish commander-in-chief, has telegraphed the Turkish authorities at Constantinople that unless he is ordered to cross the frontier and take up a position on the plains of Thessaly, his present position is untenable, owing to the constant attacks of the Greek insurgents, who have entered the Turkish lines by stealth, and also in consequence of the excitement among the troops, especially the Albanians.

The Turkish ministers, it is further announced, have informed the sultan that war should be declared against Greece. The sultan, who objects to war, has not yet replied to the recommendation of his ministers.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness yield to Electric Bitters. 50c and \$1.00 per bottle at Blakeley & Houghton's drug store.

A GREAT INLAND CITY.

Professor Gilbert Tells of Its Growth and Appearance.

INDIANAPOLIS, Ind., April 12, 1897. EDITOR CHRONICLE:—I am much interested in Indianapolis as it is today the largest inland city on the American continent, and one of the most important railroad centers in this country. I was here once before in 1881, and note that its great growth has been practically one of two decades. It is certainly a handsome city, with its magnificent business blocks, public buildings, and handsome residences. The area within the city limits was about twenty square miles, but since the including of the suburbs a few days ago it must be vastly increased. About 1870 the citizens began to have aspirations toward making the city a great commercial and manufacturing center, not unlike Los Angeles, Portland or Seattle. An era of speculation seized upon the people, discretion fled to the woods—the dog got its tail pinched. The rapid growth of population I take from "Indianapolis Handbook," which shows for 1870, 36,565; in 1880, 75,074; in 1890, 128,000; and today the claim is 210,000. This last I cannot give on authority, yet Greater Indianapolis is now realized since the accession of West Indianapolis, Haughville, North Indianapolis Irvington and Brightwood.

Of course the surroundings of the city are not so picturesque as our western cities, with their mountains, rivers, lakes, sounds and the ocean. The streets of the city are in first-class condition. Forty-five miles are paved with asphalt, brick or cedar blocks, and the rest is graveled. Over fifty miles of sewer constructed within the last five years, cost over \$4,000,000. Besides using gas for lighting the streets, there are over 850 electric lights.

I learn that the water supply for the city comes from deep wells near here, is pumped through large iron mains, and supplied to consumers by direct pressure from the pump house. It is abundant, clear and pure.

By letter yesterday I learn that Maude is visiting in Ft. Wayne and Defiance, O.; Clarence is in Danville, Ill., and Mrs. Gilbert at Andrews.

A few days ago I stepped up to the stamp window of the postoffice and, laying down a quarter, said: "Two bits worth of stamps, please." "How many?" said Uncle Sam's man. I repeated. He gave me the cold, glassy stare. We eyed each other for a moment, and neither spoke. Then I said: "Twelve two-cent stamps and a card, please." It did not occur to me till after I was out on the walk what was the matter with the fellow.

Stands at the Head.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for Consumption, Coughs, and Colds. I cannot say enough for its merits." Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Free trial bottles at Blakeley & Houghton's drug store.

Wants No Office.

DALLAS, Tex., April 15.—A special to the News from Fort Worth says: Hon. James Martin, of Brattleboro, Vt., who is largely interested in Fort Worth & Texas realty, has arrived in this city. Mr. Martin had been in the city but a little while when telegrams reached him announcing that President McKinley had decided to nominate him for assistant secretary of war. He said in an interview:

"While I am alive to the honor involved I have replied requesting that I be not nominated for the position. My family and business combined render it impossible for me to accept. This is my conclusion after due consideration, and notified Senator Proctor and Morrill of my state."
